SUPPLEMENTARY INFORMATION: The Department of Commerce, International Trade Administration, Office of Advisory Committees and Industry Outreach, is accepting applications for United States Travel and Tourism Advisory Board (Board) members. The Board was established pursuant to the Department of Commerce's authority under 15 U.S.C. 1512 and under the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (FACA), to advise the Secretary of Commerce (Secretary) on matters relating to the U.S. travel and tourism industry. The Board provides a means of ensuring regular contact between the U.S. Government and the travel and tourism industry. The Board advises the Secretary on government policies and programs that affect United States travel and tourism, including the implementation of the National Travel and Tourism Strategy, and the Board serves as a forum for discussing and proposing solutions to industry-related problems. The Board acts as a liaison among the stakeholders represented by the membership and provides a forum for those stakeholders on current and emerging issues in the travel and tourism sector. The Board recommends ways to ensure that the United States remains the preeminent destination for international visitation and tourism throughout the world.

Members shall represent companies and organizations in the travel and tourism sector from a broad range of products and services, company sizes, and geographic locations and shall be drawn from large, medium, and small travel and tourism companies, private-sector organizations involved in the export of travel and tourism-related products and services, and other tourism-related entities.

Each Board member shall serve as the representative of a U.S. company in the travel and tourism industry, a private sector U.S. organization involved in the export of travel and tourism-related products and services, or a tourism-related U.S. entity. For eligibility purposes, a "U.S. company" is a for-profit firm that is incorporated in the United States (or an unincorporated U.S. firm with its principal place of business in the United States) that is controlled by U.S. citizens or by other U.S. companies. For eligibility purposes, a "U.S. organization" is an organization, including trade associations and nongovernmental organizations (NGOs), established under the laws of the United States, that is controlled by U.S. citizens, by another U.S. organization (or organizations), or by a U.S. company (or companies), as determined based on its board of directors (or comparable governing body), membership, and funding sources, as applicable. For eligibility purposes, a U.S. entity is a tourism-related entity that can demonstrate U.S. ownership or control, including but not limited to state and local tourism marketing entities, state government tourism offices, state and/or local government-supported tourism marketing entities, and multi-state tourism marketing entities.

Members of the Board will be selected, in accordance with applicable Department of Commerce guidelines, based on their ability to carry out the objectives of the Board as set forth above. Members of the Board shall be selected in a manner that ensures that the Board is balanced in terms of points of view, industry subsector, range of products and services, demographics, geography, and company size.

Additional factors which will be considered in the selection of Board members include candidates' proven experience in the strategic development and management of travel and tourism-related or other service-related organizations; or the candidate's proven experience in promoting, developing, and implementing advertising and marketing programs for travel-related or tourism-related industries.

Priority may be given to a Chief Executive Officer, Executive Director, or President (or comparable level of responsibility) of a U.S. company, U.S. organization, or U.S. entity in the travel and tourism sector.

Members shall serve a term of two years from the date of appointment, at the pleasure of the Secretary of Commerce. Although the Board's current charter terminates in September 2015, it is anticipated that it will be rechartered.

Members shall serve in a representative capacity, representing the views and interests of their particular industry subsector. Board members are not special government employees, and will receive no compensation for their participation in Board activities. Members participating in Board meetings and events will be responsible for their travel, living and other

personal expenses. Meetings will be held regularly and, to the extent practical, not less than twice annually, usually in Washington, DC.

In 2012, U.S. exports to South and Central America plus the Caribbean totaled \$205 billion.

Market Overview and Top Prospects for U.S. Goods and Service Exports

Colombia

Colombia houses the 3rd largest market in Latin America, with 47 million inhabitants. Five cities in Colombia boast a consumer base of more than a million people. Colombia is the fastest growing market in Latin America for oil and gas production. Best prospects include oil and gas machinery and services, transportation and infrastructure, mining and construction equipment, information technology and communications, military equipment, auto parts and accessories, electrical power systems, travel and tourism, food beverage processing and packaging equipment and medical equipment.

Peru

Peru's long-term economic stability and very low inflation rate help to make it one of the highest ranked countries in Latin America for U.S. companies to conduct business. GDP growth in 2012 was around 6.2%, and has been at this high level for the last 10 years, with only a brief break in 2009. Growth is driven by a growing middle class, and supported by continued growth in the mining and gas industries. Lima, the commercial center and capital, is home to nearly 8 million people, and is the largest city in this country of almost 30 million.

Best prospects include mining industry equipment, plastic materials and resins, construction equipment, industrial chemicals, telecommunications equipment, oil and gas field machinery, pumps, valves, and compressors.

Chile

Chile is the third largest export market in Latin America for the United States. Driven by mining, forestry, agriculture, and fishing, Chile imported nearly \$20 billion in U.S. products in 2012. Known for its political and economic stability, Chile has posted average GDP growth of 5 percent per year for more than 20 years running. Doing business in Chile has never been easier as the World Bank's "Ease of Doing Business" index ranks Chile #1
