

Foreign Retaliation Product Matrix

This product matrix displays the foreign retaliatory tariffs currently in effect against the United States.

Many tariff levels are estimated based on unofficial translations of foreign governments' retaliation announcements and are intended for use as a reference only.

For a detailed breakdown of all retaliations, announcement lists, and related actions please consult our

[Foreign Retaliation Timeline.](#)

Every effort has been made to ensure that the information presented is complete and accurate. The actual tariff classification and assessment of duties is determined by customs authorities in the relevant foreign country. Countries may elect to increase tariffs or otherwise amend tariff treatment at any time. For definitive guidance, parties should contact the government customs agency in the appropriate foreign country.

The sources for each respective country's announcements and their official product descriptions can be found here:
