India Initiates Antidumping Duty Investigation into Polyethylene Terephthalate Film (PET film) from the United States, Bangladesh, China, and Thailand

On September 30, 2025, India’s Directorate General of Trade Remedies (DGTR) [initiated](#) an antidumping (AD) investigation into imports of PET film from the United States, Bangladesh, China, and Thailand. If an affirmative decision is issued in this investigation, duties may be imposed on subject U.S. exports.

What is an antidumping duty (AD) investigation?

An AD investigation assesses whether foreign goods imported into a country are being sold at less than fair value (below prices or costs) in the domestic market (i.e., being dumped) and whether this is causing or threatening to cause injury to the domestic industry.

How can I participate?

U.S. companies involved in the production, sale, or distribution of the subject goods should register as interested parties as soon as possible. Registration is the first step in protecting your rights in a foreign trade remedy proceeding. Doing so allows you to access the case records and submit information and comments, ensuring that your views are considered. To register and file questionnaire responses, please email DGTR at: jd11-dgtr@gov.in and dir14-dgtr@gov.in, and copy adv11-dgtr@gov.in and consultant-dgtr@gov.in.
