

## U.S. Exhibitors at interpack and components 2023

<b>AeroFlexx Packaging Company LLC</b> <a href="http://aeroflexx.com">http://aeroflexx.com</a>	15C30-6	AeroFlexx's innovative technology delivers a flexible package designed to act like a rigid bottle. The <b>innovative liquid pak</b> features precisely folded film stabilized and enforced with air-chamber technology creating a flexible package with rigid qualities. Their proprietary design uses 50-70% less plastic, offers greater flexibility in size and shape, and requires no molds for efficiency in manufacturing.
<b>AIMCAL - Association of International Metallizers, Coaters &amp; Laminators</b> <a href="http://www.aimcal.org">http://www.aimcal.org</a>	EN/A04	<b>The Association of International Metallizers, Coaters and Laminators (AIMCAL)</b> , founded in 1970, is a global nonprofit trade association representing converters of metallized, laminated and coated flexible substrates and their suppliers.
<b>American Extrusion International</b> <a href="http://www.americanextrusion.com">http://www.americanextrusion.com</a>	3A74	American Extrusion International started in February 1988, and are <b>developers and manufacturers of the latest technology for the snack food and cereal industries</b> . They now have over 600 customers in over 100 countries and are recognized as the world leader in snack food manufacturing equipment.
<b>American Pan Company</b> <a href="http://www.americanpan.com">http://www.americanpan.com</a>	15C38-2	<b>American Pan is the world's leading provider of custom and stock baking pans, pan coatings, and pan refurbishment services with customers in more than 120 countries</b> . With expert engineering, advanced tooling capabilities, and six state-of-the-art manufacturing facilities, they can create custom pans to suit any bakery's needs. Pans are available uncoated or coated with one of their proprietary, industry-leading coatings, including AMERICOAT®, DuraShield®, FlexiCoat, OptiShield®, or RilonElast.
<b>Apex-Desco Machine Company Corp.</b> <a href="http://www.apexmachine.com">http://www.apexmachine.com</a>	15C38-9	Apex is owned and operated by leaders who are committed to providing the printing industry with a solid foundation of highly trained personnel serving every facet of <b>industrial printing systems, custom printing systems, and on-product printing, marking, and decorating equipment</b> .
<b>ATS Life Sciences HULL i-DOSITECNO</b> <a href="http://www.scientificproducts.com">http://www.scientificproducts.com</a>	16E07	In i-Dositecno they design, build and sell <b>filling systems for the pharmaceutical and cosmetic industries</b> . From their beginnings 15 years ago, i-Dositecno has developed a complete range of machinery, giving to the pharmaceutical market, their way of work, with fully servomotorized machine, in order to facilitate the format changes and optimize the production. they are now present in many of the pharmaceutical industries, with a lot of references.

## U.S. Exhibitors at interpack and components 2023

<b>Auger Fabrication, Inc.</b> <a href="http://www.auger-fab.com">http://www.auger-fab.com</a>	15C30-9	Auger Fabrication is <b>an auger and screw conveyor manufacturer</b> that supplies a wide variety of augers, accessories and parts for filling machines. They specialize in supplying new and replacement augers, conveyor screws, feeder screws and flight material for dry and liquid material handling equipment.
<b>Auto-Bake Serpentine</b> <a href="http://www.auto-bake.com">http://www.auto-bake.com</a>	1B31	Auto-Bake is a global <b>designer and supplier of fully automated industrial baking ovens and systems</b> . Internationally renowned for its innovative Serpentine technology, Auto-Bake's compact, cost-efficient, continuous baking solutions are custom-configured for a diverse range of baking applications. The company has been in the business of baking since the 1950s. Since then, this successful business has evolved into a truly international enterprise, with successful installations on every continent and a dynamic service and support presence in the USA, Europe and Asia.
<b>Baker Thermal Solutions</b> <a href="http://www.bakertherm.com">http://www.bakertherm.com</a>	1B31	Baker Thermal Solutions offers an unmatched range of <b>industrial bakery equipment</b> with system solutions executed worldwide. They have a comprehensive range of aftermarket services, from spare parts and inspections to on-site overhauls for equipment with over 100 years of history. Baker Thermal is the only original equipment manufacturer with access to old records containing original designs and documents for brands such as Baker Perkins, Lanham, Readco, Petersen, APV Baker and Turkington USA.
<b>Barry-Wehmiller Companies, Inc.</b> <a href="http://bwpackagingsystems.com">http://bwpackagingsystems.com</a>	6C79	Since 1885, Barry-Wehmiller – a \$3+ billion global supplier of manufacturing equipment – has been a trusted partner to packaging companies around the world. Comprised of five divisions - Accraply, BW Flexible Systems, BW Integrated Systems, Pneumatic Scale Angelus, and Synerlink - BW Packaging offers <b>comprehensive packaging machinery and solutions including complete packaging lines, filling and closing, flexible packaging, labeling, end-of-line solutions, and</b> systems integration.
<b>Bartelt Packaging LLC</b> <a href="http://www.barteltpackaging.com">http://www.barteltpackaging.com</a>	13A75	Bartelt Packaging provides best-in-class <b>solutions for pouching, cartoning, shrink wrapping, overwrapping, case/tray packing, and large bag format</b> . Under the Bartelt Packaging umbrella, Bartelt, Kayat, and Scandia product lines provide complementary packaging solutions for diverse industries.

## U.S. Exhibitors at interpack and components 2023

<b>BESTCODE</b> <a href="http://www.bestcode.co">http://www.bestcode.co</a>	15D23-9	BestCode <b>designs and manufactures marking and coding printing systems and associated fluids, supplies and accessories.</b> BestCode industrial printing systems print real-time lot/date, sell-by dates, expiration dates and other identifying marks on industrial and consumer goods to ensure product traceability. For 25 years, the BestCode group continues to produce industry changing, forward thinking innovative industrial printing designs.
<b>BEXP USA LLC</b> <a href="http://www.bottling-experts.com">http://www.bottling-experts.com</a>	15C38-8	a world-class <b>service provider for the manufacturing industry.</b> The company prides itself in providing well-trained professionals and a wide range of engineering solutions to production plants and equipment manufacturers.
<b>Burford Corp. a Division of the Middleby Corporation</b> <a href="http://www.burford.com">http://www.burford.com</a>	1B31	Middleby Food Processing for Protein and Bakery - <b>Equipment for Processing &amp; Preparation / Thermal Processing / Slicing, Loading &amp; Packaging, Facility Automation &amp; Sanitation.</b> With decades of deep industry and technical expertise, they bring together food processing insight, best practices, breakthrough / disruptive equipment solutions and system innovation.
<b>Butler Automatic Inc.</b> <a href="http://www.butlerautomatic.com">http://www.butlerautomatic.com</a>	11G75	As the leader in providing Overall Equipment Effectiveness (OEE) solutions for the packaging industry through <b>automatic roll splicing</b> , Butler Automatic has been improving overall factory output for its customers for more than 60 years. With over 17,000 automatic splicers installed worldwide, Butler is a packaging equipment benchmark for effective design, quality build, ease of operation and reliable performance.
<b>Cablevey Conveyors</b> <a href="http://www.cablevey.com">http://www.cablevey.com</a>	15D23-5	Cablevey® Conveyors <b>designs and manufactures tubular drag and cable materials handling equipment and systems.</b> they've earned a global reputation as the industry leader for gentle yet efficient conveying technology that protects the integrity of friable materials. Based in Oskaloosa, Iowa, Cablevey has designed, engineered, and serviced its enclosed cable and disc tube conveyors for over 50 years with installations in over 65 countries.
<b>CDF Corporation</b> <a href="http://www.cdf1.com">http://www.cdf1.com</a>	15C38-3	CDF Corporation have a proven track record of delivering mindful packaging globally through a unique combination of scale and agility. With over 600 employees in the CDF Group at seven manufacturing facilities in North America and Europe, they have expertise in <b>vacuum forming, blow molding, injection molding, heat sealing, bag making, film lamination and printing.</b>

## U.S. Exhibitors at interpack and components 2023

<b>Citronix Inc.</b> <a href="http://www.citronix.com">http://www.citronix.com</a>	8BC54	Established in 2000, Citronix is a leading <b>manufacturer of continuous inkjet and thermal inkjet printers</b> headquartered in Texas, USA. They have shipped their products worldwide to 105 countries across a wide range of industries including food and beverage manufacturing, pharmaceuticals and more.
<b>CJ Biomaterials, Inc</b> <a href="http://www.cjbio.net/en/products/cjPha.do">http://www.cjbio.net/en/products/cjPha.do</a>	9G03	CJ Biomaterials is a leading world-class green BIOTECHNOLOGY company. Having started out with its production of MSG in 1964, the company has enjoyed accelerated growth as it accumulated <b>fermentation technology</b> . CJ BIO advances proprietary fermentation technology to produce amino acids for feed and food, savory flavors and seasoning materials, and plant based protein ingredients.
<b>Contract Packaging Association, LLC</b> <a href="http://www.contractpackaging.org/">http://www.contractpackaging.org/</a>	12E07	The Contract Packaging Association is the national, nonprofit <b>trade organization for the contract packaging industry</b> . Formed in 1992 for contract packaging firms and those businesses related to them, CPA promotes the growth and welfare of member firms through its industry exposure and programs.
<b>Do-It Corporation</b> <a href="http://www.do-it.com">http://www.do-it.com</a>	9D14	For over 50 years Do-It Corporation has been designing and making <b>hang tabs for the packaging and merchandising display industries</b> . Do-It also manufactures merchandising display strips, printed hang tabs, carry handles, on-product instantly redeemable coupons (IRCs), shelf wobblers, and promotional bottle neck hang tabs.
<b>Duravant</b> <a href="http://www.duravant.com">http://www.duravant.com</a>	6B57 / B73	Duravant is a global designer and <b>manufacturer of food processing, packaging and material handling equipment</b> intended for the food and beverage, e-commerce, distribution and agriculture end-markets. The company offers designs and assembles mission-critical equipment, including form-fill-seal machines, robotic palletizers, conveyors and thermal processors, helping its customers to optimize safety, productivity, efficiency and connectivity.
<b>Econocorp Inc.</b> <a href="http://www.econocorp.com">http://www.econocorp.com</a>	15C38-6	Econocorp is proud to have been a leader in the <b>manufacturing of economical case packing, cartoning and tray forming equipment</b> for more than half a century. The ECONOCORP commitment to excellence has been acknowledged not only by their clients, but also through receipt of the President's E Star Award, recognizing their efforts in increasing imports and promoting exports in the U.S..

## U.S. Exhibitors at interpack and components 2023

<b>Elmar Industries Inc</b> <a href="http://www.elmarworldwide.com">http://www.elmarworldwide.com</a>	5C37	Elmar was incorporated in 1972 and is now one of the <b>largest manufacturer of filler machines</b> in the world. Elmar offers the widest range of filling machines in the business, with over 100 different models from 6 to 81 stations. These include <b>rotary piston, bottom fill, gravity and pocket models for filling liquids, high viscosity and solid particulates.</b>
<b>Encore Packaging, LLC</b> <a href="http://www.encorepack.com">http://www.encorepack.com</a>	12D76	Encore Packaging, LLC is an innovator and <b>manufacturer of industrial packaging tools.</b> Product categories include: Strapping Tools, Strapping Dispensers, Strapping Trucks, Seals, Utility Knives, Tape Guns, Kraft Paper Dispensers, Film Dispensers, Bubble / Foam Dispensers, Orbital Wrappers, and more!
<b>Evergreen Resources</b> <a href="http://www.evergreenresources.com">http://www.evergreenresources.com</a>	71B18	At Evergreen Restheirces, they make <b>packaging procurement</b> a seamless and reliable experience. They are a family-owned business and a certified diverse supplier. Their company was founded over two decades ago to connect packaging buyers with global manufacturing capacity. By building their business around enhancing quality management for overseas manufacturers, they created an impressive worldwide network of production facilities that make global packaging procurement simpler and more flexible than ever before.
<b>Exact Mixing Inc.</b> <a href="http://www.exactmixing.com">http://www.exactmixing.com</a>	1B70	Exact Mixing, by Reading Bakery Systems, is the leading <b>supplier of continuous mixing systems for the food industry.</b> They offer a full line of mixer models and sizes to mix a wide variety of food products successfully, including, snacks, breads, buns, bars, cookies, chips, pretzels, pizza, pet treats and more! With over 100 installations, no one has solved more complex mixing challenges across the globe.
<b>Formers International, Inc.</b> <a href="http://www.formers.com">http://www.formers.com</a>	18G19	Formers International manufactures <b>custom-designed forming collars, tubes, and form-fill-and-seal assemblies for various segments of the food packaging industry.</b> Our formers work on any make or model of machine. We help you minimize risks, offer shorter lead times and a better value than OEMs.
<b>Freund-Vector Corporation</b> <a href="http://www.freund-vector.com">http://www.freund-vector.com</a>	16D71	A global full-service company founded in 1972, Freund-Vector Corporation <b>designs, manufactures and markets processing equipment and services for processing powders, particles, beads, pellets, tablets and other solid materials/shapes</b> for the pharmaceutical, nutrition, food, confectionery, chemical, powder metal, automotive and pyrotechnic industries.

## U.S. Exhibitors at interpack and components 2023

<b>GBM Green Bay Machinery Co., Inc.</b> <a href="http://www.gbm-co.com">http://www.gbm-co.com</a>	15D23-10	For over 45 years, Green Bay Machinery (GBM) has been the leading <b>supplier of process cheese machinery for the food service (SOS) and retail (IWS) industries</b> in over 40 countries. Their experience and knowledge have allowed GBM to expand into other industries such as steel, bakery equipment and pet food.
<b>Graphic Solid Inks, Inc.</b> <a href="http://www.gsinks.com">http://www.gsinks.com</a>	15C30-1	Graphic Solid Inks, Inc. is an OEM, manufacturing <b>inkjet printers and ink</b> . GSI develops and manufactures products such as printing systems, labeling systems, laser systems, robotics, inkjet inks, and more.
<b>Greener Corporation</b> <a href="http://www.greenercorp.com">http://www.greenercorp.com</a>	15C38-1	Greener Corporation provides package quality and productivity <b>solutions for horizontal flow wrappers and vertical form/fill/seal baggers</b> . They integrate parts such as knives, sealing jaws, Easy Seal™ Jaws, and forming sets with technical services such as problem resolution, installations, line evaluations, training, and project management to provide comprehensive packaging solutions.
<b>Hinds-Bock</b> <a href="http://www.hinds-bock.com">http://www.hinds-bock.com</a>	1B31	Hinds-Bock Corporation is based in Bothell, Washington and is a <b>world leader for industrial grade bakery and food processing equipment</b> — their experience in the design, manufacture and selling of filling, depositing and pumping equipment actually dates back to 1962 when the Philip Bock Corporation pioneered air potheyred piston filler technology. Fast Forward to 2018 and Hinds-Bock is now part of the Middleby Corporation, a U.S based publicly traded global leader in the food service, food processing and bakery production equipment industry.
<b>Impak Corporation</b> <a href="http://www.impakcorporation.com">http://www.impakcorporation.com</a>	15C30-8	IMPAK Corporation offers innovative <b>packaging solutions and custom packaging expertise</b> . They manufacture and service sealers - standard offerings or custom fabricated in their workshop to their exact specs. IMPAK has over 20 years of experience helping businesses handle their packaging needs.
<b>INTCO Recycling Inc</b> <a href="http://www.intcoplastic.com/">http://www.intcoplastic.com/</a>	72C41	INTCO has the ability to recycle and reuse 100,000 tons of EPS foam per year. They aim to build a circular economy model of quality plastic reuse by using <b>cutting edge recycling and production technologies</b> . Their main products include styrofoam compactor machines, r-PS pellets, frame moldings, art frames, photo frames, mirror frames, wall panels, crown molding and other interior and exterior decorative materials, which are widely sold in more than 120 countries and regions worldwide.

## U.S. Exhibitors at interpack and components 2023

<b>INX International Ink Co.</b> <a href="http://www.inxinternational.com">http://www.inxinternational.com</a>	18F12	INX International is the third largest <b>producer of inks</b> in North America with full-service subsidiaries in Europe and South America and is part of Sakata INX's worldwide operations. As the leader in metal decorating ink technology, INX helps designers, brand owners, and metal decorators achieve high-quality decorating on metal packaging.
<b>KINGNODE AMERICA INC</b> <a href="http://www.jl3tape.com">http://www.jl3tape.com</a>	70C23	Founded in 2005, Kingnode is a national high-tech enterprise that focuses on the research and development of <b>adhesive tape and corollary equipment</b> . With 3 automated production and processing bases and a total factory area of more than 60,000 square meters, Kingnode's business has reached many nations on five continents and continues to grow.
<b>KPM Analytics</b> <a href="http://www.kpmanalytics.com">http://www.kpmanalytics.com</a>	3A38	KPM Analytics is a global leader in <b>scientific instrumentation</b> , focused primarily on analyzing critical parameters within the food, agriculture, clinical and environmental sectors. Their product brands are AMS Alliance, Bruins Instruments, CHOPIN Technologies, EyePro System, Process Sensors, Sensortech, Sightline, and Unity Scientific.
<b>Lako Tool &amp; Manufacturing, Inc.</b> <a href="http://www.lakotool.com">http://www.lakotool.com</a>	18C20	LAKO TOOL is an international leader in the <b>flexible packaging industry</b> , founded in 1975. Headquartered in the U.S, they have local service teams across the U.S., Mexico, Latin America including Colombia and other local offices, and Europe including Germany and other local offices.
<b>Latini-Hohberger/ Dhimantec Inc.</b> <a href="http://www.latiniusa.com">http://www.latiniusa.com</a>	3C91	Latini - Hohberger Dhimantec is a leading global manufacturer providing machines and systems to the confectionery making industry. They innovate and supply <b>solutions for the confectionery, pharmaceutical, nutraceutical, and bakery industries</b> . For over 95 years they have been delivering single-stage and turn-key systems, producing quality machinery utilizing state-of-the-art manufacturing procedures.
<b>Machine Builders and Design Inc.</b> <a href="http://www.mbd-inc.com">http://www.mbd-inc.com</a>	3B85	MB&D is the snack-food industry leader in providing quality, value added <b>cookie and snack cake processing, and packaging equipment</b> . As a privately held company, they remain firmly focused on long-term success by effectively delivering real and long-term value to their customers. With over 45 years of experience in the Food and Beverage market, their company excels in providing highly engineered, turn-key solutions for diverse customer needs.

## U.S. Exhibitors at interpack and components 2023

<b>Marion Process Solutions Inc.</b> <a href="http://www.marionsolutions.com/">http://www.marionsolutions.com/</a>	15D23-5	The industry standard for <b>mixing and blending equipment and processing solutions</b> , Marion Process Solutions has been an industry frontrunner for more than 80 years. While Marion is known as the go-to name for horizontal mixing and blending equipment, Marion Process Solutions isn't "just" mixers. Mixing, blending, drying, reducing, service, support and total process integration, they are thought leaders in innovation and the standard of excellence in quality design, craftsmanship, and performance by which all other providers are measured.
<b>Marlen International Inc.</b> <a href="http://www.marlen.com">http://www.marlen.com</a>	6B73	Marlen is a global manufacturer of highly engineered <b>food processing equipment and systems, designing and building innovative solutions for the food processing industry</b> . From vacuum stuffing and pumping, portioning, size reduction to thermal processing, and food handling, Marlen has been trusted by leading food brands for 70 years. Marlen is a Duravant Company.
<b>MC Manufacturing Confectioner</b> <a href="http://www.gomc.com">http://www.gomc.com</a>	3A26	The Manufacturing Confectioner Publishing Company publishes <b>trade magazines and directories in the confectionery and surfactant industries</b> . It was founded in 1921 in Chicago, Illinois, and currently is headquartered in Princeton, Wisconsin.
<b>Metal Edge International, Inc.</b> <a href="http://www.metaledge.com">http://www.metaledge.com</a>	15C30-2	Metal Edge/Carton Edge International, located in North Wales, Pennsylvania, is the worldwide leading supplier of <b>cutting edge materials, related application systems and dispensing products for commercial and consumer aluminum foil, cling film and paper rolls</b> . Their global reach extends to clients on 6 continents and over 36 countries and allows MEI to offer its customers innovative solutions and exceptional customer service.
<b>MFT Automation, Inc.</b> <a href="http://www.mftautomation.com">http://www.mftautomation.com</a>	15C38-7	MFT Automation (formerly Multifeeder Technology) is a global leader in the <b>design and manufacture of feeders, labelers, and integrated systems for the print, packaging, gift card, pharmaceutical, medical, and food industries</b> . Whether you need one of their standard off-the-shelf machines or a fully custom converting solution, the MFT team has the technical experience, in-house resources, and driven culture to make their project a success.

## U.S. Exhibitors at interpack and components 2023

<b>Molded Fiber Glass Tray Company</b> <a href="http://www.mfgtray.com">http://www.mfgtray.com</a>	1A44	MFG Tray has been a leading <b>supplier of starch trays, holding trays, gum trays and stock boxes for the confectionery industry</b> for more than 45 years. These trays offer a number of exclusive design, cost and performance benefits for confectionery operations that can't be duplicated by other materials or manufacturers. The inherent strength and dimensional stability of MFG Tray composite trays make them exceptionally well suited for confectionery production.
<b>MPE Modern Process Equipment, Inc.</b> <a href="http://mpechicago.com">http://mpechicago.com</a>	4A39	Modern Process Equipment Corporation Founded in 1957 with worldwide headquarters in Chicago, USA, is dedicated to leading in the invention, development, and manufacture of their industry's most advanced <b>processing equipment, including grinders, conveyors, and total system solutions.</b>
<b>New England Machinery</b> <a href="http://www.neminc.com">http://www.neminc.com</a>	12E29	New England Machinery was founded in 1974 and build <b>automated packaging equipment for customers in the food, beverage, pharmaceutical, nutraceutical, personal care, household, chemical industries &amp; more.</b> Their product line includes: unscramblers, cappers, orienters, lidders, pump placers, scoop feeders, retorquers, pluggers & more
<b>Nimco Corporation</b> <a href="http://nimco.com">http://nimco.com</a>	15C38-4	NiMCO Corporation is a worldwide leading <b>independent manufacturer of gable-top packaging machinery.</b> Their modern 40,000 sq. ft. factory, located just outside Chicago, IL is dedicated to the assembly, testing, and servicing of all NiMCO products and provides major advantages in production capacity, efficiencies, and order lead-times.
<b>NOW Plastics, Inc.</b> <a href="http://nowplastics.com">http://nowplastics.com</a>	10C26A	Now Plastics is a global <b>supply chain organization and supplier of premium plastic films, aluminum foil and other packaging products.</b> Now Plastics offers its converting customers a comprehensive range of supply chain services - logistics, financing, product guarantees, procurement risk mitigation and a high level of experience gained from more decades serving the flexible packaging industry.
<b>nVenia LLC</b> <a href="http://www.nvenia.com">http://www.nvenia.com</a>	6B73	Since its inception in 1971, ARPAC LLC has been recognized as a leading <b>manufacturer of innovative end-of-line secondary packaging solutions.</b> With 30,000 installations worldwide, ARPAC packaging systems have been successfully installed in virtually every industry. Their machines provide tailor-fit packaging solutions to producers of foods, beverages, printed publications, pharmaceutical goods, health & beauty products, building supplies, automotive products, material handling companies and a wide variety of industrial and consumer goods.

## U.S. Exhibitors at interpack and components 2023

<b>OMAC - The Organization for Machine Automation and Controls</b> <a href="http://omac.org">http://omac.org</a>	8BE80	OMAC, The Organization for Machine Automation and Control—founded in 1994, is the <b>global organization for automation and manufacturing professionals</b> that is dedicated to supporting the machine automation and operational needs of manufacturing. OMAC's Mission is to provide collaborative thought leadership, standards and support to automation professionals enabling their organizations to save time, money and restheirces, creating room for innovation.
<b>Pace Packaging LLC</b> <a href="http://www.pacepackaging.com">http://www.pacepackaging.com</a>	13A75	Pace Packaging is a leading <b>provider of automated bottle unscramblers, bottle orientors and conveyor cleaning systems</b> . Today they have over 4,500 machines unscrambling and / or orienting PET, HDPE, PP and PVC bottles with and without handles in over 90 countries around the world.
<b>Pacific Packaging Machinery LLC</b> <a href="http://www.pacificpak.com/">http://www.pacificpak.com/</a>	13A75	Pacific Packaging Machinery was founded in 1962 by Stephen Ellison in Los Angeles, California. Pacific Packaging provides high performance <b>rotary and inline filling systems</b> for leading manufacturers worldwide. Their machines accommodate a wide range of free-flowing liquids and semi-viscous products such as salad dressings, sauces, beverages, automotive fluids and personal care products, as well as highly viscous products like mayonnaise, peanut butter, grease and spackling compound.
<b>Packaging Progressions, Inc.</b> <a href="http://www.pacproinc.com">http://www.pacproinc.com</a>	1B31	Plant Managers rely on Pacproinc®'s <b>automated solutions for their food service packaging</b> . Their state-of-the-art automation solutions make putting paper and foil around their food service manufacturing a more cost-effective proposition.
<b>PakTech</b> <a href="http://www.paktech-opi.com">http://www.paktech-opi.com</a>	7AB02	PakTech is a leading <b>producer of secondary packaging handles and handle applicators for the FMCG sector</b> with a clear vision for the circular economy. A family-owned and operated business founded in 1991, PakTech delivers smart, sustainable and simple packaging handles for businesses of all sizes – from start-ups to globally renowned FMCG brands.

## U.S. Exhibitors at interpack and components 2023

<b>Paper Machinery Corporation</b> <a href="http://WWW.PAPERMC.COM">http://WWW.PAPERMC.COM</a>	8AB49	Paper Machinery Corporation is the world's leading source of <b>forming machines for paperboard cups, containers, and custom packages</b> . PMC's overwrapping machines are widely used in packaging and hot drink applications. PMC offers double-wall, triple-wall, and specialty wrapping machines with customer-specified configurations. PMC has been honored with an array of awards, including The World Trade Hall of Fame, The President's "E" Star Certificate for Exports, the AmeriStar and WorldStar Package Awards, and the 2022 Business Friend of the Environment Award from the Wisconsin Manufacturers & Commerce (MWC).
<b>Peco InspX</b> <a href="http://www.peco-inspx.com">http://www.peco-inspx.com</a>	14C01	Peco InspX provides <b>high-performance X-ray inspection solutions for the food, beverage, personal care and life science industries</b> . Their diverse range of products support inspections of containers (glass, metal, PET, very large format (1-5 gallons, cases), boxes, pouches, packets) as well as bulk belt and pipeline products (e.g., beans, protein, ingredients). Their inspection systems support the highest production speeds and deliver the best quality inspection with the lowest false reject rate.
<b>Peerless Food Equipment</b> <a href="http://www.peerlessfood.com">http://www.peerlessfood.com</a>	4C23	Peerless Food Equipment is a food equipment company dedicated to creating value for the world's leading wholesale bakeries and commercial food processors by developing and applying innovative technology for excellent solutions. Peerless is an industry-leader in <b>commercial food equipment for breads, cookies, tortillas, cakes and more</b>
<b>Pharmaworks, Inc.</b> <a href="http://www.pharmaworks.com">http://www.pharmaworks.com</a>	13A75	Pharmaworks <b>manufactures innovative blister packaging systems for a wide array of industries including pharmaceutical, medical, nutraceutical, animal health, and consumer goods</b> . Pharmaworks blister solutions range from semi-automated machines to high-speed, fully automated, intermittent systems. In addition to their core blister packaging machinery, they provide a wide range of feeding technology capable of loading some of the toughest products.
<b>PMMI / PACK EXPO</b> <a href="http://www.packexpo.com">http://www.packexpo.com</a>	12A66	PMMI, <b>The Association for Packaging and Processing Technologies</b> , represents <b>more than 950 North American manufacturers and suppliers</b> of equipment, components and materials as they'll as providers of related equipment and services to the packaging and processing industry. The PACK EXPO trade shows unite the world of packaging and processing to advance the industries they serve: PACK EXPO International, PACK EXPO Las Vegas, PACK EXPO East, EXPO PACK México and EXPO PACK Guadalajara.

## U.S. Exhibitors at interpack and components 2023

<b>Pneumatic Scale Angelus, LLC</b> <a href="http://www.psangelus.com">http://www.psangelus.com</a>	6C79	Pneumatic Scale Angelus is a global leader in the <b>design and manufacture of packaging machinery for liquid and dry filling, capping, can seaming, and labeling applications as well as state-of-the-art container handling solutions.</b> With 7 manufacturing locations and team members worldwide, they provide innovative equipment, using the most advanced technologies, to their unique specifications.
<b>Polypack Inc.</b> <a href="http://www.polypack.com">http://www.polypack.com</a>	12E18	Polypack specializes in designing and building <b>shrink wrap and cardboard packaging equipment</b> tailored to the needs of their application. Polypack offers a wide array of product collation modules designed to meet the packaging requirements of all industries.
<b>Preco LLC</b> <a href="http://www.precollc.com">http://www.precollc.com</a>	12A16	Preco are a leading <b>designer and manufacturer of precision automated processing systems for high-speed and high-accuracy cutting, perforating, welding, and other specialized industrial processing</b> applications. With their proprietary die cutting and laser-based manufacturing capabilities, they've also become one of the largest contract manufacturing service (CMS) providers in North America.
<b>Presto Products Company Fresh-Lock</b> <a href="http://www.fresh-lock.com">http://www.fresh-lock.com</a>	9J32	Fresh-Lock® <b> closures for flexible packaging</b> are designed and produced by Presto Products, a business of Reynolds Consumer Products. The Fresh-Lock team has created many groundbreaking slider and zipper solutions, including sustainable closures within its 8000 series. The Fresh-Lock team has been dedicated to sustainability as a manufacturer of recyclable closures for over 30 years.
<b>ProMach, Inc.</b> <a href="http://www.promachbuilt.com">http://www.promachbuilt.com</a>	13A75	ProMach is a family of best-in-class <b>packaging solution product brands</b> that, together, can package anything with precision, with efficiency, and with performance.
