

Docket Number: 25-067. Applicant: New Mexico Institute of Mining and Technology, 801

Leroy PL, Socorro, NM 87801. Instrument: JXA-IHP200F Field Emission Electron Probe

MicroAnalyzer (EPMA). Manufacturer: JEOL Ltd., Japan. Intended Use: The instrument is

intended to be used to study chemical composition of natural and synthetic materials.

Justification for Duty-Free Entry: According to the applicant, there are no instruments of the

same general category manufactured in the United States. Application accepted by

Commissioner of Customs: July 18, 2025.

Docket Number: 25-074. Applicant: University of Illinois, 352 Henry Administration Building

506 S. Wright St. Urbana, IL 61801. Instrument: FaunaScan MR2 Portable Radar System.

Manufacturer: Swiss Birdradar Solution AG, Switzerland. Intended Use: The instrument is

intended to be used to study birds, bats and insects. Justification for Duty-Free

Entry: According to the applicant, there are no instruments of the same general category

manufactured in the United States. Application accepted by Commissioner of Customs: July 24,

2025.

Docket Number: 26-003. Applicant: Washington University in St. Louis, 1 Brookings Dr. St.

Louis, MO 63130. Instrument: Externally Adjustable Four-Probe Stage. Manufacturer: Simtrum

PTE. LTD., Singapore. Intended Use: The instrument is intended to be used to study

semiconductor technology. Justification for Duty-Free Entry: According to the applicant, there

are no instruments of the same general category manufactured in the United States.

Application accepted by Commissioner of Customs: August 26, 2025.

Docket Number: 26-004. Applicant: University of Washington, 4320 Brooklyn Ave NE, Seattle, WA 98105. Instrument: Walk Away Specimen Professor (WASP). Manufacturer: COPAN, Italy. Intended Use: The instrument is intended to be used to support university clinical microbiology laboratory. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 29, 2025.

Docket Number: 26-005. Applicant: University of Illinois, 506 S. Wright Street, Urbana, IL 61801. Instrument: Pico Emerald Laser System with Laser Head, Control Unit and Chiller. Manufacturer: Applied Physics and Electronics Inc., Germany. Intended Use: The instrument is intended to be used to study tumors. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 26, 2025.

Docket Number: 26-006. Applicant: Washington State University, French Administration Building 240, Pullman, WA 99164. Instrument: JEOL F-200 STEM featuring dual EDS detectors, a Gatan ClearView 16MP Camera, a Gatan Alpine Direct Electron Detector. Manufacturer: Japanese Electron Optics Labs, Japan. Intended Use: The instrument is intended to be used to study organic and inorganic matter. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 21, 2025.

Docket Number: 26-007. Applicant: University of Iowa, 51 Newton Road 2-471-B1 BSB, Iowa City, IA 52242. Instrument: Zantiks MWP Z2S. Manufacturer: Zantiks Limited, United

Kingdom. Intended Use: The instrument is intended to be used to study stimulus and memory.

Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 29, 2025.

Docket Number: 26-015. Applicant: Rector & Visitors of the University of Virginia, 1001 Emmet St. N, Charlottesville, VA 22903. Instrument: Transmission Electron Microscope with Lorentz lens and Bi-Prism. Manufacturer: Thermo Fisher Scientific, FEI Company, Czech Republic. Intended Use: The instrument is intended to be used to study atomic-scale information on material structures as well as study cell structures in biological tissues.

Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 3, 2025.

Docket Number: 26-016. Applicant: University of Illinois, 352 Henry Administration Building 506 S. Wright St. Urbana, IL 61801. Instrument: Multimesh Terahertz Filter System.

Manufacturer: QMC Instruments Ltd., United Kingdom. Intended Use: The instrument is intended to be used to study star formation. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 5, 2025.

Docket Number: 26-020. Applicant: University of Chicago, 9700 South Cass Ave. Lemont, IL 060439. Instrument: ASWAXS Flight Tube. Manufacturer: AXILON AG, Germany. Intended Use: The instrument is intended to be used to study structural characteristics of nanomaterials.

Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 29, 2025.

Docket Number: 26-024. Applicant: University of Buffalo, 208 Davis Hall, White Road, Buffalo, NY 14260. Instrument: Transmission Electron Microscope – Thermo Scientific FEI Talos F200i. Manufacturer: Thermo Fisher Scientific Czech Republic, Czech Republic. Intended Use: The instrument is intended to be used for research in biomedical engineering, chemical and biological engineering, chemistry, electrical engineering, environmental engineering, pharmaceutical sciences, and physics. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 28, 2025.

Docket Number: 26-025. Applicant: University of Alaska, Butrovich Building 209B Fairbanks, AK 99775. Instrument: MICADAS. Manufacturer: Ionplus, Switzerland. Intended Use: The instrument is intended to be used for radiocarbon dating. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 28, 2025.

Docket Number: 26-028. Applicant: Wesleyan University, 52 Lawn Avenue, Middletown, CT 06459. Instrument: High Performance Photoluminescence Lifetime and Steady-State Spectrometer. Manufacturer: PicoQuant Photonics North America, Inc., Germany. Intended Use: The instrument is intended to be used to study organic dyes and polymers. Justification for

Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 28, 2025.

Docket Number: 26-030. Applicant: The Board of Trustees of the University of Illinois, 506 S. Wright St. Urbana, IL 61801. Instrument: Side Bounce Monochromator (SBM). Manufacturer: Axilon AG, Germany. Intended Use: The instrument is intended to be used to study molecular and atomic ordering of materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 18, 2025.

Docket Number: 26-033. Applicant: Virginia Commonwealth University, 601 W Main St. Richmond, VA 23284. Instrument: Cryo-System for Kerr Microscopy and Heating System. Manufacturer: Evico Magnetics, Germany. Intended Use: The instrument is intended to be used to study magnetism and materials characterization. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 19, 2025.

Docket Number: 26-038. Applicant: University of Nevada at Reno, 1664 N Virginia St, Reno, NV 89557. Instrument: CytoSub Deep. Manufacturer: CytoBuoy B.V., Netherlands. Intended Use: The instrument is intended to be used to study distribution of particles in lake water. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 3, 2025.

Docket Number: 26-043. Applicant: Rush University Medical Center, 1700 West Van Buren Street 265, Chicago, IL 60612. Instrument: Laser Microtome. Manufacturer: LLS Rowiak Laser LabSolutions GmbH, Germany. Intended Use: The instrument is intended to be used to study hard tissues like bone and teeth. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 7, 2025.

Docket Number: 26-045. Applicant: Battelle Memorial Institute, Pacific Northwest Division, 902 Battelle Blvd. Richland, WA 99354. Instrument: Treble+ Distributed Acoustic Sensing (DAS) Interrogator. Manufacturer: Terra15, Australia. Intended Use: The instrument is intended to be used to conduct spatial and temporal strain measurements. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 12, 2025.

Docket Number: 26-046. Applicant: The Board of Trustees of the University of Illinois, 506 S. Wright St. Urbana, IL 61801. Instrument: Surface Diffractometer with Double Crystal Deflector (DCD). Manufacturer: Huber Diffraction (Huber Diffraktionstechnik GmbH & Co.KG), Germany. Intended Use: The instrument is intended to be used to study amphiphilic molecules. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 16, 2025.

Docket Number: 26-048. Applicant: Murray State University, 200 General Services Building, Murray, KY 42071. Instrument: Bruker Avance NEO 400 MHz NMR Nanobay Spectrometer. Manufacturer: Bruker AG, Switzerland. Intended Use: The instrument is intended to be used to sample characterization and structural determination of new materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 18, 2025.

Docket Number: 26-050. Applicant: Michigan Technological University, 1400 Townsend Drive, Houghton, MI 49931. Instrument: Dielectrophoresis Instrument. Manufacturer: DEParator Ltd., United Kingdom. Intended Use: The instrument is intended to be used to study biological cells. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 2, 2025.

Docket Number: 26-053. Applicant: Battelle Memorial Institute, 902 Battelle Blvd. Richland, WA 99354. Instrument: Tunable Laser System. Manufacturer: Ekspla, Lithuania. Intended Use: The instrument is intended to be used to study electronic structure of certain molecules. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 13, 2025.

Docket Number: 26-056. Applicant: Rochester Institute of Technology, 120 Lomb Memorial Dr. Rochester, NY 14623. Instrument: Ultrafast Ti: Sapphire Laser. Manufacturer: Coherent NA

Inc., United Kingdom. Intended Use: The instrument is intended to be used to study nonlinear optics and biophotonics. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 30, 2025.

Docket Number: 26-058. Applicant: Fermi Forward Discovery Group, LLC, P.O. Box 500 Batavia, IL 60510. Instrument: Two Low-Voltage, High-Current Switch Mode Power Supply (SMPS) Systems. Manufacturer: Energy Technology S.r.l dba OCEM Power Electronics, Italy. Intended Use: The instrument is intended to be used to test superconducting cables. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 28, 2025.

Docket Number: 26-060. Applicant: University of Pennsylvania, 231 South 34 Street, Philadelphia, PA 19104. Instrument: Optical Amplifier ORPHEUS. Manufacturer: Light Conversion, Lithuania. Intended Use: The instrument is intended to be used to study plasmonic photocatalysis. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 28, 2025.

Docket Number: 26-061. Applicant: Washington University in St. Louis, 4525 Scott Avenue, St. Louis, MO 63110. Instrument: Biospec 15.2-Tesla Pre-Clinical MRI System. Manufacturer: Bruker Biospin Inc., Germany. Intended Use: The instrument is intended to be used to provide imaging for a preclinical facility. Justification for Duty-Free Entry: According to the applicant,

there are no instruments of the same general category manufactured in the United States.

Application accepted by Commissioner of Customs: October 28, 2025.

Docket Number: 26-062. Applicant: University of Pennsylvania, 3451 Walnut Street, Philadelphia, PA 19104. Instrument: Electrochemical Mass Spectrometry (EC-MS) System with Integrated Microchip Inlet. Manufacturer: Spectro-inlets, Denmark. Intended Use: The instrument is intended to be used to study electrochemical reactions. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 29, 2025.

Docket Number: 26-065. Applicant: University of Southern Indiana, 8600 University Blvd. Evansville, IN 47712. Instrument: Bruker Avance NEO Nanobay 400 MHz NMR. Manufacturer: Bruker AG, Switzerland. Intended Use: The instrument is intended to be used to study chemistry and biochemistry. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 31, 2025.

Docket Number: 26-067. Applicant: State University of Iowa, 101 Jessup Hall, Iowa City, IA 52242. Instrument: HE-TOPAS-PrimePlus OPA System. Manufacturer: Light Conversion, Lithuania. Intended Use: The instrument is intended to be used to study transition-metal photocatalysis. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 25, 2025.

Docket Number: 26-069. Applicant: Syracuse University, 1600 Jamesville Ave. Syracuse, NY 13244. Instrument: KiwiSat Argos Satellite Marker. Manufacturer: Lotek, New Zealand. Intended Use: The instrument is intended to be used to study marine mammal behavior. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 3, 2025.

Docket Number: 26-071. Applicant: Hobart and William Smith Colleges, 300 Pulteney St. Geneva, NY 14456. Instrument: JNM-ECZL 500G: 500MHz 11.7 T NMR Spectrometer. Manufacturer: JEOL, Ltd., Japan. Intended Use: The instrument is intended to be used for cancer research. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 28, 2025.

Docket Number: 26-074. Applicant: Colorado State University, 200 West Lake St. Fort Collins, CO 80523. Instrument: Compact Ultra High Contrast OPCPA Laser. Manufacturer: Light Conversion, Lithuania. Intended Use: The instrument is intended to be used to study metals and plastics. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 28, 2025.

Docket Number: 26-082. Applicant: Yale University, 15 Prospect St. New Haven, CT 06511. Instrument: Satsuma HP² High Power Femtosecond Laser. Manufacturer: Amplitude Laser, France. Intended Use: The instrument is intended to be used for new material discovery and

laser technology. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 2, 2025.

Docket Number: 26-088. Applicant: Northwestern University, 633 Clark St. Evanston, IL 60208. Instrument: CARBIDE pump laser with iOPA-F tunable-wavelength optical parametric amplifier. Manufacturer: Light Conversion, Lithuania. Intended Use: The instrument is intended to be used to conduct linear and deep-tissue microscopy. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 29, 2025.

Docket Number: 26-089. Applicant: Children's Mercy Hospital, 2401 Gillham Rd. Kansas City, MO 64108. Instrument: SKYSCAN 1273. Manufacturer: Bruker Biospin Corporation, Belgium. Intended Use: The instrument is intended to be used to study human and animal temporal bones. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 29, 2025.

Docket Number: 26-090. Applicant: University of Illinois, Urbana-Champaign, 506 S Wright St. Urbana, IL 61801. Instrument: Cytomat 24C Automated Incubator. Manufacturer: Thermo Electron LED GmbH, Germany. Intended Use: The instrument is intended to be used for cancer research. Justification for Duty-Free Entry: According to the applicant, there are no instruments

of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 29, 2025.

Docket Number: 26-096. Applicant: Wesleyan University, 52 Lawn Avenue, Middletown, CT 06459. Instrument: Nuclear Magnetic Resonance Spectroscopy magnet (NMR Magnet).

Manufacturer: Bruker Biospin, Switzerland. Intended Use: The instrument is intended to be used to study physical, chemical and biological properties of matter. Justification for Duty-Free

Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs:

November 7, 2025.

Docket Number: 26-097. Applicant: Trustees of Dartmouth College, 11 Rope Ferry Rd.

Hanover, NH 03755. Instrument: nanoindenter. Manufacturer: FemtoTools,

Switzerland. Intended Use: The instrument is intended to be used to understand plasticity and mechanical behavior of materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States.

Application accepted by Commissioner of Customs: November 10, 2025.

Docket Number: 26-098. Applicant: Fermi Forward Discovery Group, LLC., P.O. Box 500

Batavia, IL 60510. Instrument: 40kW 650 MHz RF Amplifier. Manufacturer: JEMA,

France. Intended Use: The instrument is intended to be used to study fundamental properties of neutrinos. Justification for Duty-Free Entry: According to the applicant, there are no

instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 12, 2025.

Docket Number: 26-101. Applicant: University of Washington, 1013 NE 40th St. Seattle WA 98105. Instrument: FetchAZA HP Rel 504 Pressure Recorder with Acoustic Release.

Manufacturer: SONARDYNE, United Kingdom. Intended Use: The instrument is intended to be used to measure ocean bottom pressure. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 14, 2025.

Docket Number: 26-103. Applicant: Indiana University Bloomington, 702 N. Walnut Grove, Bloomington, IN 47405. Instrument: IBEX Clumped Isotope sample preparation system V2.

Manufacturer: ProtiumMs, United Kingdom. Intended Use: The instrument is intended to be used to prepare soil samples for isotope analyses. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 18, 2025.

Docket Number: 26-110. Applicant: Battelle Memorial Institute, Pacific Northwest Division, 902 Battelle Blvd. Richland, WA 99354. Instrument: RT6-1000 Acoustic Release Transponders.

Manufacturer: Sonardyne International Ltd., United Kingdom. Intended Use: The instrument is intended to be used to study the effects of increased spill proportions on salmon migration and survival. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 31, 2025.

Docket Number: 26-114. Applicant: University of Louisville, 201 E. Warnock St. Louisville, KY 40202. Instrument: NMR Spectrometer Instrument. Manufacturer: Bruker Biospin Corporation,

Switzerland. Intended Use: The instrument is intended to be used to study the structure, dynamics, and interactions of biologically relevant macromolecules. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 28, 2025.
