

China Standards Notes

June 19, 2009

- The Standardization Administration of China (SAC), National Development and Reform Commission (NDRC) and Ministry of Industry and Information Technology (MIIT) jointly announced standardization guidelines for ten key industries. <http://www.sac.gov.cn/templet/default/ShowArticle.jsp?id=5099>
- The State Food and Drug Administration (SFDA) announced a “Notice of National Drug Coding Administration Implementation”. <http://www.sfda.gov.cn/WS01/CL0050/38931.html>
- The China National Institute of Standardization has launched standardization work for compulsory “Minimum Allowable Values and Target Values for Recyclability Rates for Products Part II”. It will include televisions and computers. http://www.cnis.gov.cn/xwdt/zhxw/kyxw/200906/t20090618_5049.shtml
- China’s Ministry of Health (MOH) announced “Administration Rules for Food Safety Industry Standards Filing.” Industry standards are required to be filed if there is no national or local standard, or if the industry standard is stricter than the national standard. <http://www.moh.gov.cn/publicfiles/business/htmlfiles/mohzcfgs/s3572/200906/41211.htm>
