U.S. Commercial Service Client Success

Jump Design Group, a New York City-based apparel manufacturer, used our “Gold Key” service to connect with buyers in multiple locations around the world. According to the company, the Gold Key “really opened doors” overseas. Jump is a small business with 230 employees, manufacturing all its clothing within a 20-mile radius of New York City.

In support of a contract on which Baltimore-based Ellicott Dredges was bidding, we facilitated government-to-government advocacy for the company. Ellicott won the multi-million dollar contract, despite “tough competition from a Dutch company.”

9 out of 10 customers would recommend us to others. Here’s why.
