

U.S. Exhibitors at Metpack 2023

Antares Vision Group https://www.antareshvisiongroup.com	Hall 3 3A12	Antares Vision Group delivers the most comprehensive and scalable global solution in inspection systems, track & trace and smart data management , leading the complete process of protecting the products throughout their life-cycle. they are active in: Life Science (pharmaceuticals, medical devices, and hospitals); beverage; food; cosmetics; chemicals; packaging.
ASC Machine Tools Inc. https://www.intpacsol.com/	Hall 3 3E30	ASC specializes in rollforming machinery, tooling, and associated equipment utilized for metal processing since 1949.
Belvac Production Machinery Inc. www.belvac.com	Hall 3 3A61	Belvac was founded in 1962 in Lynchburg Virginia and is a world leader in the design and manufacturing of aluminum can equipment, and provides turnkey can line solutions . Belvac's five business segments: Belvac ceramic Solutions, Belvac Decorating Systems, Belvac Production Machinery, Belvac Container Solutions, and Belvac Service Solutions.
Bunting Magnetics Co. www.buntingmagnetics.com	Hall 3 3D40	Since 1959, Bunting® has provided cutting-edge magnetic technology to support the operations of many different industries, from food processing to mining. Bunting's wide range of equipment features magnetic separation products, metal detection devices, material handling conveyors, printing cylinders, custom magnets and magnetic assemblies, in-stock neodymium magnets, and more.
Custom Machining Corp. https://custommachining.com/	Hall 1 1E27	Custom Machining Corporation specializes in contract manufacturing/machining and high-speed automation machinery. Not only are they an AS9100 certified manufacturer, they are the worlds foremost supplier of Rotary End Liners to the canning industry ; which provides safe, economical and recyclable containers for food and beverage.
DRT Mfg. Co.LLC www.drmtfgco.com	Hall 3 A26	Metal Packaging As the original innovator of easy-open end systems, DRT is also the largest supplier of easy-open system parts and tooling . With the broadest and most versatile line of can end systems in the industry, DRT continues to develop solutions that boost output, decrease material costs and increase equipment uptime.

U.S. Exhibitors at Metpack 2023

HeatTek, Inc. www.heattek.com	Hall 3 3B19	HeatTek is an industry leader in industrial oven and furnace manufacturing with over twenty years of experience, responsive service, and expertise. Equipment types are: conveyor ovens, batch ovens, washers, furnaces for metal packaging, foundries, heat treatment and government military.
Integrated Packaging Solutions https://www.intpacsol.com/	Hall 1 1D47	Integrated Packaging Solutions (IPS) supports the can-manufacturing industry by providing specialized products and can-making services .
Littell, LLC www.littell.com	Hall 3 A48	Recognized as the world leader in scroll sheeting systems , Littell continues to provide the industry with the latest in performance technology. With speeds of up to 275 MPM providing output ranging from 50 - 300 sheets per minute and the ability to handle coils weighing up to 20 metric tons.
Nidec Minster Corporation www.minster.com	Hall 3 3B43	Nidec Minster is your full-service press room partner for manufacturers in the metal forming business . In addition the Robotics Industries Association (RIA) has recognized the Nidec Minster as a certified robot system integrator.
Nordson Corporation www.nordson.com/ics	Hall 3 3B17	Nordson Corporation designs and manufactures powder coating automatic systems for many industries: here for 2 piece can manufacturing, 3-piece can manufacturing and end line manufacturing .
Perfecto Industries, Inc. www.perfectoindustries.com	Hall 3 3A48	Perfecto is known globally for its complete coil handling, straightening and feeding systems. Lines for the Container Industry - few industries demand the equipment precision and reliability require by manufacturers of food and beverage containers.
Perm Machine & Tool Co. www.permmachine.com	Hall 1 1B21	Since 1970 PERM Machine & Tool Company has been a worldwide supplier of replacement parts for the metal decorating industry . Example of some products are: Oven Chain, Wickets, Oven Rail, Lubrication Systems, Wagner® Coater Parts, Hoe® Press Parts, Magnetic Side Gauging Systems, Robo Roller Storage System, Accu-Laser Alignment Tool.

U.S. Exhibitors at Metpack 2023

Pressco Technology Inc. www.pressco.com	Hall 3 3A29	Pressco Technology is the world leader in advanced, online automated inspection and process analysis solutions for the food & beverage packaging industry . Their systems are individually configured to solve customer challenges and unique applications from their constantly growing family of standard modules.
Pride Engineering, Inc. http://www.pridecan.com/	Hall 1 1D23	Pride Engineering has been focused on the business of canmaking . After more than 40 years of designing and manufacturing the most innovative and reliable bodymaking components, they have become recognized worldwide for helping canmakers drive production efficiency and maximize profitability.
Prime Controls Inc. www.primecontrols.com	Hall 3 3D33	Prime Controls is a manufacturer of press protection equipment in the metal forming industry . In addition to many controls for the can making and sheet metal industries, they produce a full line of metal sensing devices geared towards the detection of double sheets of metal.
Roeslein & Associates, Inc. www.roeslein.com	Hall 3 3D49	Roeslein & Associates, Inc. is a global leader in engineering, procurement, modular fabrication, and construction of canmaking and industrial plant facilities while providing a wide range of technical services and engineered products to various process industries. With over 30 years of turnkey project execution, and with office locations worldwide and projects in more than 60+ countries across 6 continents, Roeslein is ideally suited to provide modular solutions to a global client base.
Sensory Analytics (SpecMetrix System) www.specmetrix.com	Hall 3 D33	SpecMetrix® systems by Sensory Analytics deliver a transformative technology for the in-process measurement of coating thickness and film layer measurement with nanometric precision . Their exclusive solutions provide global manufacturers and coating suppliers the unique ability to measure the absolute thickness of their applied wet or dry coatings or coating layers down to sub-micron levels.

U.S. Exhibitors at Metpack 2023

Stolle Machinery Company www.stollemachinery.com	Hall 3 3C47	Stolle provides machines, technology and facilities for canmakers around the world . Stolle has facilities strategically located around the world to provide rapid service to customers wherever they are located. Their facilities offer local contacts for purchasing new machinery, providing OEM spare parts, rapid-response field support, and rebuilding machines for a new service life.
T.D. Wright Inc. www.magneticcylinders.com	Hall 3 3C43	T.D. Wright Inc. produces magnetic cylinders for printing, converting and die cutting . Since 1975, they have set the standard for effective magnetic cylinder design.
The Sherwin-Williams Company packaging.sherwin.com	Hall 1 1B26	As a leading manufacturer of packaging coatings for metal containers , Sherwin-Williams brings a strong history of innovation to the packaging industry. Creator of the Innovative valPure V70 non-BPA Epoxy Technology.
Vista Metals Inc. www.vistametalsinc.com	Hall 1 1D46	Founded in 1969, Vista Metals has established itself as a global leader in manufacturing high-strength, long-lasting, tungsten carbide preforms . Their extensive experience and full range of cobalt grades gives us the capability to produce a wide variety of high-quality, tungsten carbide preforms in virtually any desired hardness or density.
