Company Name	Booth	Product
<a href="#"><u>AIV, L.P.</u></a>	Hall 3 / H35	AIV is a <b>global wholesale distributor of valves and actuators for the chemical, oilfield, petrochemical, pulp &amp; paper, refining, power and water treatment industries.</b> Established in 1991 as a resource for hard-to-find, exotic alloy and specialty valves, AIV has built a reputation as a premier master distributor in this arena.
<a href="#"><u>Babbitt Chainwheels</u></a>	Hall 4 / C60	Babbitt Chainwheels is the leading <b>manufacturer of manually operated overhead valve actuators (chainwheels)</b> worldwide. Babbitt chainwheels with chain guides operate valves in high, normally out-of-reach locations easily and economically.
<a href="#"><u>Bray International Inc</u></a>	Hall 3 / D19	Bray International, Inc. is a <b>manufacturer of butterfly, ball and check valves, actuators and accessories.</b> The company offers the best compatibility, economy and quality performance in the flow control industry.
<a href="#"><u>Cameron A Schlumberger Company</u></a>	Hall 3 / D74	Cameron A Schlumberger is the world's leading <b>provider of reservoir characterization, drilling, production, and processing technologies to the oil and gas industry.</b> Working globally, they invent, design, engineer, apply, and maintain technologies that help their customers find and produce oil and gas more efficiently and safely—often in remote and challenging locations.
<a href="#"><u>Clarke Industrial Engineering, Inc.</u></a>	Hall 4 / E58	Clarke Valve is a company with the most advanced product offering in the <b>industrial valve space. The Shutter Valve™ derives its design from aerospace industry techniques for fluid control, sealing and mechanical systems.</b> Clarke valves have countless millions of hours in service, starting with several years of testing in various real-world environments and conditions, resulting in a perfect valve for customers that demand precise flow processing and a low total cost of ownership.

<a href="#"><u>DFT Inc.</u></a>	Hall 4 / C21	DFT®, formerly known as Durabla® Fluid Technology, has been making <b>in-line check valves and severe service control valves</b> for over 70 years. Our objective is to solve check valve problems and prevent check valve failures.
<a href="#"><u>Emerson Automation Solutions Corporation</u></a>	Hall 3 / E19	With an unparalleled breadth of products, project management, connected services, and service networks, Emerson leads as a global manufacturer supplying and servicing all valves everywhere. <b>They produce Butterfly valves, control valves, Nife-Gate-valves, actuator accessories, controllers and instruments, actuators (hydraulic, manual, modulating, pneumatic) and positioners.</b>
<a href="#"><u>G-METAL VALVES CORP.</u></a>	Hall 3 / J51	G-Metal Valves Corp., incorporated in the U.S. with their manufacturing facility located in China, <b>produces different types of Butterfly valves, Iron valves, steel valves as well as camlock and hose.</b>
<a href="#"><u>International Standard Valve, Inc.</u></a>	Hall 3 / C77	International Standard Valve, Inc. provides the ISV brand of <b>ball valves, gate, globe and check valves</b> specifically designed for the oil & gas, oil refining, natural gas, power generation, chemical, petrochemical, pulp & paper and mining industries.
<a href="#"><u>KACE Ball Valves</u></a>	Hall 4 / F57	KACE is a large <b>manufacturer of Ball Valves, Cryogenic Valves, Double Block and Bleed Valves, Stainless Steel Valves.</b>
<a href="#"><u>Messe Düsseldorf Noth America</u></a>	Hall 5 / H38	MDNA <b>organizes trade shows, like Valve World, and connects market partners from the U.S., Germany and all over the world</b> to ensure that exhibitors and visitors find the customers or the service and merchandise providers they are looking for.
<a href="#"><u>Mogas Industries, Inc.</u></a>	Hall 4 / C48	MOGAS Industries is the leading <b>manufacturer of severe service isolation and control ball valves</b> for the most extreme applications in power, mining, oil & gas, refining, chemical/petrochemical and specialty industries.

<p><a href="#"><u>MRC Global Inc.</u></a></p>	<p>Hall 3 / D72</p>	<p>MRC Global is the largest <b>distributor of pipe, valve and fitting products and services to the energy and industrial markets</b>. The company serves the oil and gas industry across the upstream, midstream and downstream sectors as well as the chemical and gas distribution market sectors worldwide.</p>
<p><a href="#"><u>REXA, Inc.</u></a></p>	<p>Hall 5 / G30</p>	<p>REXA Linear and Rotary Actuators and Damper Drives provide customers with exceptional reliability and solid construction. REXA is the preferred actuator technology in many industries. <b>Our industrial grade linear and rotary actuators</b> are ideal for any application requiring precise positioning, stiff control, and high reliability with minimal maintenance.</p>
<p><a href="#"><u>SOUTH COAST PRODUCTS L.P.</u></a></p>	<p>Hall 3 / H90</p>	<p>SOCO is a leading manufacturer of <b>valve lubricants, thread compounds, sealants, southcoast packing and maintenance products</b> for the oil and gas, transportation, refining and petrochemical industries.</p>
<p><a href="#"><u>Trumbull Manufacturing, Inc.</u></a></p>	<p>Hall 3 / B39</p>	<p>Trumbull's product categories include <b>waterworks tools, valve position indicators, polywrap, joint restraints products, meter pit lids and couplings, valve and curb box accessories, as well as valves and accessories for water/wastewater treatment plants</b>.</p>
<p><a href="#"><u>Union Tech Co., LLC</u></a></p>	<p>Hall 4 / F11</p>	<p>Union Tech has dedicated itself to mastering the art of <b>precision machining</b>. From those manufacturing roots, the company grew a vertically-integrated enterprise empowered to service the production needs of industries and markets worldwide. <b>They offer turnkey manufacturing capabilities and have also developed a suite of valve products</b> that leverage the capabilities of their manufacturing platform.</p>
<p><a href="#"><u>Valve Manufacturers Association of America</u></a></p>	<p>Hall 4 / C21</p>	<p>The Valve Manufacturers Association of America is <b>a trade association that represents the interests of nearly 100 North American manufacturers of valves, actuators and controls</b>. Collectively, members account for approximately 80% of the total industrial valve shipments out of U.S. and Canadian facilities.</p>

<a href="#"><u>Versa Products Company, Inc.</u></a>	Hall 3 / C93	Versa Products Company, Inc. <b>designs and builds high-quality pneumatic valves and accessories.</b> They offer customized and standard solutions for the industrial, valve actuation, mobile, process control, and oil and gas markets.
<a href="#"><u>Worldwide Oilfield Machine Inc.</u></a>	Hall 3 / H20	WOM's Dual Seal Magnum <b>gate valve</b> offers high quality, reliability and requires minimal field maintenance. Similarly, the successful design and development of products such as <b>surface and subsea Magnum gate valves, well-heads, choke manifolds, Dual-Seal ball valves, BOPs and well-test equipment</b> have paved the way for WOM's continued growth.
