The notification conforming to the requirements of the regulations of the Foreign-Trade Zones Board (15 CFR 400.22) was received on May 3, 2013.

On its domestic sales, Vestas would be able to choose the duty rates during customs entry procedures that apply to wind turbines, nacelles, hubs, blades, and towers (free, 2.5%) for the foreign status inputs noted below. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

Chinook salmon (*Oncorhynchus tshawytscha*): threatened, naturally produced and artificially propagated Snake River spring/summer.

Steelhead (*O. mykiss*): threatened, naturally produced and artificially propagated Snake River.

Background

Section 9 of the ESA and Federal regulations prohibit the “taking” of a species listed as endangered or threatened. The term “take” is defined under the ESA to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may issue permits to take listed species for any act otherwise prohibited by section 9 for scientific purposes or to enhance the propagation or survival of the affected species, under section 10(a)(1)(A) of the ESA. NMFS regulations governing permits for threatened and endangered species are promulgated at 50 CFR 222.307.

Between October 10, 2010, and July 15, 2011, NMFS received applications, in the form of HGMPs, from the Oregon Department of Fish and Wildlife (ODFW), Washington Department of Fish and Wildlife (WDFW), and U.S. Bureau of Indian Affairs for ESA section 10(a)(1)(A) permits for the direct take of ESA-listed Snake River spring/summer Chinook salmon and ESA-listed Snake River steelhead in order to carry out artificial propagation (hatchery) programs in northeast Oregon and southeast Washington in the Grande Ronde, Tucannon, and Imnaha River basins. An additional application, for operation of the Lookingglass Hatchery spring Chinook salmon program was received from the ODFW in January 2012. The purpose of these programs is to support conservation, as well as harvest in tribal, recreational, and commercial fisheries.
