Erbil International Fair 15 - 18 October 2012

Dear Exhibitors and Visitors,

Welcome to **Erbil International Fair 2012!**

For the 8th consecutive year, International Fairs & Promotion (IFP Iraq) organizes the International Multisector Trade Fair in Iraq, Erbil International Fair 2012. Marked by its continued year-on-year success, this exhibition has become the largest of its kind in the country and provides all businesses with rewarding opportunities to enter Iraq's ever expanding market.

Held under the auspices of the Kurdistan Regional Government, the exhibition will take place at the Erbil International Fair Ground. Erbil as a city has become the ideal meeting place for companies wishing to safely enter the country and take advantage of Kurdistan's fast growing economy and political stability.

As a result of the impressive number of companies involved every year, Erbil International Fair covers a wide range of various economic sectors with a vast selection of different products and services on display, including engineering, electronics, furniture, telecommunications, fashion, banking, handicrafts and much more. The exhibition this year will also feature two newly introduced sectors, Education and Tourism, adding to the diversity of the show as a whole.

Further to the above, Erbil International Fair benefits from the support of a large number of international government agencies, chambers of commerce, ministries, embassies and trade associations and will therefore open its doors to the general public to meet and network with decision-makers and representatives of these particular institutions, as well as do business with dealers, distributors and buyers in general.

All in all, the exhibition provides a rewarding business environment, where exhibitors and visitors alike can meet in one place to network and discuss business face-to-face, optimizing their time and spending. It is the principle venue to build long-term business relations with Iraqi companies and institutions and broaden export frontiers to the prosperous Iraqi market.

We wish exhibitors and visitors a productive and gratifying experience. Once more, welcome to Erbil International Fair 2012, and thank you for your presence and contribution

Albert Aoun
Chairman & CEO
IFP GROUP

The organizers wish to thank the following official trade bodies, trade associations and organizations for their participation and support

Iraq:

- Kurdistan Regional Government (KRG)
- Iraqi Ministry of Industry & Minerals
- Kurdistan Federation of Chamber of Commerce and Industry

Austria:

- Austrian Federal Economic Chamber (WKO)
- Advantage Austria

China:

- CCPIT (China Council for the Promotion of International Trade)

Czech Republic:

- Ministry of Industry and Trade of the Czech Republic
- Confederation of Industry of the Czech Republic
- Czech Trade Promotion Agency

Egypt:

- Egypt Expo & Convention Authority (EECA)

Germany:

- German Federal Ministry of Economics and Technology (BMWi)
- In cooperation with:
 - Association of the German Trade Fair Industry (AUMA)
 - VDMA – German Engineering Federation
 - NUMOV German Near and Middle East Association

Iran:

- Ministry of Industry, Mines & Commerce
- TPO (Trade Promotion Organization)

Jordan:

- Jordan Enterprise Development Corporation (JEDCO)

Kuwait:

- Public Authority for Industry

Syria:

- Syrian Exporters Federation

Turkey :

- Republic of Turkey Ministry of Economy

United Arab Emirates:

- Government of Sharjah

United Kingdom:

- UKTI (United Kingdom Trade & Investment)

Established in 1988 in a small factory stretching on 200 square meters, with 5 workers, and with the blessings of God, and thanks to our hard work, we now moved to our new factory of 5000 square meters, with 100 workers. We developed our factory in quality and focused on the way of dealing with customers, and our main aim was our customer satisfaction, and after 25 years we are one of the main factories in our area. We are exporting to most of Arabic countries as well as to Turkey, Armenia, Russia and Ukraine.

E-mail: info@aci.com.jo
Web: www.aci.com.jo

Agro Chemicals Industries Ltd. (ACI) is a Jordanian owned company whose activity started in import / export of agricultural materials, and household products. This is in addition to its main activity now being a formulator of pesticides (Fungicides, Herbicides, Insecticides, etc.) and public health insecticides. ACI main objective has been to create a company which offers new and more personal service to the client than was previously possible. We believe that pesticides will live with us for the foreseen future. But trends will concentrate on providing safer pesticides to living creatures, to man & environment and biotechnology and will have the major role in the future development.

Accordingly, we are focusing on producing formulations of safe agrochemicals. With this in mind we will concentrate on this aspect with all research & development work toward safe pesticides formulations, which will be safe for handling, packing, transport & storage and safe to applicators and to the environment.

Profiles: Agriculture

Chocolate Manufacturing Company is a privately owned company established in 1996, with the aim to producing the finest quality REAL Chocolate in the region. The factory is located in the industrial zone, Marka, (a suburb of the capital, Amman) Jordan.

Our policy is to insist on lonely the best quality cocoa liquor from the West Africa and South America.

We manufacture our Chocolate from especially cocoa liquor "prime-press" pure cocoa butter (which contains absolutely no substitute or equivalent fats).

We combine these with full-cream milk powder from Switzerland and sugar, to our own high specifications. These choice ingredients are then skillfully blended to produce the unique and distinctive taste that is ROBERT'S Chocolate.

ROBERT'S CHOCOLATE is our unique brand name and also the name of one of the co-founders.

Our lifelong passion for Chocolate has motivated us to develop a variety of luxury Chocolate and Chocolate related products of internationally renowned quality and standards.

The signature-style script chosen for the (Robert's) long was designed to convey to consumers the uniqueness of our Chocolate – just as a person's signature is unique and distinctive, so is our Chocolate – UNIQUE, DISTINCTIVE AND QUITE SIMPLY THE BEST!

We have our own distribution crew that covers all areas in Jordan.

Artawheel Tire Industrial Complex is known as the biggest tire manufacturer Plant in west north of Iran, 6km to Ardebil. Due to the importance of indoor production in increasing the national income and development in export of non oil products, also in order to achieve independence in tire field, Artawheel Tire Company commenced its production activities and chose "Goldstone" as its trademark. This Company produces various types of tires, tubes and flaps for passengers and heavy vehicles with a primary annual production capacity of 5,000 tons which increased to 25,000 tons per year after a short time. After a while, Goldstone trademark was a well-known brand among the users and thus put more responsibility on the managerial task. So the demand increase led to the supply increase and today the factory manufactures more than 40,000 tons of tires per year in more than 30 sizes (Passenger tire, heavy truck tire and agricultural tire, etc...) and which shall be expanded in our future development plans.

Profiles: Tire Manufacturer

 E-mail: info@betel-net.com
 Web: www.betel-net.com

The company BeTel (former Shad Computer Center) was founded in the year 1994. The initial business target was to enrich the local Iraqi IT society, to provide a one-stop shop for all IT requirements, design of networks, supply of hardware, installation and support, in addition to organizing training services and courses. In 2004, there was an increasing demand for additional services especially for implementation of wireless technology, VSATs, Satellite internet and wireless links because of poor landline infrastructure in Iraq. We reacted to this demand and changed the name of the company to BeTel and extended the services in a way that BeTel has become a leading IT company in Iraq which can cope with any custom tailored solution of any size. Company registration No. 876, date 6 July 2004 Ministry of communication, Trade and installing communications devices. Official Wireless Internet Service Provider

CONFEDERATION OF INDUSTRY OF THE CZECH REPUBLIC
 Representing those who create value

Is a voluntary non-political and non-governmental organization that brings together employers and enterprises in the Czech Republic. It is the largest alliance of employers and represents a predominate part of Czech industry. Its mission is to participate in shaping the Czech Government's economic and social policy in order to create optimum conditions for business development in the country and to assert the common interests of its members. It also provides a range of services for its members supporting their successful activities on markets abroad.

The Confederation's membership includes some 1,500 entities. This includes 113 direct member companies and 31 so-called collective members, which are organizations joining firms based on their common industry, professional or regional interests.

The Confederation represents Czech employers and enterprises in the international organizations:

BUSINESSEUROPE - Confederation of European business, www.businesseurope.eu
 BIAC - Business and Industry Advisory Committee to the OECD, www.biac.org

Established under a special Act as a 100% government-owned bank, CEB provides all kinds of state-supported export financing under most favourable terms and conditions in accordance with the rules of the OECD Arrangement. The governmental support is reflected mainly in longer maturities of export credits granted at attractive interest rates, usually fixed for the entire credit life. Other services include refinancing of local and foreign banks and/or co-financing of major Czech export projects.

Products and Services:
 Seller's and buyer's export credits
 Pre-export financing
 Financing of Czech investments abroad
 Project finance
 Bank guarantees
 Cross-border payments

General Ceramics is a competitive reality in the local, regional and international sanitary ware markets and remains the reliable partner for the supply of quality products for government, commercial and residential projects in the local and export markets.

A Pioneer

General ceramics, a pioneer manufacturer in the gulf region, was established in 1978 and ceremonially inaugurated by His Highness Sheikh Sultan Bin Mohamed Al Qasimi, with the aim of serving the local industry in response to the growing demand for quality sanitary ware and acrylic to supply the burgeoning and increasingly discerning construction industry.

History

The first bathroom suite produced by General Ceramics was "Al Nisr", an ever-green model which is still popular today.

Since these humble beginning, General Ceramics has designed a wide variety of products and models for its product catalogue – a comfortable selection of Ceramic bathroom suites, Special Needs Suites, Child Care Suites, Counter Wash Basins, Wall-mounted Wash Basins, Fire Clay Sinks & Shower Trays, Accessories and Acrylic Bath Tubs and Shower Trays. This versatile product range allows our customers to create their own exclusive harmonizing bathroom environment. Today General Ceramics is a competitive reality in the local, regional and international sanitary ware markets and remains the reliable partner for the supply of quality products for government, commercial and residential projects in the local and export markets.

General Ceramic's products conform to BS 3402 for Vitreous China, BS 1206 for Fire Clay and BS 4305 for Acrylic and the company operates under an ISO 9001: 2008 regime certified by Vincotte International Middle East LLC.

Better Products, Better Service!

Gulf International Packaging (GIPAK) was established in 2007 satisfying a real need in the food service market-place for high-quality foam and rigid plastic packaging. We are committed to providing our customer with higher quality products, better service, and improved product designs.

GIPAK is an active arm operating under the umbrella of the well-established Bahrani Group which traces its history back to 1925 and is involved in manufacturing and trading businesses in the fields of food, consumer goods, packaging, building materials, construction, and electrical & electronic appliances. The Bahrani Group is one of the most innovative industrial groups in the region, applying new technologies, system, and techniques in its businesses and management practices. Building on its solid reputation of high quality, excellent service, and fast response, GIPAK designs and manufactures packaging for food service, catering, fruit, vegetable produce, meat poultry, fish, cheese, egg, and bakery applications. We have also introduce new materials such as PET and PS crystal clear packaging into the market, have enabled GIPAK to become a major exporter to many countries in the Middle East and North Africa. We have also recently launched new innovative products such as highly absorbent trays that are providing real competitive advantage to the companies that use them.

Hijazi & Ghosheh Co Ltd., is one of the leaders in the region for livestock transporting and trading which is the core business.

In addition to the core business we import and export frozen meat (fish, poultry, lamb and beef). We produce non-alcoholic malt drinks, soft drinks and juices in our beverage factory under the brand names "PROUD" & "MOOD".

We also produce processed chilled, frozen and canned meat products in our meat factory under the brand name "Jordanian ALMARAAI" & "ANWAR ALQUDS". All our products range is certified by International food standard quality certificate such as ISO, HALAL, HACCP. These certificates can guarantee and ensure to all buyers gaining the high-quality products.

Hijazi & Ghosheh Co Ltd., is always on the lookout for viable ventures; the company entered into the field Halal Meat processing in the year 1991 and within a short span of time has established a distinguished superior quality level among other suppliers in the region. The same has been applied with our five years old beverage factory. The Group gives access to prime quality livestock, raw meat, frozen meat, processed meat, and HALAL beverages which are being supervised by strict quality inspectors and high standards. All products are packed hygienically in proper packing that retains the original freshness of the food for longer period of time.

Profiles: Beverages, Food, Meat products

Created by Unidrug in 1999, Igena provides the local and regional markets with paper tissue products, as well as essential hygiene items. From the start, Igena has consistently been a market leader in Lebanon, providing customers with high-quality products that make life easier for people.

Throughout the years, Igena has forged the reputation of being a first rate, professional supplier of a wide range of highly efficient items. All Igena tissue products are manufactured in Lebanon, playing an integral part of a developing economy, and providing customers economical solutions with better quality items they need.

Igena specializes in hygiene products for professional and consumer use, and the brand's complete line can be customized to display any company's logo and brand identity.

Business Development:

In order to expand regionally, Igena is now looking for partners to distribute and manufacture its products in Erbil.

Igena firmly believes that the key to forming solid partnerships that last for decades is through products and systems that take their partners well into the future.

Profiles: Hygiene products such as: paper products (hand towels, toilet rolls, napkins...etc), detergents, air fresheners, trash bags, facial tissues...etc

The Development and progress of the Group of Companies established by Mr. Mohammad Abu Haltam tells a success story, which events took place in very difficult & challenging times.

The growth rate of the company had increased dramatically, during the last ten years, during which, new production lines were introduced, to produce Air-conditioning units, Washing Machines, Refrigerators, Freezers, water dispensers, microwave ovens and LCD Television sets, in technical collaboration with the biggest international companies.

A series of successes were achieved afterwards, from penetrating the local market, and realizing a big market share, to developing Arab and regional markets, where 50% of the Group products are being exported to the markets of Syria, Egypt, Saudia, Lebanon, Iraq, Palestine and other countries.

The Group strategies focused from the very beginning on introducing high-quality products, to meet or exceed customers expectations, this yielded a brand loyalty for the Group's main Brand Name "GENERAL DELUXE", which has become one of the famous brands locally and in the region.

M.Abu Haltam Group for investments, is considered, a huge industrial complex, that tells a success story. From a small trading company, this Group has grown into a big corporate, with hundreds of employees, and with tens of thousands of produced units yearly, that are being sold locally, or exported to more than ten countries.

MIP (Mersin International Port) is a joint venture between PSA International and Akfen Holding.

Mersin International Port (MIP) is located in Turkey's East Mediterranean Sea and serves as a gateway to Iraq. The port's rail link and its easy access to the international highway make it an ideal transit port for trade to the Middle East and the Black Sea regions. With its modern infrastructure and equipment, efficient Cargo handling, vast storage areas and its proximity to the Free Trade Zone, MIP Port is a strategic hub in East Mediterranean and is the largest port in Turkey. Multipurpose facilities cater for all types of Cargo including container, general Cargo, Project Cargo, ro-ro, livestock, dry and liquid bulk cargoes.

A special stockholding company, founded by a number of shareholders who represent a unique group of businessmen and merchants known at the level of the Iraqi and regional market, and have extensive experience in promoting and developing the national economy according to the foundations of modern scientific knowledge through the adoption of technological as well as industrial equipment used in Arabic and international banks.

The bank obtained permit of establishment issued by the Registrar of Companies, No. M. SH / 9713 on 7/10/2003, and the granting of banking practice by the Iraqi Central Bank, No. 9/3/341 in 9/3/2004, and began its provision of banking services to clients on 04/01/2004 with a capital of two and a half billion Iraqi dinars.

Due to the continued success and superiority, the management felt the need to increase the capital again during 2006, and it obtained the consent of the General Board in 24/12/2006 to increase the capital to one hundred billion Iraqi dinars.

By the end of 2011 North Bank increased its capital to 170 million dollars. The course of the bank since its establishment has been full of superiority and success, which prompted and encouraged the people working there to strengthen its economic base and to increase its competitiveness in the financial market.

Petra Engineering Industries design and manufacture high quality HVAC equipment in accordance with globally recognized standards. Petra's HVAC equipment offer comprehensive solution with the highest level of comfort and luxury for its customers in all its markets.

Petra Engineering Industries Co. was founded in 1987 with a broad vision to produce a wide variety of HVAC equipment that meet a diversity of application requirements and to export to major worldwide markets. The execution of successful corporate and business strategies to this effect soon took Petra to great heights and enabled them to begin competing with long established companies.

By 1994, Petra expanded its line of HVAC equipment utilizing some of the industries most advanced machinery and raw materials to achieve the highest quality standards. Their equipment was quickly gaining recognition in over 20 countries worldwide. To handle the increasing demand for their products, the facilities were expanded and the technology of the products was continually improved. With the advent of the new millennium, Petra was designing and manufacturing a large array of quality HVAC equipment to suit all commercial and industrial applications. Their strategic finesse and exceptional products enabled them to enter the US market. Being one of the most competitive and challenging markets, the US symbolized a major milestone of success for Petra. With dedicated drive, Petra continues to export to the US and over 50 countries worldwide.

Today, Petra Engineering Industries Co. is a market leader as a designer and manufacturer of sophisticated, high quality commercial and industrial HVAC equipment. The company has 2 grown significantly and today has a facility that is over 300,000 m with more than 1500 highly competent technical and managerial employees, and to cope with the increasing demands for Petra's products Worldwide, Petra has embarked on an expansion program to 2 2 build a 200,000 m production facility at Mafrq – Jordan and a 30,000sqm facility in Saudi Arabia.

Petra will persevere in doing the utmost in terms of innovation and quality achievements to continue providing its customers throughout the world with the comfort and value they expect
