

Sub-Saharan Africa Rail and Port Trade Mission

Mission Stops: South Africa and Angola

August 19-24, 2024

About:

The United States Department of Commerce | International Trade Administration | U.S. and Foreign Commercial Service | Global Automotive and Smart Mobility Team is organizing a Sub-Saharan Africa Rail and Port Trade Mission to Johannesburg, South Africa and Luanda and Lobito, Angola for U.S. companies who sell to the rail and port sectors.

Sub-Saharan Africa's Rail and Port sectors:

South Africa Rail and Ports -

- South Africa has the largest legacy railway and port infrastructure in Africa.
- The South African Government views the country's ports and terminals as key engines for economic growth.

Angola Rail and Ports -

- The 2023 Angolan national budget allocated US\$62 million to support the development of the rail sector.
- As Angola's economy improves and cargo volumes increase, there are opportunities for U.S. companies to export services and products to port operators.
- Engage with the Biden Administration-led Partnership for Global Infrastructure and Investment (PGI) strategic economic corridor and the growing opportunities for U.S. companies to export services and products to port and rail operators.

Why You Should Join this Mission:

Mission participants will have several opportunities to engage in Business-to-business meetings with sub-Saharan Africa rail and port suppliers and Business-to-government meetings with key sub-Saharan Africa railway and port operators.

The mission includes participation, meetings, and networking opportunities at the SARA Rail Conference in Johannesburg, South Africa, where private-sector African companies that supply to the railway and port sectors, sub-Saharan Africa Transportation Ministers, and key executives from the South African Development Community (SADC) will be present.
