

**U.S. Exhibitor List
EMO 2023**

**Provided by the U.S. Commercial Service
Düsseldorf**

U.S. Exhibitors at EMO 2023

<u>5th Axis Inc.</u>	4
<u>Air Turbine Tools</u>	4
<u>AMT - Association For Manufacturing Technology</u>	4
<u>AutoDesk</u>	4
<u>Blue Photon</u>	4
<u>Bridgeport</u>	5
<u>Chick Workholding Solutions Inc.</u>	5
<u>Command Tooling Systems</u>	5
<u>Concepts NREC</u>	6
<u>Darex LLC</u>	6
<u>DIGIPAS</u>	6
<u>Dorian Tool Inc</u>	6
<u>Gleason Metrology Systems Corporation</u>	7
<u>Gleason Works</u>	7
<u>Haas Automation Inc.</u>	7
<u>Hardinge Inc.</u>	7
<u>HIGH QA</u>	8
<u>Hurco Companies Inc.</u>	8
<u>Ingersoll Machine Tools Inc.</u>	8
<u>J.W. Done Corporation</u>	8
<u>JLH SAWS</u>	9
<u>Lockwood Products, Inc. (Loc-Line)</u>	9
<u>M. K. Morse Company</u>	9
<u>Markforged, Inc.</u>	9

U.S. Exhibitors at EMO 2023

<u>Mastercut Tool Corp.</u>	9
<u>MATE</u>	10
<u>MAZACAM</u>	10
<u>Mitee-Bite Products Inc.</u>	10
<u>NORGREN Automations</u>	10
<u>QualiChem, Inc.</u>	11
<u>Samchully Workholding, Inc.</u>	11
<u>Sunnen Products Company</u>	11
<u>Third Wave Systems</u>	11
<u>Tool-Flo</u>	11
<u>Tungco Powder Procurement</u>	12
<u>Vektek LLC</u>	12
<u>XACT</u>	12

U.S. Exhibitors at EMO 2023

<p>5th Axis Inc. http://www.5thaxis.com</p>	<p>Hall 5, A80</p>	<p>Clamping devices and chucks; other, Machine vices, Zero point clamping systems</p>
<p>Air Turbine Tools http://www.airturbinetools.com</p>	<p>Hall 12, E12</p>	<p>Deburring systems, Engraving machines, Hand held power tools, Hand tools, High speed drilling machines, High speed machining centres, High speed milling machines, Manual deburring tools, Micromachining centers, Milling machines; other</p>
<p>AMT - Association For Manufacturing Technology http://www.amtonline.org</p>	<p>Hall 8, B52</p>	<p>Association - AMT is uniquely positioned to help you expand your business by providing access to new markets in the United States and around the world - Organizer of the IMTS trade fair, the largest of its kind in the western hemishpere</p>
<p>AutoDesk https://www.autodesk.com</p>	<p>Hall 9, C08</p>	<p>Built on 40 years of experience in the CAD, CAM, and CAE industries - Fusion 360 is the first and only integrated cloud CAD, CAM, CAE, and PCB software platform of its kind. You can produce at a pace of change equal to and, at times, faster than the industry.</p>
<p>Blue Photon https://www.bluephotongrip.com</p>	<p>Hall 5, B84</p>	<p>Blue Photon is a manufacturer of adhesive workholding components, including Blue Photon grippers and insert assembly products. Designed to hold difficult parts and eliminate operations for manufacturing, hard-to-hold parts and delicate materials are particularly suited to Blue Photon's workholding technology. Blue Photon's adhesive workholding solves struggles by eliminating scrap and rework caused by poor clamping, ensuring that the surface integrity of the part is not</p>

U.S. Exhibitors at EMO 2023

		<p>affected. The workholding technology allows the user to hold parts and most materials without pinching the part to hold it. Blue Photon offers adhesive workholding for milling, turning, electrochemical machining (ECM), electrical discharge machining (EDM), grinding, inspection, and laser applications for the additive, aerospace, ceramic, job shop, optical, and medical machining industries.</p>
<p>Bridgeport http://www.hardinge.com</p>	<p>Hall 11, E64</p>	<p>Highly reliable turning, milling, grinding and workholding solutions. Enabling them to support a variety of market applications, including aerospace, automotive, medical, energy, construction, agriculture, mold, tool and die, and more. Product line includes: SUPER-PRECISION multi-tasking CNC lathes; Manual knee mills to high-performance vertical and horizontal multi-tasking CNC machining centers; Precision manual to CNC type universal grinding machines for OD, face and ID grinding; Precision manual to CNC-type grinding machines for high-volume OD and ID production CNC grinding; Precision jig grinding and five axis profile grinding; and the world's largest manufacturer of precision collets, chucks and workholding systems.</p>
<p>Chick Workholding Solutions Inc. http://www.chick-workholding.com</p>	<p>Hall 5, A35</p>	<p>Chucks with coding, Clamping devices, hydraulic, Machine vices, Shrink chucking equipment, Standard fixture parts and clamping devices, Steady rests self-centering</p>
<p>Command Tooling Systems</p>	<p>Hall 4, C30</p>	<p>Angular heads, Tool holders, Tool systems, modular, Toolholder with</p>

U.S. Exhibitors at EMO 2023

http://www.commandtool.com		<p>coupleable drive, Tool-holding fixtures, Tooling devices; other, Tooling systems; other</p>
<p>Concepts NREC https://www.conceptsnrec.com/home</p>	<p>Hall 9, C09</p>	<p>For over 65 years, Concepts NREC has been partnering with the world's leading OEMs to improve the performance and manufacturability of their turbomachines. They are the only company in the world whose in-house capabilities span the entire process - from conceptual design through manufacturing, testing, and installation. Products include CAD, CAE, CAM software as well as software intended for production simulation, computational fluid dynamics, and engineering.</p>
<p>Darex LLC http://www.darex.com/</p>	<p>Hall 6, E85</p>	<p>Developing twist drill sharpening machines and carbide tool sharpening machines.</p>
<p>DIGIPAS http://www.digipas.com</p>	<p>Hall 6, A65</p>	<p>a world-leading manufacturer of digital levelling instruments/tools, 2-axis precision electronic tilt-angle sensor modules and surface flatness measuring instruments as well as 2D alignment-diagnostic straightness instruments built with analytical software and apps, specifically engineered for research scientists, industrial professionals, specialists, tradesmen & DIY users. Products used for detecting, measuring, testing and protecting devices, hand and tools, precision instruments, electronic, surface measurement, vibration meters</p>
<p>Dorian Tool Inc http://www.doriantool.com</p>	<p>Hall 5, C95</p>	<p>Bent finishing tools, Boring tools, Carbide-tipped tools, Cutting tools,</p>

U.S. Exhibitors at EMO 2023

		coated, Inserts, Metal cutting tools; other, Milling cutters and mills and gear shaper cutters, disc type, Notching tools, Paring chisels and holders for indexable inserts, Toolholder systems, modular
Gleason Metrology Systems Corporation http://www.gleason.com	Hall 11, E14	Bore measuring equipment, Circularity measurement, Computerized measuring machines, Equipment for electromotive force measurement, Gear testing equipment, Geometric measuring, touchless, Hob testing equipment, Laser measuring equipment, Machine calibration, Maintenance of machines
Gleason Works http://www.gleason.com	Hall 11, E14	Bevel gear generating and planing machines, Chucking systems, Clamping devices, hydraulic, Expanding mandrels, Gear cutting centres, Gear cutting machines; other, Gear hobbing machines, Gear polishing and gear lapping machines, Hardening shops, Loading and feeding equipment for machine tools
Haas Automation Inc. http://www.haascnc.com	Hall 16, G11	Develops capstan and turret lathes, Circular table milling machines, Collet chucks, Crankshaft and camshaft milling machines, Drilling machines - multi way, Engraving machines, Gantry type drilling machines, Grinding spindles, High speed drilling machines, High speed machining centres
Hardinge Inc. http://www.hartdrehen.com/en	Hall 11, E64	Chucking systems, Clamping devices and chucks; other, Clamping devices, hydraulic, Expanding mandrels, Lathe chucks, hydraulically operated, Lathes; other, Single spindle bar automatics, Single spindle chucking automatics,

U.S. Exhibitors at EMO 2023

		Single spindle universal automatic lathes, Turning centres, Vertical machining centres
HIGH QA www.highqa.com	Hall 6, A96	Develops software for quality management, auditing software, statistical analyses, and APQP/PPAP management software.
Hurco Companies Inc. http://www.hurco.de/red/index.asp	Hall 12, D68	Their integrated quality software platform enables manufacturers and customers within own facilities and throughout the supply chain to automate manufacturing quality and supplier quality processes from quoting to delivery that is on-time, on-budget and on-quality.
Ingersoll Machine Tools Inc. http://www.camozzimachinery.com/en/camozzigroup/machine-tools/home	Hall 13, C07	Ingersoll Machine Tools Inc. is a leader in advanced manufacturing processes and a global supplier of additive and subtractive machine tools for the aerospace, defense, energy, and all heavy industrial sectors. Develops contract manufacturing for additive manufacturing, Flexible manufacturing cells for prismatic parts, High speed machining centres, Horizontal machining centres, Milling machines; other, Multi-head bed type milling machines, Palletizing systems, Slotting machines, Systems for additive manufacturing, other, Systems for hybrid processes, Systems for 3D printing (3DP), Universal tool milling machines, Vertical bed type milling machines
J.W. Done Corporation https://www.jwdone.com	Hall 5, E33	Develops finishing tools, shaving cutters, deburring tools. J.W. Done Corporation developed the ORBITOOL. The

U.S. Exhibitors at EMO 2023

		deburring tool capable of in-process deburring of cross-drilled holes. The tool is used just like any cutting tool found on a lathe turret or tool magazine of a milling machine. It removes burrs specifically from the intersection of the crossholes.
JLH SAWS https://www.jlhsaws.com	Hall 3, B30	Produces circular sawing machines and band sawing machine. JLH is the largest metal sawing machines brand in our home country with more than a 25% market share We are continuing to emerge as preferred sawing brand in across the world. JLH currently exports to more than 30 countries with ongoing efforts to expand our footprint.
Lockwood Products, Inc. (Loc-Line) http://www.loc-line.com	Hall 4, D28	Lubrication and cooling; others, Lubrication equipment and devices, Minimal lubrication technology, Spraying attachment for forging machines
M. K. Morse Company http://www.mkmorse.com	Hall 3, A01	Boring bits, Carbide-tipped tools, Circular saw blades, Circular saw blades, with metal carbide tips, Cutting tools, coated, Diamond cutting tools, Metal band saw blades, Power hacksaw blades, Spade drills, Step drills
Markforged, Inc. https://markforged.com	Hall 9, F07	Systems for fused layer modelling / freeformer (FLM, FDM), Systems for 3D printing (3DP)
Mastercut Tool Corp. http://www.mastercuttool.com	Hall 5, C41	Centre drills, Countersinks and core drills, Cutting tools, coated, End millers, Filing tools, Finishing tools, Milling cutters and mills and gear shaper cutters, disc type, Reamers, Slot millers,

U.S. Exhibitors at EMO 2023

		Spade drills, Step drills, Surface milling tools, Taps, Tool bits, Twist drills
MATE https://www.mate.com /	Hall 5, D83	Mate manufactures workholding, CNC punch press tooling, and a comprehensive, superior line of press brake tooling. Mate Laser Technologies serves the CO2 and fiber laser market with premium quality optics, nozzles and accessories. Produces clamping device, chucks, machine vices, and standard fixture parts.
MAZACAM http://www.mazacam.com/	Hall 9, E11	MazaCAM is an advanced programming system for the Mazak CNC machine tools. It was developed to be easy-to-use for those new to programming at your computer, and yet deliver the power that is needed for those experienced users. SolutionWare has developed GeoPath, Mill module, Lathe module, EDM module, Fabrication CAM, PowerCAM and Solid Verify.
Mitee-Bite Products Inc. http://www.miteebite.com	Hall 4, D28	Chucking systems, Clamping devices and chucks; other, Collet chucks, Expanding mandrels, Machine vices, Standard fixture parts and clamping devices, Vacuum fixing plates, Zero point clamping systems
NORGREN Automations https://materialhandling.norgren.com/en	Hall 6, G51	They create the intelligent handling systems and deliver products that efficiently, reliably and cost-effectively move, press, shape and form metal in robotic (Tandem), Crossbar, Tri-axis and hot forming press applications. Product groups include gripping tools, automatic fixtures, machine vices, and milling machines for prototype construction.

U.S. Exhibitors at EMO 2023

<p>QualiChem, Inc. http://www.qualichem.com</p>	<p>Hall 6, F15</p>	<p>Accessories for electroerosive machining, Cooling lubricants, Lubricants and cutting fluids for use on machine tools, Lubrication and cooling; others, Minimal lubrication technology</p>
<p>Samchully Workholding, Inc. http://www.samchully.com</p>	<p>Hall 4, B79</p>	<p>Centers, tailstocks for lathes, Chucking systems, Clamping devices and chucks; other, Clamping devices, hydraulic, Collet chucks, Expanding mandrels, Fixture plates, Lathe chucks, hand operated, Lathe chucks, hydraulically operated, Lathe chucks, pneumatically operated, Machine vices, Magnetic chucks, Magnetic plates, Standard fixture parts and clamping devices, Steady rests self-centering</p>
<p>Sunnen Products Company http://www.sunnen.com</p>	<p>Hall 11, D19</p>	<p>Abrasive products with diamond, Bonded abrasive products, Bore measuring equipment, Components to interlink separate production stages, Cooling lubricants, Cylinder honing machines, Dressing tools Honing, lapping and polishing tools, Honing machines, Lubricants and cutting fluids for use on machine tools, Other grinding tools and accessories, Palletizing systems, Precision measuring instruments, mechanical, Separators for coolants and lubricants, pumps, filters, centrifuges, Tooling systems; other</p>
<p>Third Wave Systems https://thirdwavesys.com</p>	<p>Hall 9, D02</p>	<p>CAE software, Materials data base, Software for CNC-controls, Software for finite - element - calculation, Software for NC simulation, Software for product simulation</p>
<p>Tool-Flo https://webshop.toolflo.com</p>	<p>Hall 4, E38</p>	<p>Devlops cutting tools, hard metal inserts, metal cutting tools, thread</p>

U.S. Exhibitors at EMO 2023

		milling machines, threading tools, and inserted blade miling cutters.
Tungco Powder Procurement http://tungco.com	Hall 4, G78	Blanks for tools - Hard Metal, Blanks for tools - HSS, Boring bars, Boring bits, Boring tools, Broaching tools, Carbide-tipped tools, centre drills, Circular saw blades, with metal carbide tips, Countersinks and core drills, Cutting tools, coated, End millers, Filing tools, Filters Filtration, ultrafiltration, Fine boring tools, Finishing tools, Gun drills, Hard metal inserts, Inserted blade milling cutters, Inserts Metal cutting tools; other, Reamers, Shaving cutters, deburring tools, Spade drills, Step drills, Taps, Thread rolling dies, Threading dies, Tool bits, Twist drills
Vektek LLC http://www.vektek.com	Hall 3, E25	Clamping devices and chucks; other, Clamping devices, hydraulic, Expanding mandrels, Fittings, connections, Fixture plates, High pressure lines and hoses, flexible tubing, Hydraulic and pneumatic components; others, Hydraulic components, controls and accessories, Operating elements for jigs, Pneumatic components, controls and accessories, Pressure reducers and intensifiers, Pumps, Standard fixture parts and clamping devices
XACT https://xactmetal.com	Hall 9, E34	Develops systems for #D printing, systems for selective laser melting / sintering, and materials for additive manufacturing. Xact Metal introduced the XM200G family of single-and-dual laser printers that utilize galvanometer mirrors, for faster printing speeds for high through-put industrial applications
