

ATTACHMENT

Don't worry about order or naming the attachments with sequential numbers. Grants.gov sends your application to ITA in pieces. ITA will put your attachments in the order indicated below: Budget worksheets, all other documents, and financial statements.

Listing individual firms' support shows exports are likely.

In grants.gov it is easiest to include all attachments in the "Budget Narrative Attachments", whether they pertain particularly to the budget or not. So, "Budget Narrative Attachments" will include:

- Budget worksheets (10-page limit)
- All other attachments (10-page limit)
- Financial statements (20-page limit)

The attachments below are examples of "all other attachments".

Company interest in Turkey project

Company	Sector	Notes	MDCP project
Acme Hydro Tacoma, WA	Hydro	Consulting engineering and systems development	Committed to participate
Alpha Enviro Moscow, ID	Hydro	Hydro consulting services	Committed to participate
Benstein & Behl Hawthorne, NV	Geothermal, Wind	Parts and power interface for power plants	Committed to participate
Beterave, Ltd Beetville, IL	Wind	Manufactures grid-connected large wind turbines	Committed to participate
Bluebird Manufacturing Cleveland, OH	Biomass, Geothermal, Wind	Engineering, scientific, systems integration, and technical solutions and services	Committed to participate
Brightsource Energy Oakland, CA	Solar	Designs, builds, finances, and operates utility-scale solar power plants	Committed to participate
Cantrell Industries Palm Springs, CA	Solar	Designs and integrates large-scale solar collection and power generation systems	Committed to participate
Cardinal Ltd Cleveland, OH	Geothermal, Solar, Wind	System integration, and technical solutions and services	Committed to participate
Cowton Corp. Golden, CO	Geothermal, Hydro, Wind	Develops and builds power plants	Committed to participate
Earth and Sun, Inc. Reno, NV	Geo, Solar, Wind	Training, maintenance, and technical support for utility-scale projects	Committed to participate
Kelster, Inc. San Bernadino, CA	Solar	Manufactures custom structural supports for solar systems	Committed to participate
Sharpe Systems Phoenix, AZ	Solar	Manufactures and services infrastructure for solar plants using parabolic dishes	Committed to participate

If ITA funds your MDCP project we will post your application at trade.gov/mdcp. The fact that a company participates in an MDCP project activity cannot be withheld from public disclosure. If there is information that companies claim is business identifiable information (BII), you may claim limited use treatment of the information by:

1. Bracketing “[]” only the specific BII,
2. Providing a justification for the limited-use treatment of claimed BII,
3. Including a statement at the bottom of the page:

“This page contains business identifiable information (BII) which may include trade secrets, commercial, or financial information, the release of which could cause competitive harm to the businesses whose BII is included on this page”, and

4. Including a redacted “public” version of each affected page.

ITA makes the final determination about whether claimed BII should have limited-use treatment.

ATTACHMENT

REQUIRED OF ALL APPLICANTS. ITA needs an example of intended use in order to grant you permission to use the emblem in the event that you win an MDCP award.

Example of Proposed Use of ITA Emblem:

**Turkey Energy Build-Up
Success Agreement**

BARE will help you expand your client base in a promising market for our industry: Turkey. The U.S. Commerce Department's International Trade Administration (ITA) has agreed to pay for one-third of the project cost through its Market Development Cooperator Program (MDCP).

Agreement to Participate in BARE's Turkey Energy Build-Up (TEBU) Initiative

Please note that some of the benefits listed below are contingent on when you sign up to participate. We will assign time-sensitive benefits in the order that we receive completed participation agreements.

1. Benefits

Sign up and receive the following benefits from BARE and ITA.

RENEX Eurasia Renewable Energy, Ankara, Turkey,
2024 November 14-17

a. Reduction of \$1,640 in trade fair fees.

Pay a non-refundable \$500 deposit two months prior to the trade fair identified above and save big. BARE will pay \$1,640 of your TEBU fees. Limit of one per company.

b. One free Gold Key Service from ITA's Commercial Service in Turkey.

This includes up to five targeted appointments, an interpreter, transportation, and help with follow-up from ITA. This valuable service is worth hundreds of dollars. It is only available to the first ten companies that sign up to participate.

c. Translation of product material.

We'll pay to translate to Turkish the equivalent of a one-page, double-sided brochure for the first twenty companies with fewer than 500 employees to sign up for each trade fair.

d. Pre-trade fair webinars.

In the months prior to your trade fair, participate in any of three webinars on market conditions, tips on how to do business, export financing, etc.

e. Counseling and follow-up.

Before and after the fair, BARE and ITA will help you prepare and follow-up on leads.

f. Turkish website development.

Best practices & referrals on developing a web presence in Turkish.

g. Business cards.

We'll translate into Turkish, business cards for at least one of your employees.

2. Reporting your success.

ITA, needs to show that its investment in our project is a worthwhile investment. So, as a condition of benefiting from this project, you agree to report as set forth below.

Business Alliance for Renewable Energy

a. Photographs and video.

ITA or BARE may arrange to take photographs or shoot video of project activity. ITA and BARE will use such media to promote the project, to describe what progress has been made generally, and to promote MDCP generally in the association and non-profit community. ITA will abide by 2.d. below if it seeks to highlight a particular success.

b. Sharing export results with ITA.

Each quarter, as a TEBU participant, you report to BARE the destination market, value, and brief description of each export and/or export-related developments that are generated, in whole or in part, by participating in TEBU. If you prefer not to report this information to BARE, you may report it to an ITA official, who will not, in such case, divulge details of such individual sales to BARE.

c. Confidentiality with ITA.

ITA professionals who access your information are trained to handle sensitive information.

d. Public highlighting of your successes.

If ITA wants to publicize any of your successes, it will always show you what it proposes to do and secure your express approval in writing beforehand.

3. U.S. product or service.

I certify that I am, that my company is, or that I or my company represents: (a) a United States citizen; (b) a corporation, partnership or other association created under the laws of the United States or of any State; or (c) a foreign corporation, partnership, or other association, more than 95 percent of which is owned by persons described in (a) and (b) above; AND I am, my company is, or the entity I or my company represents is, exporting, or seeks to export goods or services produced in the United States, or goods or services that contain at least 51 percent U.S. content.

I understand that this certification is a requirement to participate in the MDCP project activity described above and that an intentionally false certification may result in termination of participation in such activity.

Information provided to the International Trade Administration (ITA) is intended solely for internal use. ITA will protect business confidential information to the full extent permitted by law and Administration policy. U.S. law prohibits U.S. government employees from disclosing trade secrets

I agree to the terms of the success agreement with BARE as set forth above.

Company name

Email/Phone

Address

Name

Title

Signature

Date

For MDCP projects based on engaging individual U.S. firms in export-generating activities, companies that participate in your project activities need to:

1. See benefits of participating.
2. Commit to report exports.
3. Affirm that product sold is 51% or more US content. Use the exact wording in this section.

Most Success Agreements are specific to one upcoming activity.

Find more resources on Success Agreements:
<https://www.trade.gov/mdcp-cooperator-tools>

If your project is focused on trade barriers and/or is not based on individual companies participating in activities that generate exports, you do NOT have to include a success agreement.

ATTACHMENT

Letters of Support

Submit a support letter from any public or private official who has pledged financial or in-kind support for the proposed project.

Letters of support from other public officials are welcome but are not required or expected. An applicant that chooses to submit a letter of support should secure it soon enough to include it in the application as an attachment. This will ensure that the merit review panel and other reviewers see the letter. It also reduces administrative burden because **ITA does not respond to letters included as attachments** in MDCP applications.
