

Docket Number: 26-008. Applicant: Northwestern University and Cornell University, 245 Fennie Way, Ithaca, New York 14853. Instrument: Upgrade Parts for Cryostat. Manufacturer: Bluefors, Inc., Finland. Intended Use: The instrument is intended to be used to study quantum information. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 7, 2025.

Docket Number: 26-019. Applicant: The University of Michigan, Ann Arbor, 1301 Beal, Ave. Ann Arbor, MI 48109. Instrument: Single frequency 652 nm VECSEL laser. Manufacturer: Vexlum Ltd., Finland. Intended Use: The instrument is intended to be used to study quantum interactions. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 8, 2025.

Docket Number: 26-035. Applicant: The University of Texas at Austin, 10100 Burnet Rd. Austin, TX 78758. Instrument: Dilution refrigerator system LD400. Manufacturer: Bluefors Inc., Finland. Intended Use: The instrument is intended to be used to study quantum transduction. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 30, 2025.

Docket Number: 26-041. Applicant: Rice University, 6100 Main Street, Houston, TX 77005. Instrument: Model BF-LD250 Cryogen-free refrigerator system. Manufacturer: Bluefors Inc., Finland. Intended Use: The instrument is intended to be used to study quantum defects.

Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 25, 2025.

Docket Number: 26-049. Applicant: Cornell University, 142 Sciences Drive, Ithaca, NY 14853.

Instrument: Dilution refrigerator. Manufacturer: Bluefors Inc., Finland. Intended Use: The instrument is intended to be used to study quantum circuits. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 18, 2025.

Docket Number: 26-054. Applicant: Vanderbilt University, 2201 West End Ave. Nashville, TN 37235. Instrument: Widely Tunable OPO Laser Source based near-field illumination unit for neaSCOPE microscope. Manufacturer: Attocube Systems GmbH, Germany. Intended Use: The instrument is intended to be used to study mechanisms of polariton-driven heat transfer. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 19, 2025.

Docket Number: 26-059. Applicant: University of California Berkeley, 151 Physics North, Berkeley, CA 94720. Instrument: Dilution Refrigerator. Manufacturer: Bluefors Inc., Finland. Intended Use: The instrument is intended to be used to study dark matter. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general

category manufactured in the United States. Application accepted by Commissioner of Customs: October 22, 2025.

Docket Number: 26-064. Applicant: University of Illinois Urbana-Champaign, 1817 S. Neil St. Campaign, IL 61820. Instrument: ProteoxMX Dilution Refrigerator. Manufacturer: Oxford Instruments America Inc., United Kingdom. Intended Use: The instrument is intended to be used to study physical properties of quantum materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 30, 2025.

Docket Number: 26-075. Applicant: University of California Berkeley, Physics North and South, Berkeley, CA 94720. Instrument: Custom Dilution Refrigerator with optical access and low vibrations. Manufacturer: Bluefors Inc., Finland. Intended Use: The instrument is intended to be used to study quantum transduction. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 28, 2025.

Docket Number: 26-076. Applicant: New York University, 726 Broadway 1071, New York, NY 10003. Instrument: Dilution Refrigerator. Manufacturer: Bluefors Inc., Finland. Intended Use: The instrument is intended to be used to study quantum devices. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 28, 2025.

Docket Number: 26-083. Applicant: University of California, Berkeley, Physics North and South, Berkeley, CA 94720. Instrument: LD250He Refrigerator System. Manufacturer: Bluefors Inc., Finland. Intended Use: The instrument is intended to be used for research in quantum information science. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 30, 2025.

Docket Number: 26-087. Applicant: Purdue University, 610 Purdue Mall, West Lafayette, IN 47907. Instrument: Optical Cryostat – attoDRY2100. Manufacturer: Attocube Systems AG, Germany. Intended Use: The instrument is intended to be used to study low-temperature quantum phenomena. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 17, 2025.

Docket Number: 26-091. Applicant: Purdue University, 610 Purdue Mall, West Lafayette, IN 47907. Instrument: Dilution Refrigerator and 12T Magnet. Manufacturer: Oxford Instruments Nanoscience, United Kingdom. Intended Use: The instrument is intended to be used to study low-temperature quantum phenomena. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 29, 2025.

Docket Number: 26-092. Applicant: University of Illinois Urbana-Champaign, 1817 S. Neil St. Champaign, IL 61820. Instrument: TeslatronPT with 14T Magnet. Manufacturer: Oxford Instruments America Inc., United Kingdom. Intended Use: The instrument is intended to be

used to study physical properties of quantum materials. Justification for Duty-Free

Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 30, 2025.

Docket Number: 26-094. Applicant: Purdue University, 610 Purdue Mall, West Lafayette, IN 47907. Instrument: Optical Cryostat – attoDRY800. Manufacturer: Attocube Systems AG, Germany. Intended Use: The instrument is intended to be used to study low-temperature quantum phenomena. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 6, 2025.

Docket Number: 26-104. Applicant: University of California, Riverside, 900 University Ave. Riverside, CA 92521. Instrument: Pharos PH2-20W-SP Laser A. Manufacturer: Light Conversion, Lithuania. Intended Use: The instrument is intended to be used to study quantum materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: December 1, 2025.

Docket Number: 26-107. Applicant: California Institute of Technology, 1200 E California Blvd. Pasadena, CA 91125. Instrument: Tunable Low-Noise Laser. Manufacturer: Sirah Lasertechnik GmbH, Germany and Newport Corporation, Thailand. Intended Use: The instrument is intended to be used to study quantum metrology. Justification for Duty-Free Entry: According to the

applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 18, 2025.

Docket Number: 26-113. Applicant: Boston University, 25 Buick Street, Boston, MA 02115.

Instrument: Femtosecond Laser. Manufacturer: Coherent NA, Inc., Scotland. Intended Use: The instrument is intended to be used to study genetically modified biological samples. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 5, 2025.

Docket Number: 26-115. Applicant: University of Wisconsin-Madison, 1150 University Ave.

Madison, WI 53706. Instrument: Dilution Refrigerator. Manufacturer: Bluefors Inc.,

Finland. Intended Use: The instrument is intended to be used to study semiconductor quantum dot qubits. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 7, 2025.

Docket Number: 26-116. Applicant: The Regents of the University of Michigan, 500 S. State

St. Ann Arbor, MI 48109. Instrument: Angle-resolved photoemission spectroscopy analyzer,

chamber, and light source. Manufacturer: Scienta Omicron, Inc., Sweden. Intended Use: The instrument is intended to be used to study electron arrangement and behavior. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: December 17, 2025.

Docket Number: 26-117. Applicant: Rice University, 6100 Main Street, Houston, TX 77005.

Instrument: neoflex MALDI-TOF/TOF MS System. Manufacturer: Bruker Scientific LLC,

Germany. Intended Use: The instrument is intended to be used to study methods of nucleic

acids manipulation. Justification for Duty-Free Entry: According to the applicant, there are no

instruments of the same general category manufactured in the United States. Application

accepted by Commissioner of Customs: September 22, 2025.

Docket Number: 26-119. Applicant: University at Buffalo. Instrument: MyoDish.

Manufacturer: InVitroSys, Germany. Intended Use: The instrument is intended to be used to

study electrical properties of the heart. Justification for Duty-Free Entry: According to the

applicant, there are no instruments of the same general category manufactured in the United

States. Application accepted by Commissioner of Customs: August 15, 2025.

Docket Number: 26-120. Applicant: University of California Santa Barbara, 3201 Student

Affairs and Administrative Services Building University of California, Santa Barbara, CA 93106.

Instrument: Energy and angle resolved electron analyzer. Manufacturer: Scienta Omicron,

Sweden. Intended Use: The instrument is intended to be used to study semiconductor

materials. Justification for Duty-Free Entry: According to the applicant, there are no

instruments of the same general category manufactured in the United States. Application

accepted by Commissioner of Customs: July 31, 2025.

Docket Number: 26-128. Applicant: Fermi Forward Discovery Group, LLC., 2000 East Wilson

St. Batavia, IL 60510. Instrument: 8kW Solid State Amplifier. Manufacturer: R&K Company, LTD.,

Japan. Intended Use: The instrument is intended to be used to conduct neutrino research.

Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: April 24, 2025.

Docket Number: 26-131. Applicant: University of Rochester, 284 Hutchinson Rd. Rochester, NY 14627. Instrument: Electron Microscope. Manufacturer: ThermoFisher Scientific, Czech Republic. Intended Use: The instrument is intended to be used to study morphology and crystal structure of various materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 29, 2025.

Docket Number: 26-134. Applicant: University of Delaware, 210 South College Ave. Newark, DE 19716. Instrument: Ultra-High Vacuum System for X-ray Photoelectron Spectroscopy and Angle-resolved Photoemission Spectroscopy. Manufacturer: Scienta Omicron, Germany. Intended Use: The instrument is intended to be used to study various properties of complex oxide and chalcogenide materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 17, 2025.

Docket Number: 26-135. Applicant: Texas Tech University, 2500 Broadway, Lubbock, TX 79409. Instrument: SpectromagPT system low voltage with 7T Magnet. Manufacturer: Oxford Instruments America Inc., United Kingdom . Intended Use: The instrument is intended to be used to study materials for spintronic applications. Justification for Duty-Free Entry: According

to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 19, 2025.

Docket Number: 26-138. Applicant: Washington and Lee University, 204 W. Washington St. Lexington, VA 24450. Instrument: inVia Qontor Spectrometer System. Manufacturer: Renishaw, Inc., United Kingdom. Intended Use: The instrument is intended to be used to study geological materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 4, 2025.

Docket Number: 26-147. Applicant: Regents of University of California at Berkeley, 1111 Franklin St. Oakland, CA 94607. Instrument: Dilution Refrigerator. Manufacturer: Leiden Cryogenics B.V., Netherlands. Intended Use: The instrument is intended to be used to study how various materials respond to magnetic field applications. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 29, 2025.
