Re: REVIEW/COUNTRY/PRODUCT: Countervailing Duty Questionnaire

Dear NAME:

The U.S. Department of Commerce (Commerce) is PRODUCT LONG NAME (SHORT NAME) from COUNTRY LONG NAME (SHORT NAME).¹ See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, XX FR XXX (DATE). As part of our review, we are requesting that your government and certain companies provide answers to the enclosed questionnaire. We have selected the following companies as respondents in this administrative review: COMPANY LONG NAME (SHORT NAME). See FULL CITE TO RESPONDENT SELECTION MEMORANDUM. **OR** An administrative review of the following companies was requested: XXX. Please note that your government is responsible for forwarding copies of this cover letter and questionnaire to these respondent companies.

Commerce is inquiring into each subsidy program previously examined in the investigation or prior review, except for programs already determined to be terminated or not countervailable. Commerce will also examine any programs discovered during the course of this administrative review. Commerce has taken no position on whether these programs provide subsidies in this case, and our request for information on these programs does not imply that we will necessarily find them to provide countervailable subsidies. Our decisions on those questions will be made on the basis of information received during this proceeding (including information from you) in light of the applicable provisions of U.S. law.

If the government or respondent company has information demonstrating that a respondent company had no exports, sales, or entries of subject merchandise to the United States during the period of review (**DATE, THROUGH DATE**), then you may submit that information, along with supporting documentation, to Commerce instead of submitting a questionnaire response with regard to that company.

¹ On DATE, Commerce published in the Federal Register the countervailing duty order on PRODUCT LONG NAME from COUNTRY LONG NAME. See TITLE OF CVD ORDER, XX FR XXXXX.

Please refer to the cover page and general instructions of the enclosed questionnaire² for the due date for responding to this questionnaire, the official in charge, and the instructions for filing the response. The companies identified above must complete Section III of the questionnaire and must submit their responses to Commerce by the deadline noted. Your government must complete Section II of the questionnaire and submit a response by the same deadline.

With certain, limited exceptions, all submissions for all proceedings must be filed electronically using Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). An electronically filed document must be received successfully in its entirety by ACCESS by 5 p.m. Eastern Time (ET) on the date indicated on the cover page of the enclosed questionnaire.³ Note that Commerce has amended certain requirements pertaining to the service of documents in section 351.303(f) of our regulations.⁴

For your convenience, Commerce has the following resources available online to assist you in complying with these electronic filing procedures:

Please note that revised certification requirements are in effect for company/government officials as well as their representatives. In all segments of antidumping duty or countervailing duty proceedings, parties submitting factual information must use the formats for the revised certifications provided at the end of the *Final Rule*.⁵ Templates for these certifications are included as an appendix to this questionnaire.

² This questionnaire has been updated as of August 24, 2026.

³ We are also requesting that the company respondents submit certain information within 14 days of the date of this questionnaire. See Section III, page 1.

⁴ See *Administrative Protective Order, Service, and Other Procedures in Antidumping and Countervailing Duty Proceedings; Final Rule*, 88 FR 67069 (September 29, 2023).

⁵ See *Certification of Factual Information To Import Administration During Antidumping and Countervailing Duty Proceedings*, 78 FR 42678 (July 17, 2013) (*Final Rule*); see also the frequently asked questions regarding the *Final Rule*, available at <https://www.trade.gov/sites/default/files/2026-08/FAQ%20for%20Certifications.pdf?v=1786638677653>. Templates for these certifications are included as an appendix to this questionnaire.

Commerce must conduct this review in accordance with statutory and regulatory deadlines. If you are unable to respond completely to every question in the attached questionnaire by the established deadline, or are unable to provide all requested supporting documentation by the same date, you must notify the official in charge and submit a request for an extension of the deadline for all or part of the questionnaire response. If you require an extension for only part of your response, such a request should be submitted separately from the portion of your response filed under the current deadline. Statements included within a questionnaire response regarding a respondent's ongoing efforts to collect part of the requested information, and promises to supply such missing information when available in the future, do not substitute for a written extension request. Section 351.302(c) of Commerce's regulations requires that all extension requests be in writing and state the reasons for the request. Any extension granted in response to your request will be in writing; otherwise the original deadline will apply. Extensions for your government and for the respondent companies identified above must be requested separately; any extension granted will apply only to the party identified in the written extension issued by Commerce.

If Commerce does not receive either the requested information or a written extension request before 5 p.m. ET on the established deadline, we may conclude that the government or the respondent company(ies) have decided not to cooperate in this proceeding. Commerce will not accept any requested information submitted after the deadline. As required by section 351.302(d) of our regulations, we will reject such submissions as untimely. Therefore, failure to properly request extensions for all or part of a questionnaire response may result in the application of partial or total facts available, pursuant to section 776(a) of the Act, which may include adverse inferences, pursuant to section 776(b) of the Act.

In the unlikely event that you have received this questionnaire after the deadline to respond, you **MUST** contact the official in charge within 5 days of receipt of the questionnaire to receive further instructions and a revised deadline for the submission of the required information. Failure to do so may result in the presumption that you failed to cooperate by not acting to the best of your ability to comply with the request for information, and Commerce may use an inference that is adverse to your interests in selecting from the facts otherwise available, in accordance with section 776(b) of the Act.

DEADLINE FOR SUBMISSION: Your response is due no later than 5:00 p.m. Eastern Time on xxx date. Questionnaire responses normally entail the filing of many exhibits and databases on ACCESS. Accordingly, to the extent you submit your filing on the day it is due, rather than earlier, we strongly recommend that you begin uploading your response **no later than 12:00 noon on the above due date**. A questionnaire response must be filed in its entirety by the deadline to be considered timely.⁶

EXTENSIONS: **Note well:** Any extension request must be filed in writing. Extension requests filed after 5 p.m. on the due date will not be granted, except in extraordinary

⁶ 19 CFR 351.303(b)(1).

circumstances. An extraordinary circumstance is an unexpected event that could not have been prevented if reasonable measures had been taken, and that precludes a party or its representative from timely filing an extension request through all reasonable means.⁷ An extraordinary circumstance is extremely rare and may include “a natural disaster, riot, war, *force majeure*, or medical emergency.”⁸ Note that “the earlier an extension request is filed, the more likely Commerce may consider the extension request, decide on its disposition, and inform the requesting party of its decision before the time limit expires.”⁹ For extension requests that are filed very close to the expiration of the time for filing the submission, Commerce may issue a verbal response to a party’s extension request before the applicable time limit expires and issue a written response as soon as practicable.¹⁰

Note well:

Parties should be aware that **the likelihood of Commerce granting an extension will decrease the closer the extension request is filed to the applicable time limit** because Commerce must have time to consider the extension request and decide on its disposition. Parties should not assume that they will receive an extension of a time limit if they have not received a response from Commerce. For submissions that are due at 5:00 p.m., **if Commerce is not able to notify the party requesting the extension of the disposition of the request by 5:00 p.m., then the submission would be due by the opening of business (8:30 a.m.) on the next business day.** See 19 CFR 351.103(b).¹¹ **If a party requests an extension because of ACCESS/technical filing difficulties to which it did not receive a response from Commerce by 5:00 p.m., and the filing difficulties persist past 8:30 a.m. on the next business day, the party should contact the case analyst.**

If a party is experiencing issues with an ACCESS filing, the party should contact the ACCESS Help Desk by telephone to troubleshoot the filing issues. When experiencing filing issues on the day a submission is due, the filing party should also contact the case analyst if known, otherwise the official in charge, informing them of the filing difficulties. The submission for which a party is having difficulties filing on ACCESS should not be emailed to the case analyst or the official in charge.

SECTION I GENERAL INSTRUCTIONS AND INFORMATION

Commerce of Commerce (Commerce) is inquiring into each subsidy program previously examined in the investigation or prior review, with the exception of programs already determined to be terminated or not countervailable and programs based on allegations specific to companies other than those under review. Commerce will also examine any other potentially countervailable programs discovered during the course of this administrative review.

Our decisions will be made on the basis of information received during this proceeding. Absent new information or evidence of changed circumstances, however, we do not intend to reexamine the countervailability of programs previously found to be countervailable, or not countervailable. Likewise, for non-recurring subsidies previously found to be used by the company respondent(s) under review, we will not reexamine the benefit amount attributable to this review period from previously examined subsidy disbursements, absent new information.

This questionnaire is composed of three sections: Section I, which includes administrative review information and filing instructions; Section II, which includes questions for your government concerning the operation of the programs under examination; and Section III, which includes questions for the companies under examination regarding their use of the programs.

This administrative review is being conducted according to a statutorily mandated schedule. Your response to this questionnaire should include all of the information requested. If you are unable to provide the information requested completely, and within the time provided, Commerce may have to rely on the facts available. If you do not act to the best of your ability to comply with our requests for information, we may use information that is adverse to your interests in conducting our analysis. It is essential, and in your interest, that Commerce receive complete information early in the proceeding to ensure a thorough and accurate analysis and to provide all parties the fullest opportunity to review and comment on your submission and Commerce's analysis. If for any reason you do not believe that you can complete the response to this questionnaire by the date specified on the cover page, or in the form requested, you should contact immediately the officials in charge named on the cover page. Also, if you have any concerns about this questionnaire, we urge you to consult with the officials in charge regarding those concerns.

In addition to a questionnaire response from the company respondents named above, responses may be required from certain companies affiliated with the named respondents, companies involved in the sale of subject merchandise, and former owners (*see* Section III below for additional information). Therefore, when answering questions contained in Section II and Section III below, you must provide information regarding all such companies. All references to the "company respondents," "companies under review," "companies under examination," etc., in Section II are references to the companies named above as well as all other companies required to respond to Section III of the questionnaire.

The period covered by this review (*i.e.*, the period of review (POR)) is **INSERT DATE** to **INSERT DATE**.

III. INSTRUCTIONS FOR FILING THE RESPONSE

The following instructions apply to your response to this questionnaire and all other documents that you submit to Commerce during the course of this proceeding, such as responses to additional questionnaires, extension requests, and case briefs.

A. Filing

1. The government is responsible for submitting the responses for all central, provincial, state, and local governments, as well as any company information requested in the government section of this questionnaire. Either the government or the companies under review are responsible for submitting the company responses to Commerce in a timely manner such that they will be received by Commerce in Washington, DC, no later than the due date specified on the cover page of this questionnaire. All laws, regulations, and other descriptive materials that supplement your response should be submitted on the same date as the initial response.
2. All submissions must be made electronically using Commerce's ACCESS website at <https://access.trade.gov>. If an exception to the electronic filing requirement applies, you must address and manually submit your response to the address indicated at Section C "Manual Filing," below. To determine if your response qualifies for manual filing, *see* "Manual Filing."
3. Please label the electronic files that you upload to ACCESS in a manner indicating their specific contents. For example, "ABC Ltd March 15 QR – Exhibits 10-15," rather than "ABC Ltd March 15 QR – part 3." If possible, please do not split exhibits between electronic files.
4. The business proprietary response should be submitted on the due date specified. The public version of the response may be filed one business day after the proprietary response.
5. An electronically filed document must be received successfully in its entirety by ACCESS by 5:00pm Eastern Time (ET) on the due date, unless an earlier time is specified.

B. Format

1. You are required to state in the upper right-hand corner of your cover letter the following information in the following format:
 - a. on the first line, indicate the case number stated on the cover page to this questionnaire (*i.e.*, **C-XXX-XXX**);
 - b. on the second line, indicate the total number of pages in the document including cover pages, appendices, and any unnumbered pages;
 - c. on the third line, indicate “Administrative Review” and the time period (MM/DD/YY - MM/DD/YY);
 - d. on the fourth line, indicate Commerce office conducting the proceeding (*i.e.*, the office indicated on the cover page to this questionnaire);
 - e. on the fifth and subsequent lines, indicate whether any portion of the document contains business proprietary information and, if so, list the page numbers containing business proprietary information; and indicate the business proprietary/public status of the document and whether you agree or object to release of the submitted information under administrative protective order (APO) by stating one of the following:
 - “Business Proprietary Document -- May Be Released Under APO,”
 - “Business Proprietary Document -- May Not Be Released Under APO,”
 - “Business Proprietary/APO Version-- May Be Released Under APO,”
 - “Public Version,” or
 - “Public Document.”
2. Please include a “Re:” line on the cover letter of your response, and any other submissions you make during this proceeding. In the Re: line, briefly summarize the purpose of your submission, *e.g.*, “response to questionnaire,” “case brief.”
3. Prepare your response in typed form and in English (*see* 19 CFR 351.303(d) and (e) for these and other formatting requirements). Include an original and translated version of all pertinent portions of non-English language documents

that accompany your response, including financial statements. Any foreign language submission which is not accompanied by an English translation will be disregarded.

4. Repeat the question to which you are responding in your narrative submission and place your answer directly below it.
5. Please respond to each question. If a particular question does not apply, please state so and explain why in your response. Failure to do so could lead to the use of adverse inferences for that particular question.
6. In each of your answers, please identify your source of information. Please include with your response copies of source documents necessary to understand your response and include an original and translated version of all source documents. For additional information sources not included in your response, indicate the location where the documents or electronic data systems are maintained. If information is maintained at multiple locations, please list in an appendix to your response these locations along with notes indicating the information maintained at each location. This information is used by Commerce to prepare for verification.
7. Include all worksheets, financial reports, and other requested documents as appendices to your response.
8. Provide a table of appendices. Assign a number to each appendix and include a descriptive name for each appendix and its number in the table.
9. Identify all units of measurement, currencies, and conversion factors used in your narrative response, worksheets, or other appendices. All monetary amounts should be shown in the currency in which they were originally denominated, and in the currency in which they are registered in your accounts (if the two are different). Also, report the actual exchange rate used for a particular conversion. For all values adjusted for inflation, please provide the data in both nominal and adjusted terms and explain how these values were adjusted.
10. We request that tabulated information regarding company use of programs (*e.g.*, loans, loan guarantees, and grants) be submitted using the Microsoft Excel spreadsheet program compatible with the Microsoft Windows Operating System (MS-Windows) software for PCs.

11. It is your responsibility to contact the officials in charge if, subsequent to your filing, there are events that affect your response (*e.g.*, changes as a result of an audit).

C. Manual Filing

1. All submissions must be filed electronically. Only under the following four circumstances will Commerce accept a hardcopy response that is manually filed:
 - Documents exceeding 500 pages in length may be filed manually (in paper form) in the APO/Dockets Unit. This is referred to as a “bulky document.”
 - Data files greater than 50 MB may be filed in an alternative manner after consulting [Super Bulky Document Submissions.pdf](#) and contacting the ACCESS Help Desk at 202-482-3150.
 - If the ACCESS system is unable to accept filings continuously or intermittently over the course of any period of time greater than one hour between 12:00pm and 4:30pm ET or for any duration of time between 4:31pm and 5:00pm ET, then a person may manually file the document in the APO/Dockets Unit. Commerce will provide notice of such technical failures on the ACCESS Help Desk line at 202-482-3150 and on Enforcement and Compliance’s website, which is found at the following link: [Enforcement & Compliance](#).
 - Apart from the above, if you are unable to comply with the electronic filing requirement, as provided in 19 CFR 351.103(c) of Commerce’s regulations, and in accordance with section 782(c) of the Tariff Act of 1930, as amended (the Act), you must promptly notify the official in charge and submit a full written explanation of the reasons you are unable to file the document electronically. You must also suggest alternative forms in which to submit the information. Commerce will consider the ability of a submitter and may modify the electronic filing requirement on a case-by-case basis.
2. All manually filed documents must be accompanied by a cover sheet generated in ACCESS. For manually filed bulky documents, separator sheets must also be generated and used.
3. If your response qualifies as a bulky document and you opt to file it manually, you must file two identical paper copies of the document. For all other authorized manual submissions, only one paper copy is required.

4. Manual submissions must be addressed and submitted to:

Secretary of Commerce

Attention: Enforcement and Compliance, AD/CVD Operations Office

(specify office number indicated on the cover page of this questionnaire)

APO/Dockets Unit, Room 18022

U.S. Department of Commerce

Fourteenth Street and Constitution Avenue, N.W.

Washington, D.C. 20230

D. Certifications

1. Submit the required *certification of factual information*.¹³ Providers of information and the person(s) submitting it, if different (e.g., a legal representative), must certify that they have read the submission and that the information submitted is accurate and complete. Commerce cannot accept questionnaire responses that do not contain signed certifications. Forms for such certification are included as attachments to this questionnaire within Sections II and III.
2. Provide the required *certificate of service* (included as an attachment) with each business proprietary submission and its public version, as well as each fully public submission.
3. Signed certifications of accuracy and certificates of service should be scanned and appended to the appropriate electronic documents filed in ACCESS.

E. Business Proprietary Information and Summarization of Business Proprietary Information

1. You may request business proprietary treatment for information submitted that is not publicly available. As a general rule, Commerce places all correspondence and submissions received in the course of an antidumping or countervailing duty proceeding in a public reading file. However, information deemed to be proprietary will not be made available to the public. If you wish to make a request for proprietary treatment for particular information, refer to 19 CFR 351.304, 351.305, and 351.306. You must submit the request for proprietary

¹³ Commerce's certification requirements under 19 CFR 351.303(g) changed effective August 16, 2013. Any submissions made to Commerce pursuant to proceedings initiated on or after August 16, 2013, must be accompanied by the appropriate company, government, and representative certifications (as applicable). For more information refer to 78 FR 42678 (July 17, 2013) of the *Federal Register*.

treatment at the same time as the claimed business proprietary information is submitted to Commerce.

2. Utilize the “one-day lag rule” under 19 CFR 351.303(c)(2) if you wish an additional day to review the final bracketing of business proprietary information in a document and to prepare the required public version. The filing requirements under the one-day lag rule provide for a party to file only the business proprietary document within the applicable time limit (19 CFR 351.303(c)(2)(i)). By the close of business one business day after the date the business proprietary document is filed, the person must file the complete final business proprietary document (19 CFR 351.303(c)(2)(i)(ii)). The final business proprietary document must be identical to the original document except for any bracketing corrections.
3. By the close of business one business day after the date the business proprietary document is filed (refer to the “one-day lag rule” in the preceding paragraph), submit the public version of your response (19 CFR 351.303(c)(2)(i)(iii)). A public version must contain:
 - (1) a non-proprietary (public) version of your response that has sufficient detail to permit a reasonable understanding of the information submitted in confidence, and/or
 - (2) an itemization of particular information that you believe you are unable to summarize. State the reasons why you cannot summarize each piece of information.

Please note: The summarization requirement does not apply solely to the narrative portion of your response. It applies equally to worksheets and other appendices to your response. Generally, numerical data, such as that provided in sales and loan charts, are adequately summarized only if grouped or presented in terms of indices or figures ranged within 10 percent of the actual figure. Responses, or portions thereof, that are not adequately summarized may be rejected from the record of this proceeding.

4. Submit the statements required regarding limited release of business proprietary information under the provisions of an APO. U.S. law permits limited disclosure to representatives of parties (e.g., legal counsel) of certain business proprietary information, including electronic business proprietary information, under an APO. (Note that data received under an APO cannot be shared with others who are not covered by the APO.) Under the provisions governing APO disclosure, you must submit either:

- (1) a statement agreeing to permit the release under APO of information submitted by you in confidence during the course of the proceeding, or
- (2) a statement itemizing those portions of the information which you believe should not be released under APO, together with arguments supporting your objections to that release.

We are required by our regulations to reject, at the time of filing, submissions of business proprietary information that do not contain one of these statements. As discussed above, you must state in the upper right-hand corner of the cover letter accompanying your questionnaire response whether you agree or object to release of the submitted information under APO (*e.g.*, May Be Released under APO or May Not Be Released under APO). *See* 19 CFR 351.304 for specific instructions. If you do not agree to release under APO all or part of the proprietary information, but we determine that the information should be released, you will have the opportunity to withdraw the information (*see* 19 CFR 351.304(d)). However, any information which you withdraw will be removed from the official record and will not be used in our determination.

5. Place brackets (“[]”) around information for which you request business proprietary treatment.
6. Provide to all parties whose representatives have been granted APO access and who are listed on Commerce’s most recent APO Service List, a complete copy of the submission--proprietary document and public version, except for that information which you do not agree to release under APO. (APO service lists, as well as public service lists, are regularly updated and maintained as record documents in ACCESS at <https://access.trade.gov>. The current service lists are also either attached to the cover letter of this questionnaire or will be provided by a subsequent letter from Commerce). If you exclude information because you do not agree to release it under APO, you must submit the complete business proprietary version, wherein information in double brackets has been excluded. This version of the response must be marked “Business Proprietary/APO Version-- May Be Released Under APO” on the cover page. For parties that do not have access to information under APO, please provide a public version only.
7. A chart summarizing AD/CVD filing requirements can be found at the following link: [Document Filing Requirements for Website.pdf](#). Detailed and supplemental information concerning APOs can be found at the following link: [ACCESS Administrative Protective Order and Entry of Appearance Forms \(Release 4\) External User Guide](#).

F. Government Confidential Information

Any government confidential information submitted to us should be clearly labeled, preferably with the national security classification mark of the responsible authority. The appropriate authority should also submit a statement explaining, in detail, why the information is confidential.

Please note that any company-specific information submitted by government authorities, for which the government is acting merely as a conduit, is not entitled to government confidential treatment; such information is covered by the business proprietary information guidelines outlined above.

G. Verification

All information submitted is subject to verification. Failure to allow full and complete verification of any information may affect the consideration accorded to that or any other verified or non-verified item in the responses.

H. Extension Requests

Commerce must conduct this proceeding in accordance with statutory and regulatory deadlines. If you are unable to respond completely to every question in the attached questionnaire by the established deadline, or are unable to provide all requested supporting documentation by the same date, you must notify the officials in charge and submit a written request for an extension of the deadline for all or part of the questionnaire response. If you require an extension for only part of your response, such a request should be submitted separately from the portion of your response filed under the current deadline. Statements included within a questionnaire response regarding a respondent's ongoing efforts to collect part of the requested information, and promises to supply such missing information when available in the future, do not substitute for a written extension request. All extension requests must be in writing and state the reasons for the request, pursuant to 19 CFR 351.302(c). Any factual statements made in support of such reasons must be accompanied by the certifications required under 19 CFR 351.303(g). An extension request submitted without a proper certification for any factual information contained therein will be considered improperly filed and, as with any other improperly filed document, will not be accepted. Any extension granted in response to your request will be communicated in writing by Commerce; otherwise the original deadline will apply.

If Commerce does not receive either the requested information or a written extension request before 5:00pm ET on the established deadline, we may conclude that you have decided not to cooperate in this proceeding. Commerce will not accept any requested

information submitted after the deadline. As required by 19 CFR 351.302(d), we will reject such submissions as untimely. Therefore, failure to properly request extensions for all or part of a questionnaire response may result in the application of partial or total facts available, pursuant to section 776(a) of the Act, which may include adverse inferences, pursuant to section 776(b) of the Act.

I. Separate Letter of Appearance Required

Pursuant to 19 CFR 351.103(d)(1), “with the exception of a petitioner filing a petition in an investigation, to be included on the public service list for a particular segment, each interested party must file a letter of appearance.” The letter of appearance must be filed separately from any other document (with the exception of an application for APO access). If you have an ACCESS E-Filer account, you may also enter your appearance by logging into ACCESS at <https://access.trade.gov> and clicking on “Manage Entry of Appearance” and then “Create New Entry of Appearance.”

IV. SUBMISSION OF COMPUTER DATABASES AND SPREADSHEETS

A. Filing Instructions

Except as described above under the section “Manual Filing,” all database files, including Microsoft Excel spreadsheets that are less than 50 MB in size must be filed electronically using ACCESS. Instructions for using ACCESS can be found above and at <https://access.trade.gov>. Please refer to the Handbook on Electronic Filing Procedures in the “Help” section of the website.

Please label the electronic files that you upload in a manner indicating their specific contents. For example, ABC Subsidiary 1 March 15 Electricity Worksheet, rather than ABC March 15 QR – Excel 1.

B. Special Instructions for Manual Filing of Databases in the Event of ACCESS Technical Failure

3. Proceeding and time period
4. Name of official in charge
5. File formats and software used to create the databases or worksheets
6. File names, number of observations, and record lengths
7. ACCESS bar code number

SECTION II

QUESTIONNAIRE FOR THE GOVERNMENT OF THE PEOPLE'S REPUBLIC OF CHINA

This questionnaire requests information about certain subsidy programs alleged to be provided to producers/exporters of subject merchandise. The subsidy programs under examination in this questionnaire include all programs Commerce previously examined in the investigation or prior review of this order, except those subsidy programs found to be terminated or not countervailable. As such, this questionnaire addresses all subsidy programs found previously to be used (by the company respondents identified below and any other previously examined producers/exporters), subsidy programs previously found to be not used, and subsidy programs which did not provide countervailable benefits. Commerce will also examine any other potentially countervailable programs discovered during the course of this administrative review.

Absent new information warranting a program reexamination, we will not reevaluate prior determinations regarding the countervailability of programs. Thus, as noted below, if you think that determinations regarding the countervailability of programs should be revisited, it is incumbent upon you to provide the new information which you claim warrants such a reexamination.

Likewise, for non-recurring subsidies previously found to be used by the companies under examination, we will not reexamine the benefit amount attributable to this POR from previously examined subsidy disbursements, absent new information. Instead, we will calculate the subsidy rate from such previously examined disbursements by reliance on the benefit amount attributable to this POR as determined in the calculation memoranda of the investigation or prior review. Such memoranda will be placed on the record of this review by Commerce as necessary.

In addition to providing information related to subsidies received by the company respondent(s) identified in this questionnaire, you are responsible for providing the information requested below for certain companies affiliated with the named respondents, companies involved in their production or sales of subject merchandise, and former owners. (Please see Section III below for additional information.) All references to the company respondent(s), company under investigation, company under review, companies under examination, etc. in this section are references to the companies named below as well as all other companies required to respond to Section III of this questionnaire. Therefore, when providing answers to the questions below that solicit specific information for particular companies, you must provide information regarding all such companies. Please clearly separate your responses for each company.

Commerce allocates the benefits received from certain types of subsidies over time. Thus, although the POR is a recent period, we are reviewing alleged subsidies received over a time period corresponding to the AUL of fixed assets. In this administrative review, Commerce plans to use a  year AUL, which corresponds to the AUL used in the investigation or prior review(s) for this industry. However, pursuant to previous CVD determinations involving the PRC, we are not reviewing subsidies prior to December 11, 2001.

II-2

For any program which had multiple funding sources or which was administered by different levels of government, please provide information as to the roles played by each administering authority. If a question requires information from other authorities (e.g., state or local governments), please forward questions to the correct source. It is the responsibility of your government to ensure that full and complete responses to questions on regional/local programs are obtained from the appropriate regional/local authority.

We note that the mandatory respondent company(ies) is/are instructed to clearly identify and provide you with the name(s) of any cross-owned companies and/or trading companies that are potentially relevant under Commerce's attribution and/or trading company regulations, which it/they must include in its/their questionnaire response(s). Please ensure that you provide a complete response for any such identified cross-owned and/or trading company's use of all programs as well.

For each subsidy program, you must state whether a respondent company or any of the cross-owned or trading companies it has identified as potentially subject to this review did or did not apply for, use, or benefit from that program during the POR.

Regardless of whether the mandatory respondents and other identified companies used a particular program during the POR, please ensure that you provide a full and complete response to all questions for programs under "Programs Not Used or Provided No Measurable Benefits," as well as for any other subsidies that may be reported.¹⁴

If you claim that any of these programs has been terminated, please submit the legislation, law, decree, etc., which ended the program. Please state and document whether you have replaced the program with any successor program. Further, please explain whether there are any residual benefits that are still offered pursuant to the program.

replaced by a similar type of program, please provide a discussion of the replacement program to include the purpose of the program and the date it was established.

SECTION II
Allocation Appendix

Respondents should be aware that pursuant to 19 CFR 351.524, Commerce allocates the benefits received from certain types of subsidies over time. Although the POR is a recent period, we are investigating alleged subsidies received over a time period corresponding to the industry's average useful life of productive assets (AUL). According to 19 CFR 351.524(d)(2)(i), Commerce will presume that the industry's AUL corresponds to the AUL of renewable physical assets for the industry concerned as listed in the U.S. Internal Revenue Service's Depreciation Range System (IRS tables). In the case of the **INSERT** industry, the AUL is set at **XX** years.

According to 19 CFR 351.524(d)(2), parties to the investigation may choose to argue that the IRS tables do not reasonably reflect the AUL for the industry in question. To do so, parties must demonstrate that the AUL applicable to the industry producing subject merchandise in your country differs by one year or more from the AUL in the IRS tables. If any of the parties under investigation choose to pursue an AUL other than that identified in the IRS tables, you will be required to provide information for the corresponding number of years.

Pursuant to 19 CFR 351.524(a) through (c), each program (other than loan programs) will normally be treated as either recurring or non-recurring. The Secretary normally will treat the following types of subsidies as providing recurring benefits: direct tax exemptions and deductions, exemptions and excessive rebates of indirect taxes or import duties, provision of goods and services for less than adequate remuneration, price support payments, discounts on electricity, water, and other utilities, freight subsidies, export promotion assistance, early retirement payments, worker assistance, worker training, wage subsidies, and upstream subsidies. The Secretary normally will treat the following types of subsidies as providing non-recurring benefits: equity infusions, grants, plant closure assistance, debt forgiveness, coverage for operating losses, debt-to-equity conversions, provision of non-general infrastructure, and provision of plant and equipment.

If a particular form of assistance is not on one of the non-binding illustrative lists, or if you wish to claim that a particular form of assistance on the recurring list should be treated as non-recurring, or that a particular form of assistance on the non-recurring list should be treated as recurring, please address the following criteria:

- A. Whether the subsidy is exceptional in the sense that the recipient cannot expect to receive additional assistance under the same program on an ongoing basis, from year to year;
- B. Whether the subsidy required or received the government's express authorization or approval (i.e., receipt of benefits is not automatic); or
- C. Whether the subsidy was provided for, or tied to, the capital structure or capital assets of the recipient firm. (For a definition of capital structure and capital assets, see the preamble of the CVD regulations (63 FR at 65393).)

II-26

After considering the above criteria, please provide information for each non-loan program for either the POR or the AUL period, as appropriate.

Income Tax Appendix

If any of the companies under examination used this program to take deductions from taxable income, to receive credit towards taxes payable, to take exemptions from taxes owed, to reduce the tax rate, to defer payment of taxes, to carry forward losses from previous tax years, to use accelerated depreciation, or to benefit from other tax advantages on the tax return filed with the tax authorities during the period of review, please respond to the following questions.

- E. How do companies using this program calculate the tax benefit they claim? Please be specific and provide a sample calculation using a blank tax form.
- F. If the company carried forward a loss from prior years and used that loss to offset taxes due on the tax return filed during the period of review, demonstrate that this loss was not generated by use of any countervailable tax program.
- G. If the program involves a deferral of taxes owed, please provide the amount and length of the deferral, and the details of any interest charged on the deferral.
- H. If the tax assistance results in negative income for tax purposes, for example through accelerated depreciation, is the company able to carry forward this loss?

- I. For a program that provides a reduction in the tax rate or an exemption from taxes payable, please report the tax rate that was paid under the program and the tax rate that would have applied in absence of the program.

- D. All feasibility studies, market reports, economic forecasts, loan appraisals, or similar documents (*e.g.*, general industry market studies, industry-specific business publications) related to the future expected financial performance of the company related upon by the government entity making the investment decision.¹⁷ These studies, etc., must have been completed *prior to* the equity investment/conversion.
- E. Clearly explain the assumptions and conclusions of these studies or reports.

¹⁷ These studies, etc., need not pertain solely to the investment/conversion being reviewed, but may also be relevant to initial capital investments, capital to fund start-up operations, major expansion projects, repayment of loans, reorganizations, or any action that would affect the company's profitability.

SECTION II
Export Restrictions Appendix

- A. Provide a list of the industries in your country that purchase **INSERT ITEM** directly, using a consistent level of industrial classification. Provide the amounts (volume and value) purchased by the industry in which the mandatory respondent companies operate, as well as the totals purchased by every other industry. In identifying the industries, please use whatever resource or classification scheme your government normally relies upon to define industries and to classify companies within an industry. Please provide the relevant classification guidelines, and please ensure the list provided reflects consistent levels of industrial classification. Please clearly identify the industry in which the companies under investigation are classified.
- B. Are there trade publications which specify the prices of the good/service within your country and on the world market? Provide a list of these publications, along with sample pages from these publications listing the prices of the good/service within your country and in world markets during the POR.
- C. Please describe the measures taken by the government regarding the exportation of **INSERT ITEM** (i.e., export quotas, export taxes, licensing requirements, or additional measures).
- D. Provide copies of the legislation, regulations, or administrative decisions imposing these measures.
- E. Describe the purpose(s) of these measures. Please provide citations to the relevant official source documentation stating the purpose of these measures.
- F. When did the government put these measures into place? Provide specific information for each type of measure. Also, please identify the level of each measure (e.g., export tax was 5 percent from January 1, 2009, to October 1, 2009; 10 percent from October 1, 2009, to December 31, 2010) since the government put the restriction into place.
- G. Provide the domestic prices for **INSERT ITEM** during the POR.
- H. Please be specific in identifying the levels of government that have the authority to approve and administer the export restriction.

- I. Provide copies of official or independent studies or analyses on which the government has relied to analyze the effectiveness of the export restriction in meeting the government's objectives.
- J. Why did the government select these particular measures (*e.g.*, an export quota and export tariff) to achieve its stated goals in this area? To the extent that the goal was to reduce overall demand for exhaustible natural resources, why were border measures adopted rather than, for example, a tax on all domestic and export sales? If the government implemented more than one export restriction, why was adoption of more than one measure (rather than, *e.g.*, a larger export tariff alone) necessary? How are these measures intended to work together to achieve the stated goals?
- K. Describe any formal or informal meetings or other consultations or ongoing interaction with the **INSERT ITEM**-producing or **INSERT ITEM**-consuming industries or relevant producer or trade associations that the government has undertaken with respect to the imposition or adjustment of the export restrictions. If there is a relevant association in your country, please provide the rules or guidelines under which it operates, a list of its members and its relationship to the government. Please describe in what ways input from industry been considered and reflected in the determination of the level of the export restriction or in the administration of these measures? Please identify the companies and/or trade associations involved in any such consultative process or in the administration of the export restrictions.
- L. Describe each factor (*i.e.*, economic, commercial, social, etc.) that the government considers when determining the export restrictions (including taxes and/or quotas), and explain how these factors further the stated objectives of measures. Cite any official documents that identify these factors. Explain why the particular levels of the export restrictions have been chosen and why the government determined that those levels should be adjusted over time (*e.g.*, the tariff increased from 5 percent to 40 percent over the course of two years).

Please provide a translated copy of any study or analysis on which the government relied to determine the appropriate level of the export restriction, including any analysis that quantifies the impact of the export restriction on prices, production, and the production of downstream products.
- M. (Answer the following question if quotas are among the measures described in Question 1 above.) Please state whether the government sets a minimum acceptable price for export quota allocation bids. If the government sets such a price, describe the government's methodology for calculating the relevant price. Please provide any relevant study or analysis used to determine the minimum acceptable bid price for the POR and preceding three years.

- N. (Answer the following question if quotas are among the measures described in Question 1 above.) Provide a narrative description of the process through which a company applies and is approved for an export quota. Identify the qualifying criteria, and explain how these criteria further the stated objectives of the quota. Are different types of companies (*e.g.*, SOEs, FIEs, privately-held companies) treated differently under these criteria? Finally, provide a complete discussion of the circumstances under which the government denies applications.
- O. Do the current laws and regulations allow for any exceptions to the export restrictions? If so, please describe the purpose of these exceptions, and cite relevant regulations identifying these exceptions. What percentage of **INSERT ITEM** that was exported from your country during the POR was exempted from the export restrictions?
- P. Separately, for the POR and each of the preceding three years, please provide the following:
- a. the annual volume and value of **INSERT ITEM** produced and sold domestically in your country;

 - b. The total number of companies that the government approved for allocations under the quota.
 - c. Any industry-specific quantity allocation in **(UNIT OF MEASUREMENT)** for industries that received allocations under the quota. In identifying the industries, please use whatever resource or classification scheme your government normally relies upon to define industries and to classify companies

within an industry. Provide the relevant classification guidelines, and please ensure the list provided reflects consistent levels of industrial classification.

- d. The total number of companies that applied for, but were denied, export quota allocations.
- S. Provide supporting documentation and relevant government customs law regarding import duties and related fees/tariffs for **INSERT ITEM** during the POR.
- T. Provide your country's import duty rate and import VAT rate on imports of **INSERT ITEM** in effect during the POR.

SECTION III
QUESTIONNAIRE FOR PRODUCERS/EXPORTERS
UNDER REVIEW

Commerce is inquiring into each subsidy program previously examined in the investigation or prior review, with the exception of programs already determined to be terminated or not countervailable and programs based on allegations specific to companies other than those under review. As such, this questionnaire addresses all subsidy programs found previously to be used (by the company respondents identified below and any other previously examined producers/exporters), subsidy programs previously found to be not used, and subsidy programs which did not provide measurable countervailable benefits. Commerce will also examine any other potentially countervailable programs discovered during the course of this administrative review.

Your government may contend that certain programs listed below are not countervailable. For these programs, you must still respond fully to the questions below.

Absent new information warranting a program reexamination, we will not reevaluate prior determinations regarding the countervailability of programs. This includes determinations that previously examined programs are or are not countervailable.

Likewise, for non-recurring subsidies previously found to be used by a company under review, we will not reexamine the benefit amount attributable to this POR, absent new information. Instead, we will calculate the subsidy rate from such previously examined disbursements based on the benefit amount attributable to this POR, as determined in calculation memoranda of the investigation or prior review.

For general questionnaire instructions and a table of acronyms and abbreviations used in this questionnaire, please review **Section I** of this questionnaire.

Commerce has standardized the appendices to **Section II** and **Section III** of this questionnaire; one or more of the appendices may not be applicable to the circumstances of this review. You should only respond to the questions in a specific appendix if it is identified under a specific question below.

I. PRODUCERS/EXPORTERS SUBJECT TO REVIEW

Commerce has selected the below-listed companies as mandatory company respondents in this administrative review (hereinafter, respondent(s), company respondent(s), or companies under review).

An interested party(s) requested an administrative review of the following producer(s)/exporter(s):

- INSERT company name with short cite

Other Producers/Exporters Subject to Review

As the producer and/or exporter named above, you are subject to this review because of a request made by yourself or another party, or because Commerce selected your company for review. In addition to providing a response to this questionnaire regarding your own company, we require responses from certain affiliated companies or companies involved in your production or sales of subject merchandise, as explained below in sections A through D. A failure on the part of any such companies to provide a response to this questionnaire may adversely affect your own results in this review. For the remainder of this questionnaire, the terms respondent(s), company respondent(s), “you,” or “your company,” refer not just to the company named in the review request (and at the top of this section), but to all companies required to complete this questionnaire. Please provide separate answers under each question and separate spreadsheets for each of these companies.

Identification of the companies that you must include in your response is necessary early in this administrative review. Therefore, within 14 days of the date of this questionnaire, please submit to Commerce a list of the companies that you intend to include as part of your questionnaire response under the criteria in sections A through D below. Also within 14 days of the date of this questionnaire, please respond to questions C.1 and C.2 under the “Affiliated Companies” section below.

Unless specified differently, your answers to the requests below should cover your company’s situation during the POR. Usage of the present tense in this section refers to the POR.

We also instruct you to provide a list of those companies for which you are responding as soon as possible so that the government can include these companies in its response to this questionnaire.

The companies that must submit a complete response are the following:

III-3

A. Producers Supplying Exporters

If your company exported subject merchandise produced by other companies in your country during the POR, then you must submit complete questionnaire responses for all producers that supply your company.

B. Export Trading Companies

If your company sells the subject merchandise to an export trading company which then exports the subject merchandise to the United States, then you must submit complete questionnaire responses for all such trading companies.

C. Affiliated Companies

Affiliation is defined in section 771(33)(A)-(G) of the Act. Affiliation can be indicated by a number of factors, including: (1) personal family groupings, (2) corporate groupings, (3) shared board members or executive officers, (4) employer and employee relationships among owners, board members, or executive officers of multiple parties, (5) one party's ownership or control of stock with voting privileges in another, (6) franchise and joint venture agreements, (7) close supplier relationships, and (8) other indicia of control by one party over another, directly, or indirectly through third parties. "Control" exists where one party is legally or operationally in a position to exercise restraint or direction over another party.

Please provide the following information about your company's affiliated companies:

1. The identity of all companies with which your company is affiliated within the meaning of section 771(33) of the Act, including the full name and mailing address of each company.
2. Describe in detail the nature of the relationship between your company and those companies listed in response to the prior question. Specify for example, whether the companies share a board of directors, or whether members of each company's board sit on the board(s) of the other company(ies), and how the voting rights are distributed among board members; specify if, and how, officers of one company are directly involved in overseeing the operations of another company. Specify whether an affiliated company supplies inputs into your company's production process.

You must provide complete responses for certain "cross-owned" affiliated companies.

Cross-ownership exists between two companies where one company can use or direct the individual assets of another company in essentially the same ways it can use its own assets. Normally, such a relationship exists between two companies where one company holds, directly or indirectly, a majority voting interest in the other. In addition, if two companies are both cross-owned by a third party, the two companies themselves would be considered cross-owned (for

III-4

example, cross-ownership exists between two companies owned by the same parent).

You must provide a complete questionnaire response for those affiliates where “cross-ownership” exists, and one of the following situations exists:

- the cross-owned company produces the subject merchandise; or
- the cross-owned company is a holding company or a parent company (with its own operations) of your company;¹⁸ or
- the cross-owned company supplies an input product to you for production of the downstream product produced by the respondent; or
- the cross-owned company has received a subsidy and transferred it to your company.

D. Former Owners / Changes in Ownership¹⁹

Commerce allocates the benefits received from certain types of subsidies over time (e.g., equity infusions, non-recurring grants, debt forgiveness, import duty or value-added tax exemptions or reductions on capital equipment, etc.). See 19 CFR 351.524 and subsection C of the “General Questions” section below for a complete explanation.

Thus, in addition to investigating alleged subsidies that your company may have received during the POR, Commerce is also investigating alleged allocable, non-recurring subsidies that your company may have received during the AUL period. Because of this, if your company obtained all or substantially all the assets of another company during the AUL period, and that company still exists as an ongoing entity, or its assets continue to operate as part of your company, we require a complete questionnaire response for such company. If your company wishes to challenge Commerce’s baseline presumption that non-recurring subsidies continue to benefit the recipient over the allocation period, please coordinate with your government to answer the questions in the **Change-in-Ownership Appendix**. If your company does not wish to challenge Commerce’s baseline presumption that non-recurring subsidies continue to benefit the recipient over the allocation period, please so state and you do not need to provide a response to the **Change-in-Ownership Appendix**.

Finally, if your company has been privatized, changed ownership, merged with another

¹⁸ Your response must cover all cross-owned parent companies and holding companies, not only companies that directly held a controlling stake in your company during or prior to the POR. For example, if your company was a direct subsidiary of one cross-owned company, and that company was a direct subsidiary of another cross-owned company, then you must respond on behalf of both the cross-owned parent and the cross-owned “grandparent” companies. By direct subsidiary, we are referring to a company that is directly owned by another company. An indirect subsidiary, by contrast, has an intermediate owner between itself and the ultimate owner.

¹⁹ All cross-owned affiliates meeting the conditions under sub section C during the POI and AUL and are required to submit a complete questionnaire response should also provide a response to this section with regard to any former owners and changes in ownership.

company, or devolved another company/ies from your company's corporate structure in whole or in part, during the AUL period and your company wishes to challenge Commerce's baseline presumption that non-recurring subsidies continue to benefit the recipient over the allocation period, please coordinate with your government to answer the questions in the Change-in-Ownership Appendix. If your company does not wish to challenge Commerce's baseline presumption that non-recurring subsidies continue to benefit the recipient over the allocation period, please so state and you do not need to provide a response to this appendix.

II. GENERAL QUESTIONS

A. If your company was a respondent in the investigation or a previous administrative review, please submit the final calculation memorandum, including Microsoft Excel attachments, from the most recently completed segment of this proceeding.

B. Please provide the following information for your company, as well as for any other producer or exporter subject to this review, as defined above, that is involved in the manufacture, production or exportation of subject merchandise.

8. Provide the HTSUS subheadings or your country's tariff schedule numbers under which you export the subject merchandise.

- C. Please provide the following information for your company **for the POR**. Do not include the volume and value of merchandise produced outside your country or returned merchandise. Separately report the value of services sold by your company, if any. **In addition, separately report the value of sales by each cross-owned company, as well as the value of sales between your company and the cross-owned company.**

For years prior to the POR, please report sales information for the years of approval and receipt of non-recurring subsidies you report. *See, e.g., Grant and Allocation Appendix*. Please report sales information for all responding cross-owned companies during these years, not only sales information for the recipient of the subsidy.

If the actual values recorded in your accounting records are booked on a basis other than f.o.b., please describe any adjustments that were made to derive the f.o.b. values. In

Regarding 1 – 7 above: Please explain how the sales of subject merchandise are recorded in your company's financial records. Are your company's sales consolidated with those of other companies in the financial report of a parent, holding company, or group of companies? If so, please explain how, and provide copies of the consolidated financial statements.

- D. As established in 19 CFR 351.524(d)(2), the allocation period for non-recurring²⁰ subsidies is defined by the AUL of renewable physical assets for the industry concerned, as listed in the U.S. Internal Revenue Service's Depreciation Range System (IRS tables). The AUL listed in the IRS tables that applies to this investigation is **XX** years.

REMOVE THIS PARAGRAPH IF THE FIRST YEAR OF YOUR AUL PERIOD IS AFTER 2001:

In *Circular Welded Carbon Quality Steel Pipe from the People's Republic of China: Final Affirmative Countervailing Duty Determination and Final Affirmative Determination of Critical Circumstances*, 73 FR 31966 (June 5, 2008), and the accompanying Issues and Decision Memorandum at Comment 2, Commerce determined that it would only identify and measure subsidies in the PRC for purposes of the countervailing duty law from the date on which the PRC became a member of the WTO. We have continued to use this date in all subsequent CVD proceedings involving the PRC. Thus, we are investigating alleged subsidies provided on or after December 11, 2001, and the end of the POR.

III. **PROGRAMS PREVIOUSLY FOUND TO BE COUNTERVAILABLE**

A. **Loans and Credits**

Report all financing to your company that was outstanding at any point during the POR, regardless of whether you consider the financing to have been provided under this program. Submit the information requested in the **Loan Template** as an attachment to your response and in electronic format using Microsoft Excel.

Ensure that you report all forms of financing outstanding during the POR, not only traditional loans. This includes, but is not limited to, interest expenses on bank promissory notes, invoice discounting, and factoring of accounts receivable. If your company did not make interest payments on the financing during the POR (*e.g.*, factoring of accounts receivable), then identify the specific terms of the financing (*e.g.*, the discount rate associated with the factoring).

D. Grant Programs

For each grant program listed below, please confirm that your company meets either of the following conditions:

- a) You did not receive a grant during the POR under this program, and you have previously reported to Commerce all grants that you received under this program prior to the POR; or
- b) You never received a grant under this program between **INSERT** and the end of the POR.

Commented [S58]: Insert the beginning of the period you are reviewing for non-recurring subsidies.

E. Provision of Goods or Services for Less Than Adequate Remuneration (LTAR)

- 1. Provision of **INSERT INPUT** for LTAR

Use the paragraph below as your heading if we have not made a final determination that the program is countervailable during the POR for the previous year:

Commerce is currently examining the allegation that your government provides **NAME OF INPUT** for LTAR. As this program has not yet been found to be terminated or not countervailable, we are examining it in this review and questionnaire.

If we have already found the program to be countervailable, use the paragraph below as your heading:

Commerce has found this program to be countervailable. We are not reevaluating the

countervailability of this program. However, we must determine the extent to which your company used this program during this review period.

Under both of the two scenarios above, use the following questions:

- a. Using the attached Microsoft Excel template *Input Purchases*, please report all of your purchases of the input during the POR. Submit this information in electronic format using Microsoft Excel, and include a printout of the electronic file in your response.

As the template specifies, please report each purchase of the input during the POR. By each purchase, we are referring to each line item on a VAT invoice that corresponds to a unique price and/or quantity. For an example, *see* the attached reporting template.

Report all purchases with invoice dates that reflect actual deliveries during the POR. If another reporting basis that your company records in its accounting system more accurately reflects the establishment of the material terms of purchase dates that reflect actual deliveries during the POR, then report your purchases on this basis. Please explain why this basis is more accurate and clearly identify how it is recorded in your accounting system.

You should report this purchase information regardless of whether your company used the input to produce the subject merchandise during the POR.

- b. Commerce has requested certain information from your government regarding the input producers you report in response to question 1, above. Please coordinate with your government *immediately* in order to ensure that it has a complete list of these input producers, including full names and addresses in both Chinese and English, in a timely manner so that your government has sufficient time to report the necessary information in its questionnaire response by the established response deadline.
- c. Are there trade publications which specify the prices of the input within your country and on the world market? Provide a list of these publications, along with sample pages from these publications listing the prices of the input within your country and in world markets during the POR.
- d. Please provide a worksheet that shows your firm's per-metric ton freight expenses for transporting the input from the nearest seaport to your firm's factory complexes for each month of the POR. Provide supporting documentation for the months of March and October.

If your firm did not incur these expenses, please provide the same information for shipping a closely-related input product or finished product to or from the nearest seaport during the POR.

2. Provision of Electricity for LTAR

- a. Identify your company's suppliers of electricity during the POR.
- b. Using the attached **Electricity Template**, report the rates your company paid for electricity, by month, during the POR. Submit this information in electronic format using Microsoft Excel, and include a printout of the electronic file in your response.

If your company did not pay for electricity during the POR according to the rate categories in the chart (*i.e.*, peak, normal, valley, basic fees, base charges), then identify the appropriate rate categories in the chart you submit. If you received efficiency adjustments to your bill, please identify those separately, as well as any other discounts you may have received.

- c. Provide copies of your company's electricity bills for March and October of the POR.
- d. Are the electricity rates paid by your company established in a rate schedule applicable to industrial users in your area? If so, which user and voltage class categories (*e.g.*, Large Industrial User, 1-10 kilovolts) are applicable to your company?
- e. If your company does not pay rates established in a rate schedule, how are your electricity rates set?
- f. Did your company pay a reduced or preferential rate for electricity because of your location or because of the products your company produces?

3. Provision of Land-Use Rights for LTAR in **(INSERT LOCATION)** or for **(INSERT INDUSTRY, ETC.)**

NOTE: MODIFY QUESTIONS AS NEEDED FOR THE PROVISION OF LAND-USE RIGHTS FOR A PARTICULAR INDUSTRY/INDUSTRY TYPE (SUCH AS HIGH OR NEW TECHNOLOGY ENTERPRISES, ETC.) AND REPEAT THE FOLLOWING QUESTIONS FOR EACH LAND-USE RIGHTS PROGRAM.

Please confirm that your company meets either of the following conditions:

- a) You did not purchase or lease land-use rights in the location identified above during the POR and have previously reported to Commerce all purchases and leases of land-use rights in this location prior to the POR; or
- b) You never purchased or leased land-use rights in the location identified above between December 11, 2001 and the end of the POR.

If your company meets either of these two conditions, then you do not have to provide a response to the questions below.

If your company does not meet either of these two conditions, then please respond to the following questions.

1. Provide the complete name and address of each such facility or office covered by the provinces, municipalities, zones, etc. identified above.
2. For each instance in which your firm acquired or leased such land-use rights, please provide the following information.
 - a. Date of acquisition
 - b. Identity of seller (include the name in both the original language and English as well as an address).
 - c. Location of land (please be sure to specify whether the acquired land is located in a special economic and/or development zone).
 - d. Area of land (please be sure to specify the unit of measure)
 - e. Price paid for land-use rights (specify whether payment was in a lump sum or in installments)
 - f. Terms of payment
 - g. Duration of lease
 - h. Translated copy of the land-use contract
 - i. Provide the land-use certificates and land-use agreements issued to you by your local land-use bureau.
3. How did your company obtain the land-use rights identified in response to question 2? Please include in your response a discussion of whether your

company owns its land-use rights or rents its land.

4. Identify the criteria your company had to meet to obtain the land or land-use rights you identify in response to question 2. Include a copy of your application as well as a copy of any approval if different from the land-use agreement.
5. Indicate whether your acquisition of the land or land-use rights identified in response to question 2 was contingent upon your company's status (*e.g.*, state-owned enterprise, located in a particular geographical area, etc.) or activity (*e.g.*, production of a particular product, export sales, purchases from domestic suppliers, *etc.*).
6. If the price paid for the land or land-use rights identified in response to question 2 was negotiated, please provide copies of all correspondence, including emails, memoranda of intent, etc. exchanged with land officials pursuant to these negotiations.
7. State whether you hold allocated or granted land-use rights.

F. Export Buyer's Credits from China Export-Import Bank (China Ex-Im)

Under the Export Buyer's Credits program, the GOC disburses funds to Chinese exporters as payments on behalf of the exporters' customers. The GOC then collects repayment of the credit (*i.e.*, the loan) from the exporter's customer.

1. Please state whether to your knowledge any of your U.S. customers during the POR, received export buyer's credits from China ExIm for their purchases from you.
2. Did you, any cross-owned affiliates, and/or any export trading companies involved in the exporting goods to the United States receive payments from the export buyer's credit program during the POR?
3. If you or your U.S. customers report use of the program during the POR, please provide the following:
 - a. correspondence with China ExIm;
 - b. a complete response to the ***Loan Template*** (*see* Section III Attachment); and
 - c. export buyer's credits payment documentation from China ExIm.
4. Please complete the chart below for payments received from your U.S. customers during the POR. Further, please submit this chart in PDF and Excel format.

Public Information	These Fields May Be Business Proprietary Information, If Necessary							
Row Identifier	Customer Name	Account Name	Account Code	Invoice Number (for exported goods)	Invoice Date	Payment Date	Total Payment Value	Currency
1								
2								
3, etc.								

5. For the payments in the above chart, please provide the following:

- Provide a reconciliation of the total payments to your general ledger payment accounts and audited financial statements.
- Provide screenshots from your accounting system to support your reconciliation.
- For the first and last payment received in **Month X** and **Month Y** of the POR, provide bank payment transfers, credit documentation (if applicable), and invoices to support the payments.

6. If you have ever received any payments from the China ExIm from the export buyer's credits program, identify the account which captured the payment. Please explain whether this account is the same account that records the payment from the U.S. customer.

G. Export Seller's Credits from China Ex-Im

Report all financing to your company that was outstanding during the POR under this program. Submit the information requested in the **Loan Template** as an attachment to your response and in electronic format using Microsoft Excel.

H. Export Credit Insurance from SINOSURE

- Please respond to the **Standard Questions Appendix and Grant and Allocation Appendix**.
- If you held only a single policy with SINOSURE during the POR, provide a copy and English translation of the policy, along with the application you submitted in order to obtain that policy.
- If you held multiple export insurance policies simultaneously with SINOSURE during the POR, please provide the following:

- a. A chart listing all policies in effect during the POR, regardless of whether any payout was made to your company from SINOSURE. Your chart should indicate the merchandise covered (subject or non-subject), customer, customer location, invoice/transaction number, value, the rate paid to SINOSURE, policy number, type of policy if more than one (e.g., standard, premium), payout received from SINOSURE, and effective dates of the policy. If certain policies were issued pursuant to your shipment of renewable energy products, please indicate that in your chart as well.
- b. Explain whether a customer with multiple locations is covered by a single policy, or whether multiple policies are needed for such customers.
- c. Provide a copy and English translation of the policy covering your largest customer in the United States, if applicable. If your sales to the United States were not covered by any SINOSURE policies, provide a copy and English translation of the policy covering your largest customer to another market. Please also provide the application you submitted for the sample policy you provide.

I. Export Restrictions on INSERT INPUT

1. Using the attached Microsoft Excel template *Input Purchases*, please report all of your purchases of the input during the POR. Submit this information in electronic format using Microsoft Excel, and include a printout of the electronic file in your response.

As the template specifies, please report each purchase of the input during the POR. By each purchase, we are referring to each line item on a VAT invoice that corresponds to a unique price and /or quantity. For an example, *see* the attached reporting template *Input Purchases*.

Report all purchases with invoice dates that reflect actual deliveries during the POR. If another reporting basis that your company records in its accounting system more accurately reflects the establishment of the material terms of purchase dates that reflect actual deliveries during the POR, then report your purchases on this basis. Please explain why this basis is more accurate and clearly identify how it is recorded in your accounting system.

You should report this purchase information regardless of whether your company used the input to produce the subject merchandise during the POR.

2. Please provide a worksheet that shows your firm's per-metric ton freight expenses for transporting the input from the nearest seaport to your firm's factory complexes for each month of the POR. Provide supporting documentation for the months of March and October.

J. Equity Program

NOTE: LIST ALL EQUITY PROGRAMS HERE

- b) You have never received an equity infusion under this program between **INSERT** and the end of the POR.

Commented [SS9]: Insert the beginning of the period you are reviewing for non-recurring subsidies.

However, cite documentation in your response or your government's response that shows your company has never been an SOE. 7. State whether you hold allocated or granted land-use rights.

NOTE: Use the heading below for any programs that we have not yet found countervailable because respondents have not used the program or received measurable benefits in past segments. The questions listed above under the "Programs Previously Found to be Countervailable" section still apply.

OPTIONAL BASED ON YOUR CASE

III. PROGRAMS PREVIOUSLY FOUND TO BE COUNTERVAILABLE BASED ON AFA

Commerce found the following listed programs to be countervailable in a prior segment of this proceeding on the basis of partial or total AFA. As such, **for each program listed below**, please answer all questions in the **Standard Questions Appendix** and any other appendices appropriate to the type of program. Additionally, please answer all questions in the **Grant and Allocation Appendix for each company or cross-owned companies** that applied for, used, or benefitted from that program during the POR for recurring subsidies and the **xx**-year AUL period (i.e., the POR and preceding **XX** years) for non-recurring subsidies.

EXAMPLE

1. PROGRAM

Please respond to all questions in the following appendices:

1. LIST APPENDICES

USE THEI SECTION IF YOU HAVE INITIATED ON A NEW SUBSIDY ALLEGATION IN THE PRIOR ADMINISTRATIVE REVIEW AND IT HAS NOT GONE TO FINAL

IV. PROGRAMS ON WHICH COMMERCE HAS NOT YET MADE A FINAL COUNTERVAILABLE DETERMINATION

Commerce has not yet made a final countervailable determination with regard to the following listed programs. Because Commerce has not made a final determination on the countervailability of the programs, it is necessary to continue to review the programs. Therefore, if a company respondent (including any responding cross-owned affiliated companies) applied for or received benefits under the programs identified below during the POR, or during the preceding **XX** years for a non-recurring subsidy, please answer all questions in the Standard Questions Appendix and any other applicable appendices of this section, separately for each program/company. If no respondent company used a program during the stated time period, please so state; you need not provide a response to the appendices for the program.

1. LIST PROGRAMS

V. PROGRAMS NOT PREVIOUSLY USED OR PROVIDED NO MEASUREABLE BENEFITS

PLEASE ENSURE ALL PROGRAMS ARE LISTED FROM THE INVESTIGATION TO THE CURRENT REVIEW THAT HAVE APPEARED IN THE ORDER AND LISTED IN AN ISSUES AND DECISION MEMO.

Commerce has not yet made a countervailable determination with regard to the following listed programs, because either the programs were found not used or provided no measurable,

countervailable benefit during a prior segment (investigation or review), or Commerce deferred an examination of the program.

Because Commerce has not made a determination on the countervailability of the programs, it is necessary to continue to review the programs. Therefore, if your company applied for or received benefits under any of the recurring subsidy programs identified below during the POR, please answer all questions in the **Standard Questions Appendix and any other applicable appendices** of this section, separately for each program/company. If your company applied for or received benefits under any of the recurring subsidy programs identified below between **INSERT** and the end of the POR, please answer all questions in the **Standard Questions Appendix and any other applicable appendices** of this section, separately for each program/company. If no respondent company used a program during the stated time period, please so state; you need not provide a response to the appendices for the program.

NOTE: List the “NOT USED OR PROVIDED NO MEASUREABLE BENEFITS” programs here.

VI. OTHER PROGRAMS

Did your government (or entities owned directly, in whole or in part, by your government or any provincial or local government) provide, directly or indirectly, any other forms of assistance to your company between **INSERT** and the end of the POR? If so, please describe such assistance in detail, including the amounts, date of receipt, purpose and terms, and answer all questions in the appropriate appendices.

Commented [SS10]: Insert the beginning of the period you are reviewing for non-recurring subsidies.

Commented [SS11]: Insert the beginning of the period you are reviewing for non-recurring subsidies.

VI. **APPENDICES & DATA TEMPLATES**

SECTION III
Standard Questions Appendix

- A. Specify the eligibility criteria your company had to meet in order to receive benefits under this program. State whether eligibility was or is currently contingent on one or more of the following criteria: 1) whether or not your company exports or has increased its exports, 2) the use of domestic rather than imported inputs, 3) the industry to which your company belongs, or 4) the region in which your company is located.
- B. Describe in detail the application and approval process that your company undertook to receive benefits through the program.
- C. Specify the criteria your company met to receive the particular amount of assistance provided. Did the application or approval specify the merchandise for which this assistance was to be provided? If so, provide details of which merchandise was specified in the application and/or approval documents.
- D. What records does your company keep regarding each of the benefits received under this program? Provide your company's executed application forms and other application documents with respect to this program. Provide copies of the documentation sent to your company upon approval of the benefit, including but not limited to: approval letter, contract, claim form, etc.
- E. Specify how many years your company has received benefits under this program. What was the first year that your company applied for and received benefits? For programs under investigation that were not enacted pursuant to a legal instrument, indicate for how many years your company has participated in the program. For example, for programs involving the provision of inputs for less than adequate remuneration not enacted pursuant to a legal instrument, please indicate how many years your company has purchased the relevant inputs from the government, government-controlled entities such as state-owned enterprises, or other enterprises alleged to be "authorities" under section 771(5)(B) of the Act.
- F. Indicate where benefits under this program can be found in your accounting system (*i.e.*, specify the ledgers or journals) and financial statements. If you have to file anything with the government to continue receiving benefits under this program, provide a complete translated set of your most recent submissions made during, or before, the POI.
- G. Has the program been terminated? If so, please explain. When is the last date that your company could *apply for or claim* benefits under the program? When is the last date that your company could *receive* benefits under the program?

SECTION III

Average Useful Life Appendix

Respondents should be aware that, pursuant to section 351.524 of its regulations, Commerce allocates the benefits received from certain types of subsidies over time. Although the POR is a recent period, we are investigating alleged subsidies received over a time period corresponding to the industry's AUL. According to section 351.524(d)(2)(i) of Commerce's regulations, Commerce will presume that the industry's AUL corresponds to the average useful life of renewable physical assets for the industry concerned as listed in the U.S. Internal Revenue Service's Depreciation Range System (IRS tables). In the case of this investigation, the AUL is **XX** years. Therefore, with respect to subject merchandise, we would ordinarily investigate alleged subsidies received during the POR and the preceding **(AUL minus 1)** years. However, in the case of the PRC, we are investigating allocable subsidies received between **INSERT** and the end of the POR.

Commented [SS12]: Insert the beginning of the period you are reviewing for non-recurring subsidies.

According to 19 CFR 351.524(d)(2), parties to the investigation may choose to argue that the IRS tables do not reasonably reflect the company-specific AUL or the country-wide AUL for the industry in question. To do so, parties must demonstrate that the company-specific AUL applicable to the respondent companies or country-wide AUL applicable to the industry producing subject merchandise in your country differs by one year or more from the AUL in the IRS tables. If any of the parties under investigation chooses to pursue an AUL other than that identified in the IRS tables, you will be required to provide information for the corresponding number of years.

In table format, enter the beginning and ending gross book values of depreciable productive assets for each of the past ten years. (Do not include non-depreciable assets, such as land or construction in progress. Please seek to exclude the gross book value of any fully depreciated productive assets which are no longer in service.)

- A. Enter, as separate items in the table, each year's regular depreciation expense and any special charges to depreciation expense or revaluations and write-downs of productive assets.
- B. Explain how the numbers in the table reconcile to your financial statements.
- C. Explain your company's accounting policies concerning depreciation of productive assets. State whether straight-line or accelerated depreciation is used, and what conventions are applied.
- D. Explain whether your company maintains salvage value for productive assets; how salvage value is treated for depreciation purposes; and, if applicable, beginning and ending salvage value balances for each year in the table.
- E. If your company is claiming that the IRS tables do not reasonably reflect your company-specific AUL, please:

Provide a worksheet which shows the calculation of your company's AUL. To calculate the AUL using the raw data listed above:

- a. Sum the average annual balances of productive assets for all years (A).
- b. Sum the depreciation expenses for each year (D).
- c. Divide the sum of the productive assets amounts (A) by the sum of depreciation expenses (D) to arrive at the AUL. $AUL = A/D$.

B. Demonstrate that this rate differs significantly from the rate established in the IRS tables (*i.e.*, by at least one year).

F. If your company is claiming that the IRS tables do not reasonably reflect the country-wide AUL for this industry, please:

1. Contact your government to ensure that it will submit the country-wide rate.
2. Demonstrate that this rate differs significantly from the rate established in the IRS tables (*i.e.*, by at least one year).

SECTION III
Grant and Allocation Appendix

Questions A and B relate to whether the subsidy is “recurring” or “non-recurring.” For a further explanation of recurring and non-recurring, see 19 CFR 351.524(c).

- A. Does your company receive the subsidy on an ongoing basis under this program?
- B. Have you filed a separate application each time you have received benefits? Please explain. Has each disbursement been contingent upon separate government approval? Please explain.
- C. Are subsidies under this program provided for or tied to the capital structure or capital assets of your company? (For a definition of capital structure and capital assets, see the preamble of the CVD regulations (63 FR at 65393).)

If the subsidy is non-recurring, you should report the following information for each subsidy received during the AUL, but not for anything received prior to December 11, 2001. If the subsidy is recurring, then you need only provide this information with respect to subsidies received during the POR. The information should be provided in *chart form*:

- D. the amount of all subsidies authorized and the amount received (state whether the subsidy was received in a lump sum or in multiple disbursements);
- E. date of the approval of the subsidy and the date(s) it was received;
- F. total or export f.o.b. sales (depending on whether the program is a domestic or export subsidy) in the year in which the subsidy was approved; and
- G. total or export f.o.b. sales (depending on whether the program is a domestic or export subsidy) in the year in which the subsidy was received.

SECTION III
Income Tax Programs Appendix

If your company used this program to take deductions from taxable income, credit toward taxes payable, exemptions from taxes owed, accelerated depreciation or other tax benefits on the tax return *filed during the POR* (the tax period covered by this tax return does not have to correspond with the period of review), please answer the following questions:

- A. Explain whether the assistance is a deduction from taxable income, an exemption from taxes, a credit toward taxes payable, accelerated depreciation, a deferral of taxes owed, or other tax benefit.
- B. Indicate the amount of the tax savings derived from the use of this program. Provide a detailed calculation of the assistance and all source materials. Show the amount of tax (or the amount of loss incurred) that would have been due absent this benefit. **Indicate where in the tax return this assistance is shown.** For tax deferrals, please indicate the amount of tax owed and the length of the deferral period.
- C. If your company was in a tax loss position for the tax year to which the return applies, please explain the effect of this assistance on your company's tax position.
- D. Will you carry forward any loss to future years? Does the loss represent accrued losses from earlier years? Please explain.
- E. Indicate where in your company's financial statements tax information is represented. Are accrued tax losses carried as assets in the financial statements? Please explain.
- F. If you carried forward a loss from prior years and used that loss to offset taxes due on the tax return filed during the POR, demonstrate that loss was not generated by use of any countervailable tax program.
