

EMO Hannover 2025 U.S. Exhibitors (last updated August 1, 2025) *List sorted by hall number*

Hall 3 - Precision Tools / Marking

AMT - The Association For Manufacturing Technology	amtonline.org	3	F42	AMT supports manufacturers by providing insights on technology, fostering innovation, and advocating for workforce development. It helps members adapt to Industry 4.0 and contributes to the growth of manufacturing technology.
Hyperion	hyperionmt.com	3	H17	Hyperion specializes in advanced materials like tungsten carbide and synthetic diamond. Its solutions enhance productivity and durability for industries such as aerospace, automotive, and manufacturing.
Royal Products	royalproducts.com	3	D26	Founded in 1946, Royal Products manufactures metalworking performance accessories, specializing in live centers, collet closers, and precision workholding products.

Hall 4 - Precision Tools

Global CNC	globalcnc.com	4	G39	Global CNC manufactures lathe tool holders and workholding solutions in Plymouth, Michigan. With over 40 years of experience, the company offers American-made products and customer-focused service.
Mastercut	mastercuttool.com	4	F64	Mastercut has 40 years of experience manufacturing Endmills, Drills, Burs, and Routers for industries worldwide. The company offers reliable solutions backed by an extensive product range.
Vaportech	vaportech.com	4	A36	Vapor Technologies, Inc. (VaporTech®) manufactures PVD coating equipment, including the V.MAX1500™, i-Series™, and Cadence® Systems.

Hall 5 - Precision Tools / Measuring Technology and Quality Assurance

5th Axis Workholding	5thaxis.com	5	B22	5th Axis Inc. specializes in automated production, manufacturing, and machining. The company focuses on cost efficiency, rapid turnaround, and quality manufacturing, supported by expert engineering and customer satisfaction.
Digipas Technologies	digipas.com	5	D32	DigiPas Technologies manufactures inclinometers, leveling instruments, tilt-sensing devices, and smart security locks. With over 20 years of experience, the company provides MEMS-driven precision tools and IoT-enabled solutions.
Dorian Tool	doriantool.com	5	B57	Dorian Tool has over 40 years of experience developing innovative tooling for the metalworking industry. The company provides advanced tools that simplify machining processes, improve quality, and increase production output.
J.W. Done	jwdone.com	5	C02	J.W. Done Corporation developed the ORBITOOL®, a deburring tool for cross-drilled holes. It enables both manual and automated in-process deburring, removing burrs while protecting critical surfaces.

Hall 6 - Software / Industrial Electronics - Robotics and Automation / Components

Autodesk	autodesk.com	6	A46	Autodesk's Fusion 360 offers an integrated cloud platform for CAD, CAM, CAE, and PCB design. With 40 years of expertise, it enables efficient workflows, precision, and adaptability for manufacturers worldwide.
Mastercam	mastercam.com	6	A36	Mastercam provides CAD/CAM solutions to enhance productivity and streamline manufacturing processes. As part of Sandvik Manufacturing Solutions, it offers connected tools and global support.
Top Parts / Supplyway	top.parts	6	D03	Supplyway specializes in digital manufacturing, strategic sourcing, and industrial commerce. It provides OEM customers with cost-effective manufacturing services and sources industrial parts globally.
T-robotics	t-robotics.ai	6	C24	T-robotics develops robotics technology based on a decade of research. Its ActGPT platform uses AI to improve efficiency, adapt to unknown situations, and share learned data.

Hall 11 - Grinding - Surface Technology / Coolants and Lubricants - Safety and Environment

Darex Industrial	darex.com	11	B62	DAREX designs and manufactures sharpening tools in Medford, Oregon, with over 50 years of experience. Its durable products are engineered for daily use and supported by knowledgeable customer service.
QualiChem	qualichem.com	11	A30	Since 2004, QualiChem has developed advanced metalworking fluids to meet evolving industry needs. The company provides cutting and grinding solutions supported by a global network of partners.
Sunnen	sunnan.com	11	F72	Founded in 1924, Sunnen Products Company manufactures and distributes bore sizing and finishing equipment, engine rebuilding tools, and abrasives. The company improves manufacturing precision and performance.
UltraFlex	ultraflexpower.com	11	53	UltraFlex Power Technologies designs and manufactures induction heating equipment to reduce costs, improve energy efficiency, and enhance safety. The company operates globally, offering advanced solutions.

Hall 12 - Milling - Flexible Manufacturing / Turning / EDM - Additive Manufacturing

Air Turbine Tools	airturbinetools.com	12	E12	Air Turbine Tools® produces high-speed precision tools for CNC, robotic, and hand-finishing applications. Its advanced technology ensures cleaner cutting, faster production, and reduced issues compared to traditional tools.
Hurco	hurco.eu	12	C60	Hurco develops CNC vertical and horizontal machining centers and offers the MAX®5 control system for fast programming and setup. With over 50 years of experience, Hurco serves industries such as aerospace and energy.

Hall 13 - Milling - Flexible Manufacturing / Turning / Gear Cutting - Sheet Metal Working - Forming

Gleason Metrology Systems / Gleason Works	gleason.com	13	D18	Gleason provides gear production machinery, metrology systems, and design software for high-precision gears and components. The company offers tailored solutions for industries such as automotive, wind power, and mining.
---	---	----	-----	--

Hall 16 - Milling - Flexible Manufacturing / Turning

Haas Automation	haascnc.com	16	E04	Founded in 1983, Haas Automation manufactures American-made CNC machines and accessories. Known for high-quality and cost-effective solutions, Haas supports industries worldwide with reliable products.
------------------------	--	----	-----	---

Hall 17 - Turning / Sawing - Transfer and Special Production Machines

JLH Saws	jlhsaws.com	17	D49	JLH SAWS manufactures advanced metal sawing machines, offering fast, high-quality cutting solutions since 1983. The company exports to over 30 countries and operates global distribution centers.
-----------------	--	----	-----	--

M.K. Morse	mkmorse.com	17	E52	Morse manufactures cutting tools used across industries, from construction and automotive to aerospace. Its products support projects at all levels, enabling essential processes that shape daily life.
-------------------	--	----	-----	--
