WREFS Welding LLC	8

U.S. Exhibitors at Schweissen & Schneiden 2023

<p>AIMTEK, Inc., MA http://www.aimtek.com/</p>	<p>1 D38L</p>	
<p>American Torch Tip Corporation, FL http://americantorchtip.com/</p>	<p>1 D38B</p>	<p>American Torch Tip Company, Inc. manufactures and supplies welding and cutting torches, guns, and consumables. It offers semi-automatic guns, automatic guns, robotic guns, and MIG cables; plasma torch and replacement torches and consumables; oxy-fuel equipment and consumables; and TIG products, such as collets, collet bodies, gas lenses, alumina nozzles, tungsten electrodes, power cables, replacement parts, and others, as well as torch packages, power adapters, hookup, extension, and accessory kits.</p>
<p>AQUASOL CORPORATION, NY http://www.aquasolcorporation.com/</p>	<p>1 D38P</p>	<p>Aquasol has developed the first APP-enabled handheld oxygen monitor for the welding industry. Compatible with Android, iOS, and Windows. The POM[®]-100B/POM[®]-5B comes equipped with many advanced features such as its data logging capabilities, which allow operators to create infinite permanent records of real-time data and export them to Microsoft[®] Excel and plain text format.</p> <p>The POM[®]-100B/POM[®]-5B also offers a built-in, programmable multi-language feature with on-screen instructions that are available in English, Spanish, German, and Portuguese. Together with different voltage and frequency specifications and compatibilities, the POM[®]-100B/POM[®]-5B are the most universal oxygen weld monitors available on the global market today."</p>

U.S. Exhibitors at Schweissen & Schneiden 2023

<p>Bug-O Systems International, PA http://www.bugo.com/</p>	<p>1 D38F</p>	<p>BUG-O Systems, founded in 1948, manufactures a system of drives, carriages, rails and attachments designed to mechanize welding guns, cutting torches and other hand-held tools. BUG-O Systems' equipment is inexpensive, modular and portable. Their machines provide precise path and speed control in any plane or position. These features are particularly desirable to fabricators, shipbuilders and the construction industry. Operators achieve greater efficiency and profitability as well as, produce high quality cuts and welds. Welders decrease defects and costly repairs. Bug-O Systems' products are used in the following applications: oxy-fuel or plasma cutting and beveling, carbon arc or plasma gouging, MIG or Submerged Arc Welding, flame spraying and nondestructive inspection testing. Bug-O machines are well known and used in many different types of steel fabrication industries. These industries include: shipbuilding, pressure vessel manufacturing, rail car manufacturing, structural steel fabricating, mechanical contracting, steel supply and service centers and or anyone who welds or cuts metals as part of their product or service.s.</p>
<p>CK WORLDEWIDE Inc., WA http://www.ckworldwide.com/</p>	<p>1 D380</p>	<p>CK Worldwide produces the highest quality TIG torches and accessories in the industry.</p>

U.S. Exhibitors at Schweissen & Schneiden 2023

<p>Cor-Met Inc., MI http://www.cor-met.com/</p>	<p>1 D38A</p>	<p>COR-MET manufactures a wide selection of sizes and alloys in cored welding wire. Sizes range from .035" to 3/16". The alloys are low alloy steels to nickel and cobalt base alloys. Alloys are available for resistance to high temperatures, corrosion and abrasion. Wires are available to join, repair, and overlay tool steels, nickel base high alloy steels, cast iron and stainless steels. COR-MET also manufactures shielded metal arc welding electrodes. These complement many of the existing cored wires. Sizes available range from 3/32" to 20mm (3/4"+). COR-MET processes a complete selection of solid TOOL STEEL wires and alloy steel wires that are used for TIG and MIG when the application demands a high quality wrought filler material.</p>
<p>Cougartron, PA https://cougartron.com/</p>	<p>1 D38C</p>	<p>Cougartron is the world's leading innovator and manufacturer of world-class stainless steel surface treatment and passivation solutions. Weld Cleaning & passivation; marking & etching, and polishing, available as mobile equipment.</p>
<p>Milco Manufacturing Company, MI http://milcomfg.com/</p>	<p>4 F35</p>	<p>Milco Manufacturing Company presents th train welding gun. High pressure: Pressure up to 15KN (deflection less than two millimetre). High current: Output current up to 21KA. Lighter: Ergonomic design, easy to operate and can be installed on any position.</p>
<p>Polymet Corporation, OH http://www.polymet.us/</p>	<p>1 D38J</p>	<p>A world-class manufacturer of high performance wire for hardfacing, welding, and thermal spray applications. We produce high quality products used in aerospace, power generation, nuclear, lumber, mining and many other industries. Polymet wires are idea for demanding applications such as metal to metal, metal to earth, high impact, high abrasion, corrosion and high temperature wear factors.</p>

U.S. Exhibitors at Schweissen & Schneiden 2023

<p>Prince & Izant Company, OH https://princeizant.com/</p>	<p>2 A11</p>	<p>Manufacturer of 1970 Filler materials for high alloy steels, 1980 Filler materials for high alloy cast steels, 2000 Filler materials for non-ferrous metals and alloys, 2010 Filler materials for unalloyed and low alloy steels, 2020 Filler materials for unalloyed and low alloy cast steels, 2040 Filler materials for other materials, 2050 Filler materials for wear and corrosion resisting deposits, 2070 Wires and strips for micro welding, 2090 Flux cored wires and strips, 2180 Filler materials for laser beam welding, 2240 Metal powders and wires, 2290 Leadfree solders, 2300 Lead-tin solders, 2330 Tin-lead solders with or without Cu, Ag, P additions, 2340 Aluminium brazing fillers, 2350 Gold containing brazing fillers, 2360 Copper/brass brazing fillers, 2370 Nickel base brazing fillers, 2380 Palladium containing brazing fillers, 2390 Phosphorus containing brazing fillers, 2400 Platinum containing brazing fillers, 2410 Silver brazing fillers, 2420 Special brazing fillers (cobalt, titanium, zirconium base), 2430 Other brazing fillers, 2440 Flux cored rods, 2450 Flux coated rods, 2460 Brazing and soldering wires, rods and strips, 2470 Preforms and foils, 2480 Brazing and soldering pastes, 2490 Filler precoated plates, 2500 Brazing and soldering powders, 2510 Stranded rods.</p>
<p>SAWYER MFG COMPANY, OK https://sawyermfg.com/</p>	<p>1 D33</p>	<p>More than 65 years of experience designing and manufacturing welding and pipeline equipment. Sawyer MFG Company is equipped for Heavy Weld, Skid Work, Conventional and Custom Machining with expert technicians trained to execute a full range of high precision machining techniques on conventional machines, lathes and CNC machines.</p>

U.S. Exhibitors at Schweissen & Schneiden 2023

<p>Special Metals Welding Product, NC http://www.specialmetals.com/</p>	<p>1 D38D</p>	<p>Special Metals is acknowledged as the world's leading developer and manufacturer of wrought nickel alloys and nickel welding consumables. The facility produces a full line of Nickel welding products including the flux-coated electrodes, filler metals for MIG and TIG, flux cored wires, and fluxes for submerged arc.</p>
<p>Subsea Global Solutions LLC, FL https://www.subseaglobalsolutions.com/</p>	<p>7 F13Q</p>	<p>Subsea Global Solutions is a leading commercial diving company operating in the maritime industry with a highly skilled technician base of over 200 divers and ROV operators that are full time employed in 14 locations across 5 continents and numerous working partnerships worldwide.</p>
<p>Tolomatic Inc, MN https://www.tolomatic.com/</p>	<p>3 B11</p>	<p>In applications ranging from bottle capping, packaging, material handling to robotic resistance spot welding, Tolomatic's products are hard at work. Tolomatic signs, manufactures, and markets automation components in three different technologies: Electric linear motion: Linear actuators (rod and rodless) Servo and Stepper control ServoWeld® servo actuators /products/pneumatic-linear-actuators for robotic resistance spot welding, Pneumatic: Rodless cylinders — band-type and cable cylinders, linear slides and magnetically coupled cylinders and slides Rod cylinder slide thrusters, Power Transmission: Float-A-Shaft® and SlideRite® gearboxes Disc cone clutches Industrial and off-highway caliper brakes.</p>
<p>Trade Show Services, NY https://www.tssworldwide.com/</p>	<p>1 D38M</p>	<p>US Representative Office of Messe Essen – the exhibition venues belong to the top ten largest exhibition complexes in Germany and deliver leading industry events which attract global attention. In addition to the shows in Germany, they represent Messe Essen’s shows in China, India, Brazil, the Middle East and other parts of the world.</p>

U.S. Exhibitors at Schweissen & Schneiden 2023

Uniweld Products Inc., FL http://uniweld.com	1 D38I	Produce the finest tube and pipe cutting machinery, standard Tri Tool equipment, custom equipment design and manufacturing, special application engineering, on-site machining and welding services, equipment rental or repair.
Weldsale, PA https://www.weldsale.com/	1 D38K	Welding Wholesale Company was created for the purposes of selling Welding Equipment, Welding Wire, and began making their own brand of Platens (workbenches), stands, and tooling. Their Platen selection has grown over the decades, as has their selection of tools and clamps, and they have grown into Weldsale Company LLC.
WREFS Welding LLC, TX		WREFS Welding is a manufacturer of welding consumables including agglomerated flux, saw wire, MIG/MAG wire, TIG wire, strip, electrodes, and welding safety accessories and tools.
