

The U.S. Commercial Service and the North Carolina Economic Development Partnership Invite You to an online webinar

Strategies for Technical Textile Companies to expand business and manufacturing in the United States

This virtual event is catered to prospective investors in the textile industry interested in finding out opportunities for doing business as well as foreign direct investment into the United States and specifically into the State of North Carolina- one of America's most dynamic textile hubs.

Join us to learn about

- The opportunities and resources in the U.S and the State of North Carolina available for Turkish technical textile companies willing to grow their business in the United States.
- The regional economy and the technical textiles industry
- U.S. and Turkish government incentive programs for Foreign Direct Investment
- North Carolina state incentive programs for technical textile investors
- U.S. visa process
- Accounting and tax considerations
- U.S./North Carolina business registration
- U.S./North Carolina employment practices
- Insights from successful investors
- Pre-screened follow-up **B2G Meetings**
