

Company Name	Website	Location	Company Information
AceCo Precision Manufacturing LLC	https://aceco.com/	Hall 27, Stand G60	AceCo Precision Manufacturing is a 45-year-old ISO 9001 certified company with over 18 years of experience in the semiconductor industry. AceCo manufactures over 1300 various second source components for the ETCH CVD and PVD processes.
Alabama Department of Commerce	https://www.madeinalabama.com/	Hall 25, Stand B70	Alabama is a forestry powerhouse with over 23 million acres of forestland, covering 69% of its land. This abundant resource, coupled with a favorable climate for tree growth and a strategic Southeast location, makes it a major player in the forestry industry.
Alliance Automation	https://allianceautomation.com/	Hall 27, Stand K20	Alliance Automation began operations in August 2008, seizing an opportunity to provide automation solutions to underserved industries. They design and build robotic automation systems that optimize production processes, providing automation solutions for a multitude of industries; each helping upgrade efficiency, increase throughput and guarantee reliability in production.
Apquip	https://apquip.com/	Hall 27, Stand G60	Since 1971 Apquip has specialized in the design and manufacture of adhesive application systems for the wood products industry. Apquip's extensive experience in
Black Bros	https://blackbros.com/	Hall 27, Stand K49	Black Bros. Co. designs and manufacturers machinery for roll coating and laminating worldwide. Adhesive spreaders and rotary or platen presses are at the heart of the woodworking line of equipment.
Con-Vey	https://con-vey.com/	Hall 26, Stand H57	Con-Vey is a full-service industrial automation provider based in Roseburg, Oregon, USA. They engineer and manufacture complete production lines and custom integrated solutions for building products manufacturing facilities
Coohom	https://www.coohom.com/	Hall 15, Stand B02	Coohom is an industry-leading 3D Rendering & Product Visualization platform that allows companies and designers to easily create 3D floor plans in minutes, and exquisitely render design projects in seconds up to 16K resolution.

Company Name	Website	Location	Company Information
EIT 2.0	https://www.eit20.com/	Hall 17, Stand F04	Founded in 1977, EIT 2.0 evolved its mission in 2021 to focus on their core strengths: to provide creative engineering solutions to electronic manufacturing and to develop innovative technology to support needs in the areas of UV measurement, disinfection, and more.
Elliott Bay Industries	http://www.ellbay.com/	Hall 26, Stand G76	Elliott Bay Industries, headquartered in Seattle, USA, is the world's leading manufacturer of in-line moisture meters and analyzers for the forest products industry. Started in 1941, they have a long history of delivering technically advanced equipment designed to improve manufacturing processes, creating efficiencies and improving recovery.
Eurosoft	https://www.eurosoftinc.com/	Hall 15, Stand F37	Providing innovative software solutions to the manufacturing industry for 23 years. Companies turn to Eurosoft, and its partners recommend them, not only for their innovative off-the-shelf products, but also for custom development solutions that solve complex integration issues or push the limits of current technologies.
Globe Machine Manufacturing	https://www.globemachine.com/	Hall 26, Stand F48	Worldwide leading machinery manufacturer of panel saw and sander lines, panel handling and packaging machines for plywood equipment, OSB, moulded doorskin, LVL, and cement fiberboard equipment. Complete systems for wood I-beams and an experienced developer of custom solutions for engineered wood production and other new technologies.
Wood Industry Association	http://woodindustry.org/	Hall 27, Stand K49	WIA's mission is to improve management operations, marketing programs, sales techniques, merchandising and distribution functions of those engaged in the domestic or foreign manufacture of woodworking machinery and ancillary equipment or supplies and/or the sale of such equipment or supplies in North America.
Hatton-Brown Publishers	http://www.hattonbrown.com/	Hall 26, Stand F31	Panel World magazine is one of five magazines produced by North America-based Hatton-Brown Publishers, Inc. in the wood products industries. Panel World covers the domestic and international structural and non-structural panelboard and engineered wood products industries. Panel World editors provide 120 years of combined experience as they travel to mill projects worldwide and report on the latest product and equipment technology developments in the field.

Company Name	Website	Location	Company Information
Hexion Specialty Chemicals	https://www.hexion.com/	Hall 26, Stand D77	Hexion's products have been trusted for decades to enhance a wide range of applications, from adhesives and coatings to building materials, thanks to their extensive formulation expertise.
JoeScan	http://www.joescan.com/	Hall 25, Stand E01/1	Today's sawmills require reliable, easy-to-use 3-D scanning, which is why mills around the world rely on JoeScan scanners. Since introducing the JS-20 model in 2002, JoeScan has revolutionized how sawmills use scanners. JoeScan pioneered Ethernet communication for scanners and led the evolution to higher-density snapshot scanning with 6-inch spacing.
Lumber Marketplace	https://lumbermarketplace.com/	Hall 27, Stand K49	Lumber Marketplace provides an online platform to buy and sell lumber and related raw products
Mereen-Johnson	http://www.mereen-johnson.com/	Hall 27, Stand K49	Mereen-Johnson LLC has been Setting the Standard in Leading Technology and Lasting Performance for the solid wood and engineered materials industries since 1905. The company offers a complete line of engineered building materials and products.
MoistTech	https://www.moisttech.com/	Hall 26, Stand B27	MoistTech manufactures the diamond standard in moisture sensors. Providing continuous, reliable readings with zero maintenance, one-time calibration, and non-drift optical design, allows operational line adjustments directly on the production line based on real-time measurements
Nestec	https://www.nestecinc.com/	Hall 26, Stand H50	NESTEC is a leading supplier of new, replacement and refurbished air emission control systems including RTOs, RCOs, Wet ESPs, and other auxiliary emission control equipment. NESTEC provides design, manufacturing, installation, aftermarket solutions and onsite services.
Original Saw Company	http://www.originalsaw.com/	Hall 27, Stand K49	Established in 1990, Original Saw Company has grown to become the industry leader in American-made Radial Arm Saws.
Pallet Design System	http://www.palletdesignsystem.com/	Hall 27, Stand E06/1	The Pallet Design System™ (PDS) is the world's premier analysis, design and marketing tool. PDS is backed by over 40 years of cutting-edge research and development performed in collaboration with Virginia Tech and the U.S. Forest Service.

Company Name	Website	Location	Company Information
Polymax	http://www.polymaxpk.com/	Hall 13, Stand G45	
Safety Speed Manufacturing	https://safetyspeed.com/	Hall 27, Stand K49	Since 1958 Safety Speed Manufacturing has built a full line of Vertical Panel Saws, Panel Routers, Wide Belt Sanders, and Edgebanders allowing customers the ability to match the many features and price points exactly to their individual panel processing needs..
Sigma Thermal	http://www.sigmathermal.com/	Hall 26, Stand F76	Sigma Thermal engineers and manufactures modern Biomass Energy Systems. The systems are designed for finite combustion control, reduction of emissions, and utilization of waste fuels with varying characteristics.
SonicAire	http://www.sonicaire.com/	Hall 26, Stand D08/2	SonicAire fans, featuring their BarrierAire™ technology, were developed to combat the dangers of combustible dust and help facilities to avoid the deadly and costly results.
Super Thin Saws	http://www.superthinsaws.com/	Hall 27, Stand K49	As implied by the name, Super Thin Saws produces thin saw blades that reduce waste, increase yield, and boost bottom lines in the woodworking industry.
Taylor, James L.	http://www.jamestaylor.com/	Hall 27, Stand K49	James L. Taylor Mfg has been producing high quality American made machinery in Poughkeepsie , NY since 1911.
TSI	http://www.tsi-inc.net/	Hall 26, Stand F76	Located in Lynnwood, WA. USA, TSI designs and builds equipment for today's highly automated plants in the Engineered Wood and Biomass Industries. TSI offers integrated solutions for Dryer Islands, (Heat Energy, Drying and Emission Control) and Torrefaction.
USNR	http://www.usnr.com/	Hall 25, Stand D65	USNR manufactures complete wood processing facilities for sawmills, planermills, OSB, LVL, plywood, veneer and other engineered wood plants.
Wagner Meters	http://www.wagnermeters.com/	Hall 25, Stand B69	Since 1965, Wagner Meters provides tested, trusted, and proven moisture measurement technology to help woodworkers and wood products manufacturing professionals improve their products and profits with tools to help eliminate moisture-related problems.
Woodtech Machines	http://www.woodtechmachines.com/	Hall 27, Stand H59	Woodtech Machinery brings quality woodworking machines to the market, offering them at a fair and affordable price.
