

Docket Number: 25-070. Applicant: Arizona State University, 1711 S. Rural Road Tempe, AZ 85281. Instrument: Multiport Oscillator System. Manufacturer: TRUMPF Scientific Lasers GmbH + Co. KG, Germany. Intended Use: The instrument is intended to be used to study biological sciences; atomic, molecular and optical physics; and quantum materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 29, 2025.

Docket Number: 25-072. Applicant: Lawrence Berkeley National Laboratory, 1 Cyclotron Road, Berkeley, CA 94702. Instrument: Vacuum Chambers. Manufacturer: FMB FEINWERK – UND MESSTECHNIK GMBH, Germany. Intended Use: The instrument is intended to be used as a part of the Advanced Light Source. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: June 26, 2025.

Docket Number: 25-073. Applicant: Arizona State University, 1711 S. Rural Road Tempe, AZ 85281. Instrument: Chirped Mirror Compressor Subsystem. Manufacturer: TRUMPF Scientific Lasers GmbH + Co. KG, Germany. Intended Use: The instrument is intended to be used to study biological sciences; atomic, molecular and optical physics; and quantum materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 23, 2025.

Docket Number: 25-075. Applicant: Arizona State University, 1711 S. Rural Road Tempe, AZ 85281. Instrument: Trumpf Laser Boards Subsystem. Manufacturer: TRUMPF Scientific Lasers GmbH + Co. KG, Germany. Intended Use: The instrument is intended to be used to study biological sciences; atomic, molecular and optical physics; and quantum materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 23, 2025.

Docket Number: 26-001. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Pink Beam Slit & Drain Current. Manufacturer: JJ X-Ray, Denmark. Intended Use: The instrument is intended to be used to study quantum materials such as topological insulators, superconductors, and correlated electron systems. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: June 23, 2025.

Docket Number: 26-002. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Horizontally Deflecting Double-Crystal Monochromator (HDCM). Manufacturer: Axilon AG, Germany. Intended Use: The instrument is intended to be used to further the understanding of different materials and material properties. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 7, 2025.

Docket Number: 26-009. Applicant: Arizona State University, 1711 S. Rural Road, Tempe, AZ 85281. Instrument: Customized TruMicro 2000 Seed Laser System. Manufacturer: TRUMPF Scientific Lasers GmbH + Co. KG, Germany. Intended Use: The instrument is intended to be used to study biological sciences; atomic, molecular and optical physics; and quantum materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 29, 2025.

Docket Number: 26-010. Applicant: Arizona State University, 1711 S. Rural Road, Tempe, AZ 85281. Instrument: DIRA-500-1 (DIRA 350-1; CFBG and Waveshaper; Multipass 600-1; Compressor 500-1; Dry Air Generator). Manufacturer: TRUMPF Scientific Lasers GmbH + Co. KG, Germany. Intended Use: The instrument is intended to be used to study biological sciences; atomic, molecular and optical physics; and quantum materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 25, 2025.

Docket Number: 26-011. Applicant: The Board of Trustees of the Leland Stanford Junior University, 485 Broadway, Redwood City, CA 94063. Instrument: Hyperion II RF Plasma Oxygen Source for the Cameca Nano SIMS 50L. Manufacturer: Cameca, France. Intended Use: The instrument is intended to be used to study isotopic and elemental composition of a variety of materials. Justification for Duty-Free Entry: According to the applicant, there are no

instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 3, 2025.

Docket Number: 26-012. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Photocathode (PC) Gun Drive Laser. Manufacturer: Light Conversion USA, Lithuania. Intended Use: The instrument is intended to be used to study the photoemission process. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: April 18, 2025.

Docket Number: 26-013. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: 8-ID Pink Beam Filter. Manufacturer: JJ X-Ray, Denmark. Intended Use: The instrument is intended to be used to further the understanding of different materials and material properties. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 1, 2025.

Docket Number: 26-014. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Deflectic Focusing Mirror System. Manufacturer: Axilon AG, Germany, European Community. Intended Use: The instrument is intended to be used to develop of technologies for quantum computing and energy. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: June 27, 2025.

Docket Number: 26-017. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Nanopositioner and Accessories. Manufacturer: Onnes Technologies B.V., Netherlands. Intended Use: The instrument is intended to be used to study single photon emitters in semiconducting substrates. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 3, 2025.

Docket Number: 26-018. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: X-Ray Pulse Train Modulator. Manufacturer: TXproducts UG, Germany. Intended Use: The instrument is intended to be used to study thermal transport, phase transitions and electrical polarizations. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 18, 2025.

Docket Number: 26-022. Applicant: Lawrence Berkeley National Laboratory, One Cyclotron Road Berkeley, CA 94720. Instrument: JEM-ARM300F2(WS) Atomic Resolution Electron Microscope. Manufacturer: JEOL Ltd., Japan. Intended Use: The instrument is intended to be used to investigate the structure of materials down to the atomic scale. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 26, 2025.

Docket Number: 26-023. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: EIGER2 X 1M. Manufacturer: Dectris USA Inc., Switzerland. Intended

Use: The instrument is intended to be used to study condensed matter physics including semiconductor and quantum materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 1, 2025.

Docket Number: 26-027. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Liquid Nitrogen Cryocooler System. Manufacturer: RI Research Instruments GMBH, European Union. Intended Use: The instrument is intended to be used to study crystalline materials including precious metals, semiconductors, complex oxides and carbides. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 31, 2025.

Docket Number: 26-029. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: High Precision Air Bearing Stage. Manufacturer: LEUVEN AIR BEARINGS NV, Belgium. Intended Use: The instrument is intended to be used for X-ray nanotomography and laminography. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 8, 2025.

Docket Number: 26-037. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: High Performance Tunable Laser. Manufacturer: SANTEC USA CORP, Japan. Intended Use: The instrument is intended to be used for quantum transduction. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the

same general category manufactured in the United States. Application accepted by
Commissioner of Customs: August 4, 2025.

Docket Number: 26-039. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont,
Illinois 60439. Instrument: PtychoProbe Mechatronics Core. Manufacturer: Axilon AG,
Germany, European Community. Intended Use: The instrument is intended to be used to
investigate nanoscale structural, chemical, and functional properties of advanced materials.
Justification for Duty-Free Entry: According to the applicant, there are no instruments of the
same general category manufactured in the United States. Application accepted by
Commissioner of Customs: July 3, 2025.

Docket Number: 26-040. Applicant: Board of Trustees of the Leland Stanford Junior University,
450 Jane Stanford Way, Stanford, CA 94305. Instrument: Bluefors Dilution
Refrigerator. Manufacturer: Bluefors, Finland. Intended Use: The instrument is intended to be
used to study nano-mechanical resonators and microwave circuits. Justification for Duty-Free
Entry: According to the applicant, there are no instruments of the same general category
manufactured in the United States. Application accepted by Commissioner of Customs: July 28,
2025.

Docket Number: 26-044. Applicant: Lawrence Berkeley National Laboratory, One Cyclotron
Road, Berkeley, CA 94720. Instrument: Segmented Quad Germanium Detectors. Manufacturer:
Mirion Technologies (Canberra), Inc., France. Intended Use: The instrument is intended to be
used to study the structure and properties of atomic nuclei. Justification for Duty-Free
Entry: According to the applicant, there are no instruments of the same general category

manufactured in the United States. Application accepted by Commissioner of Customs: July 29, 2025.

Docket Number: 26-051. Applicant: Board of Trustees of the Leland Stanford Junior University, 450 Jane Stanford Way, Stanford, CA 94305. Instrument: Bluefors Dilution Refrigerator, Vector Magnet. Manufacturer: Bluefors, Finland. Intended Use: The instrument is intended to be used to study two-dimensional semiconductors, superconductors and semimetals. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 28, 2025.

Docket Number: 26-055. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Custom Lens. Manufacturer: Optique Peter, France. Intended Use: The instrument is intended to be used to study material science, time resolved tomography, geology and neuroimaging. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 19, 2025.

Docket Number: 26-063. Applicant: California Polytechnic State University San Luis Obispo, 1 Gran Avenue, San Luis Obispo, CA 93407. Instrument: Mach 6 Ludwig Tube Wind Tunnel. Manufacturer: HYPERSCALL-UND STROMUNGSTECHNIK GMBH, Germany. Intended Use: The instrument is intended to be used to study aerothermodynamic effects. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general

category manufactured in the United States. Application accepted by Commissioner of Customs: October 29, 2025.

Docket Number: 26-066. Applicant: Lawrence Berkeley National Laboratory, One Cyclotron Road, Berkeley, CA 94702. Instrument: 72 Scientific Vacuum Chambers. Manufacturer: SAES RIAL Vacuum S.r.l., Italy. Intended Use: The instrument is intended to be used to study chemical reactivity, thermal and electrical conductivity and magnetism. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 7, 2025.

Docket Number: 26-068. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Cryogenic Hall Probe. Manufacturer: IRC SENIS DOO, Serbia. Intended Use: The instrument is intended to be used to characterize magnetic strength and quality. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 4, 2025.

Docket Number: 26-070. Applicant: Arizona State University, 1711 S. Rural Road, Tempe, AZ 85281. Instrument: Spectral Broadening Multipass Cell (MPC) Optics Package Subsystem. Manufacturer: TRUMPF Scientific Lasers GmbH + Co. KG, Germany. Intended Use: The instrument is intended to be used to study biological sciences; atomic, molecular and optical physics; and quantum materials. Justification for Duty-Free Entry: According to the

applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 25, 2025.

Docket Number: 26-079. Applicant: U.S. Department of Health and Human Services, National Institute of Health, 8600 Rockville Pike, Bethesda, MD 20894. Instrument: Nuclear Magnetic Resonance Spectroscopy Cryoprobe and Cryoplatfrom. Manufacturer: BRUKER BIOSPIN, Switzerland. Intended Use: The instrument is intended to be used to study physical, chemical and biological properties of matter. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 19, 2025.

Docket Number: 26-080. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Microscope. Manufacturer: Optique Peter, France. Intended Use: The instrument is intended to be used to study morphology, defect characterization and dynamical processes. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 19, 2025.

Docket Number: 26-081. Applicant: Lawrence Berkeley National Laboratory, One Cyclotron Road, Berkeley, CA 94702. Instrument: Booster to Accumulator (BTA) Septa Magnet System. Manufacturer: SigmaPhi Magnets and Beam Transport, France. Intended Use: The instrument is intended to be used to study chemical reactivity, thermal and electrical conductivity, and magnetism. Justification for Duty-Free Entry: According to the applicant,

there are no instruments of the same general category manufactured in the United States.

Application accepted by Commissioner of Customs: September 26, 2025.

Docket Number: 26-085. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Pre-figured Mirror Mount System. Manufacturer: Instrument Design Technology, United Kingdom. Intended Use: The instrument is intended to be used to study dynamic optical, electronic, and structural properties of heterogeneous materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 13, 2025.

Docket Number: 26-086. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Photoreactor and Accessories. Manufacturer: Peschl Ultraviolet GmbH, Germany. Intended Use: The instrument is intended to be used to study light-driven catalytic and photocatalytic reactions. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 14, 2025.

Docket Number: 26-095. Applicant: Lawrence Berkeley National Laboratory, One Cyclotron Road, Berkeley, CA 94720. Instrument: Dilution Refrigeration System. Manufacturer: Bluefors Inc., Finland. Intended Use: The instrument is intended to be used to study superconducting thin-film sensors. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 6, 2025.

Docket Number: 26-099. Applicant: Lawrence Berkeley National Laboratory, One Cyclotron Road, Berkeley, CA 94720. Instrument: X-Ray Diffractometer. Manufacturer: Rigaku Americas Corporation, Japan. Intended Use: The instrument is intended to be used to study structure and phase identification of various ternary and quaternary compounds and investigate layered materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 12, 2025.

Docket Number: 26-100. Applicant: Lawrence Berkeley National Laboratory, One Cyclotron Road, Berkeley, CA 94720. Instrument: Ultra Low Vibration Cryo-Cooler. Manufacturer: CryoSpectra GmbH, Austria. Intended Use: The instrument is intended to be used to study thermal contact resistance, optical distortion, and thermal strain. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 20, 2025.

Docket Number: 26-102. Applicant: Lawrence Berkeley National Laboratory, One Cyclotron Road, Berkeley, CA 94720. Instrument: SR BE&C Vacuum Chambers. Manufacturer: CECOM SRL, Italy. Intended Use: The instrument is intended to be used to study nanostructures that mimic biological systems. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 17, 2025.

Docket Number: 26-137. Applicant: Iowa State University of Science and Technology dba Ames National Laboratory of the U.S. Department of Energy, 2408 Pammel Drive, Ames, IA 50011.

Instrument: Gyrotron and DNP Probe. Manufacturer: Bruker AG, Switzerland. Intended Use: The instrument is intended to be used to study molecular structure of various materials.

Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by

Commissioner of Customs: October 29, 2025.
