

70th ANNUAL REPORT of the

Foreign-

Trade

Zones

Board

to the

Congress

OF THE UNITED STATES

Foreign-trade zones are secure areas under supervision of U.S. Customs and Border Protection (CBP) that are considered outside the customs territory of the United States for the purposes of duty payment. Located in or near customs ports of entry, they are the U.S. version of what are known internationally as free trade zones. Authority for establishing these facilities is granted by the Foreign-Trade Zones Board under the Foreign-Trade Zones Act of 1934, as amended (19 U.S.C. 81a-81u), and the Board's regulations (15 C.F.R. Part 400). The Executive Secretariat of the Board is located within the Import Administration of the U.S. Department of Commerce, Washington, D.C. 20230.

Foreign and domestic merchandise may, subject to FTZ Board and CBP regulations, be moved into zones for operations not otherwise prohibited by law involving storage, exhibition, assembly, manufacturing, and processing. All zone activity is subject to public interest review, and all manufacturing and processing activity requires a case-by-case review. Under zone procedures, the usual formal customs entry procedure and payment of duties are not required on the foreign merchandise unless and until it enters customs territory for domestic consumption, in which case the importer normally has a choice of paying duties either on the original foreign materials or the finished product. Domestic goods moved into a zone for export are considered exported upon entering the zone for purposes of excise tax rebates and drawback. FTZ sites and activities remain within the jurisdiction of federal, state and local governments and agencies.

Zones are sponsored by qualified public or public-type corporations, which may themselves operate the facilities or contract for their operations with public or private firms. The operations are conducted on a public utility basis, with published rates. A typical general-purpose zone provides leasable storage/distribution space to users in general warehouse-type buildings with access to all modes of transportation. Most zone projects include an industrial park site with lots on which zone users can construct their own facilities. Subzones are usually private plant sites authorized by the Board through zone grantees for operations that cannot be accommodated within an existing general-purpose zone.

The regulations of the Foreign-Trade Zones Board are published in the Code of Federal Regulations at Title 15, Part 400 (15 C.F.R. Part 400), and the regulations of U.S. Customs and Border Protection concerning zones at Title 19, Part 146 (19 C.F.R. Part 146). Information on foreign-trade zones is available on the FTZ Web site at: <http://www.trade.gov/ftz>.

REPORT OF THE EXECUTIVE SECRETARY

During the 2008 fiscal year, the Foreign-Trade Zones (FTZ) Board issued 47 formal orders. The decisions included approvals for one new general-purpose zone and 20 new subzones. Authority was also granted for the expansion of 10 existing general-purpose zones. Other actions included six expansions of the scope of manufacturing activity, as well as six approvals for new manufacturing activity in zones.¹

There were 164 FTZ projects fully active during the year, with subzones in operation in more than 100 of them. The number of facilities using subzone status during the year was 254.

The combined value of shipments into general-purpose zones and subzones totaled over \$692 billion, compared with \$502 billion the previous year (Table below and Appendix D). General-purpose sites received nearly \$75 billion in merchandise. Total shipments received at subzone sites amounted to over \$617 billion. Some 89 percent of zone activity took place at subzone facilities, which is consistent with the pattern of the past 15 years.²

¹ Appendix A contains a summary of each Board Order. Zone authority for manufacturing/processing activity was granted on a restricted basis in eight cases, and activation/time limits were adopted in another five cases. The main products covered by restrictions included crude oil, steel and textiles.

² Appendices B and C contain figures on shipments into and out of general-purpose zones and subzones. Appendix D contains comparative statistics for the past five years. The figures regarding merchandise, employment, products, and other activity in zones represent the latest statistical data available based on reports from zone grantees.

³ The dollar values in this report and appendices are rounded numbers. Calculations were performed before rounding using the complete numbers.

Exports (shipments to foreign countries) from facilities operating under FTZ procedures amounted to over \$40 billion (Figure 2). The export figures do not include certain indirect exports involving FTZ merchandise that undergoes further processing in the United States at non-FTZ sites prior to export.

Approximately 330,000 persons were employed at some 2,500 firms that operated under FTZ procedures during the year. The main foreign-origin products received at zones are listed in Appendix E.

Industries that continued to account for most zone manufacturing activity included the oil refining, automotive, pharmaceutical, and electronic product sectors. About 57 percent of the shipments received at zones involved domestic status merchandise. The level of domestic status inputs used by FTZ operations indicates that FTZ activity tends to involve domestic operations that combine foreign inputs with significant domestic inputs.

The Board received and filed 52 formal applications during the fiscal year. These proposals requested authority for one new general-purpose zone and 24 subzones, as well as authorization for expansion, reorganization, new manufacturing, and other changes at existing zone projects. The FTZ Board's notices on the applications can be found on the FTZ Board's website (www.trade.gov/ftz) under "Notices and Board Orders." In addition, some 93 cases were processed under the Board's less formal administrative procedures (Appendix F). The latter cases involved routine, non-controversial changes to zone projects, such as boundary modifications and scope decisions, as well as cases processed under the temporary/interim manufacturing procedures.

APPENDIX H:
GLOSSARY OF TERMS, ABBREVIATIONS, AND ACRONYMS

Admit, Admission are the CBP terms describing the shipment of merchandise *into* U.S. foreign-trade zones under CBP supervision (19 C.F.R. 146.1).

Board means the Foreign-Trade Zones Board, which consists of the Secretary of the U.S. Department of Commerce (chair) and the Secretary of the U.S. Treasury, or their designated alternates.

CBP is the abbreviation of United States Customs and Border Protection.

CFR is the abbreviation for the Code of Federal Regulations.

Customs means United States Customs and Border Protection (CBP) of the U.S. Department of Homeland Security.

Domestic origin/duty paid describes zone merchandise that is mainly of domestic origin, but also includes foreign-origin merchandise on which customs entry and duty payments have been made prior to admission to the zone site.

Domestic status (also, **domestic status inputs**) is used synonymously with **domestic-origin/duty-paid** (see above). Domestic status is the customs status (19 C.F.R. § 146.43) for domestic-origin and duty-paid foreign-origin zone merchandise.

Entry for consumption is the term that describes the general CBP process of filing the appropriate customs documents that allows merchandise to be brought into the commerce of the United States (19 C.F.R. 141). With respect to foreign-trade zones, this process occurs when merchandise is shipped from the zone into U.S. commerce.

EXP refers to an expansion of a general-purpose zone or subzone.

Exports describes the category of merchandise that is forwarded from zone sites to destinations in foreign countries.

EXT refers to an extension of a time limit placed on zone sites or activity.

Foreign-trade zone is a restricted-access site, in or adjacent to a CBP port of entry, operated pursuant to public utility principles under the sponsorship of a corporation granted authority by the Board pursuant to the Foreign-Trade Zones Act (19 U.S.C. 81a-81u) and regulations (15 C.F.R. Part 400), and under supervision of U.S. Customs and Border Protection.

Foreign status (also, **foreign status inputs**) describes zone merchandise admitted to a zone site under CBP supervision that is normally of foreign origin. Such merchandise is admitted to zone sites without being subject to formal customs entry procedures and payment of duties, unless and until the foreign merchandise enters customs territory for domestic consumption. Foreign status merchandise is further categorized by CBP as either **non-privileged foreign** or **privileged foreign**.

Forwarded (also, **shipped**) describes the category of merchandise that is shipped from or forwarded from zone sites after release by CBP. This category includes merchandise that is forwarded to destinations in the U.S. market as well as merchandise that is exported (i.e., forwarded to markets in foreign countries).

FR is the abbreviation for the *Federal Register*.

FTZ means a foreign-trade zone.

FY is the abbreviation for fiscal year. The fiscal year for the federal government begins on October 1 and ends September 30 of the following year.

Grant of authority is a document issued by the Board that authorizes a zone grantee to establish, operate, and maintain a zone project or a subzone, subject to limitations and conditions specified in the Board's regulations (15 C.F.R. Part 400 and 19 C.F.R. Part 146). The authority to establish a zone includes the authority to operate and the responsibility to maintain it.

Manufacturing means activity involving the substantial transformation of a foreign article resulting in a new and different article having a different name, character, and use.

Merchandise received involves merchandise received into activated FTZ space under FTZ procedures by foreign-trade zones and subzones. It includes foreign status merchandise and domestic status merchandise.

MFG refers to manufacturing activity within a general-purpose zone or subzone.

Non-privileged foreign status is one of two customs categories of **foreign status** merchandise (See 19 C.F.R. 146.42). Such merchandise is evaluated based on its condition at the time it is shipped from the zone to the U.S. market and entered for consumption by CBP.

NPF refers to non-privileged foreign status.

NZ is the abbreviation for a new zone.

PF refers to privileged foreign status.

Port of entry means a port of entry in the United States, as defined by part 101 of the CBP regulations (19 C.F.R. Part 101), or a user-fee airport authorized under 19 U.S.C. 58b and listed in part 122 of the regulations of the CBP (19 C.F.R. Part 122).

Privileged foreign status is one of two customs categories of **foreign status** merchandise (See 19 C.F.R. 146.41). Such merchandise maintains its status based on its condition when it was admitted to the zone. Thus, when the merchandise is shipped from the zone to the U.S. market and entered for consumption by CBP, it is evaluated based on the time-of-admission condition even though it might have undergone a transformation in the zone.

Processing, when referring to zone activity, means any activity involving a change in condition of merchandise, other than manufacturing, that results in a change in the customs classification of an article or in its eligibility for entry for consumption.

Subzones are a special-purpose type of ancillary zone authorized by the Board, through grantees of public zones, for operations by individual firms that cannot be accommodated within an existing zone, when it can be demonstrated that the activity will result in a significant public benefit and is in the public interest.

SZ is the abbreviation for subzone.

USC is the abbreviation for the United States Code.

Zone means a **foreign-trade zone** (see above) established under the provisions of the FTZ Act and regulations. The term also includes subzones, unless the context indicates otherwise.

Zone grantee is the corporate recipient of a grant of authority for a zone project. The term “grantee” means “zone grantee” unless otherwise indicated.

Zone operator is a corporation, partnership, or person that operates a zone or subzone under the terms of an agreement with the zone grantee or an intermediary entity, with the concurrence of the CBP port director.

Zone project means the zone plan, including all of the zone and subzone sites that the Board authorizes under a single grantee.
