Docket Number: 26-125. Applicant: Oakland University, 411 Pioneer Dr. Rochester, MI 48309. Instrument: JSM-1T710HKLV Low Vacuum Scanning Electron Microscope. Manufacturer: JEOL Ltd., Japan. Intended Use: The instrument is intended to be used to study metal contacts and interconnects. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 30, 2025.

Docket Number: 26-127. Applicant: University of Virginia, 530 McCormick Rd. Charlottesville, VA 22904. Instrument: Radio Telescope. Manufacturer: MTEX Antenna Technology, Germany. Intended Use: The instrument is intended to be used to study dark matter. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 30, 2025.

Docket Number: 26-129. Applicant: University of Iowa, 129 East Jefferson St. Iowa City, IA 52242. Instrument: Leica Confocal Microscope. Manufacturer: Leica Microsystems, Germany. Intended Use: The instrument is intended to be used to study electrical and chemical synapses development. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 26, 2025.

Docket Number: 26-130. Applicant: University of Miami, 1531 Brescia Ave. Coral Gables, FL 33146. Instrument: FluoTime 300. Manufacturer: PicoQuant GmbH, Germany. Intended Use: The instrument is intended to be used to research quantum dots. Justification for Duty-

Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: February 19, 2026.

Docket Number: 26-136. Applicant: UChicago Argonne LLC, 9700 South Cass Ave. Lemont, IL 60439. Instrument: RF Power Amplifier. Manufacturer: SEOCAL Incorporated, Japan. Intended Use: The instrument is intended to be used to provide power for APS operations. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 28, 2025.

Docket Number: 26-137. Applicant: Iowa State University (dba Ames National Laboratory) 2408 Pammel Dr. Ames, IA 50011. Instrument: Gyrotron and DNP Probe. Manufacturer: Bruker AG, Switzerland. Intended Use: The instrument is intended to be used to study molecular structure of various materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 29, 2025.

Docket Number: 26-139. Applicant: UChicago Argonne LLC, 9700 South Cass Ave. Lemont, IL 60439. Instrument: Electron Beam Evaporator. Manufacturer: SPECS GmbH, BU FOCUS, Germany. Intended Use: The instrument is intended to be used to study thin film. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 6, 2025.

Docket Number: 26-141. Applicant: Massachusetts Institute of Technology, 170 Albany St. Cambridge, MA 02139. Instrument: 1.3mm probe for a 600MHz NMR Spectrometer. Manufacturer: Bruker, Switzerland. Intended Use: The instrument is intended to be used to research possible drugs against diseases. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 4, 2025.

Docket Number: 26-143. Applicant: New York University, 726 Broadway 1071 New York, NY 10003. Instrument: Dilution Refrigerator. Manufacturer: Bluefors, Finland. Intended Use: The instrument is intended to be used to study quantum devices. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 17, 2025.

Docket Number: 26-144. Applicant: UChicago Argonne LLC, 9700 South Cass Ave. Lemont, Illinois 60439. Instrument: Solid State RF Amplifier Parts. Manufacturer: R&K Company Limited, Japan. Intended Use: The instrument is intended to be used to provide RF power to APS. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 17, 2025.

Docket Number: 26-146. Applicant: UChicago Argonne LLC, 9700 South Cass Ave. Lemont, Illinois 60439. Instrument: RF Beam Position Monitor Electronics. Manufacturer: Instrumentation Technologies, Slovenia. Intended Use: The instrument is intended to be used

to measure the position of electron beam in APS. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 18, 2025.

Docket Number: 26-148. Applicant: University of Massachusetts-Amherst, 240 Thatcher Rd. Amherst, MA 01003. Instrument: Heliosmart He Recovery System for 800MHz NMR Spectrometer. Manufacturer: Bruker Biospin Corporation, Switzerland. Intended Use: The instrument is intended to be used study small and large molecules. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 20, 2025.

Docket Number: 26-149. Applicant: Rice University, 6100 Main St. Houston, TX 77005. Instrument: Voltage Preamplifiers and Power Supplies. Manufacturer: Basel Precision Instruments, Switzerland. Intended Use: The instrument is intended to be used to study electronic conduction in nanostructures. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: December 1, 2025.

Docket Number: 26-150. Applicant: Battelle Memorial Institute, 902 Battelle Blvd. Richland, WA 99352. Instrument: ZSX Primus IV Sequential Wavelength-Dispersive X-Ray Fluorescence Spectrometer. Manufacturer: Rigaku Americas, Japan. Intended Use: The instrument is intended to be used to measure chemical composition of various materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general

category manufactured in the United States. Application accepted by Commissioner of Customs: December 10, 2025.

Docket Number: 26-151. Applicant: Stanford University, 476 Lomita Mall, Stanford, CA 94305. Instrument: Scanning tunneling microscope with helium3 insert. Manufacturer: Unisoku Co. Ltd., Japan. Intended Use: The instrument is intended to be used to study atomic structures and electronic properties of materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 29, 2025.

Docket Number: 26-152. Applicant: University of California, Riverside, 900 University Ave. Riverside, CA 92521. Instrument: Cryocooling LD400 System w PT310 and Wiring Options and Upgrade to PT310-RM Cryocooler. Manufacturer: Bluefors Oy, Finland. Intended Use: The instrument is intended to be used for quantum research. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: December 15, 2025.

Docket Number: 26-153. Applicant: Clemson University, 190 Collins St. Clemson, SC 29634. Instrument: Nuclear Magnetic Resonance. Manufacturer: Bruker BioSpin Corporation, Switzerland. Intended Use: The instrument is intended to be used to study non-radioactive and non-magnetic materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 2, 2026.

Docket Number: 26-154. Applicant: University of Maryland, 1000 Hilltop Circle, Baltimore, MD 21250. Instrument: Proteox 450 System Cryostat. Manufacturer: Quantum Design, Inc., United Kingdom. Intended Use: The instrument is intended to be used to study semiconducting materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 4, 2025.

Docket Number: 26-155. Applicant: University of North Carolina at Chapel Hill, 104 Airport Drive, Chapel Hill, NC 27599. Instrument: Krios G4 CryoElectron Microscope. Manufacturer: Thermo Fisher Scientific, Netherlands. Intended Use: The instrument is intended to be used to study human diseases. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 2, 2026.

Docket Number: 26-156. Applicant: Battelle Memorial Institute, 902 Battelle Blvd. richland, WA 99354. Instrument: Nanotag Freshwater DSP. Manufacturer: Lotek Wireleless Inc., Canada. Intended Use: The instrument is intended to be used to study fish species. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 5, 2026.

Docket Number: 26-157. Applicant: University of Michigan, 500 S. State St. Ann Arbor, MI 48109. Instrument: XYZ Stage and Rotator. Manufacturer: Vacgen Limited., United Kingdom. Intended Use: The instrument is intended to be used to study electron behavior.

Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 5, 2026.

Docket Number: 26-159. Applicant: University of Pittsburgh, 4200 Fifth Ave. Pittsburgh, PA 15260. Instrument: Mass Spectrometer. Manufacturer: Bruker Scientific LLC, Germany. Intended Use: The instrument is intended to be used to study proteins. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 6, 2026.

Docket Number: 26-160. Applicant: University of Kentucky, 800 Rose St. Lexington, KY 40536. Instrument: Tekna Tek15 Plasmasonic ICPT15 15kW Induction Plasma High Enthalpy Wind Tunnel. Manufacturer: Tekna Plasma Systems, Inc., Canada. Intended Use: The instrument is intended to be used to study heat shield materials and ultra-high temperature ceramics. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 6, 2026.

Docket Number: 26-161. Applicant: University of South Carolina, 915 Bull St. Columbia, SC 29208. Instrument: DEBEN-907-00047: DEBEN CENTAURUS-PMT CL Detector, DEBEN WDS PORT. Manufacturer: Deben UK Limited, United Kingdom. Intended Use: The instrument is intended to be used to study volcanic properties of minerals. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category

manufactured in the United States. Application accepted by Commissioner of Customs: January 6, 2026.

Docket Number: 26-162. Applicant: Mass General Brighan Inc., 399 Revolution Dr. Somerville, MA 02145. Instrument: Biospec 15T/11cm Magnetic Resonance Imaging. Manufacturer: Bruker Biospin, France. Intended Use: The instrument is intended to be used for research in neurobiology, oncology and cardiology. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 6, 2026.

Docket Number: 26-163. Applicant: Michigan State University, 578 Shaw Ln. East Lansing, MI 48824. Instrument: Ultrafast Spinning Probe for Solid-State Nuclear Magnetic Resonance Spectrometer. Manufacturer: Bruker BioSpin GmbH And Co. KG., Germany. Intended Use: The instrument is intended to be used for research on cellular and heterogeneous bio-samples. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 6, 2026.

Docket Number: 26-164. Applicant: University of Arizona, 1630 East University Blvd. Tucson, AZ 85721. Instrument: Modulator for an X-band Magnetron, standard Model M060, combined with a microwave isolator and waveguide parts. Manufacturer: Scandinova Systems Nordica Group AB, Sweden. Intended Use: The instrument is intended to be used for research on ionization of various gases. Justification for Duty-Free Entry: According to the applicant, there

are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 5, 2026.

Docket Number: 26-168. Applicant: University of Alabama at Birmingham, 1720 2nd Ave. South, Birmingham, AL 35294. Instrument: JSM-IT810(HL) Scanning Electron Microscope System. Manufacturer: Jeol Ltd., Japan. Intended Use: The instrument is intended to be used to characterize materials at the nanoscale and provide imaging support for various fields of research. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 7, 2026.

Docket Number: 26-169. Applicant: University of Illinois Chicago, 845 W Taylor St. Chicago, IL 60607. Instrument: timsTOE flex LC-MS System. Manufacturer: Bruker Daltonics GmbH & Co.KG., Germany. Intended Use: The instrument is intended to be used for research into human health and diseases. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 7, 2026.

Docket Number: 26-170. Applicant: Brookhaven National Laboratory, 98 Rochester St. Upton, NY 11973. Instrument: Multi-Purpose Electron Microscope Model: JEM-F200 (CF-HR) and accessories and attachments. Manufacturer: Japan Electron Optics Laboratory Co., Ltd., Japan. Intended Use: The instrument is intended to be used to study nanoscale characterization. Justification for Duty-Free Entry: According to the applicant, there are no

instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 7, 2026.

Docket Number: 26-171. Applicant: UChicago Argonne LLC, 9700 South Cass Ave. Lemont, IL 60439. Instrument: LD400 GHS2 with Custom MXC Plate. Manufacturer: Bluefors Inc., Finland. Intended Use: The instrument is intended to be used in quantum research. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 12, 2026.

Docket Number: 26-172. Applicant: Mayo Clinic, 200 First Street SW, Rochester, Minnesota 55905. Instrument: MRI BioSpec 70/20 USR System. Manufacturer: Bruker BioSpin Corp., Germany. Intended Use: The instrument is intended to be used for research on neuroscience, hepatology, nephrology, cardiology and oncology. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 6, 2026.

Docket Number: 26-173. Applicant: Columbia University, 500 W 120 St. New York, NY 10027. Instrument: Tunable Laser Source (Model TSL-570A). Manufacturer: Santec, Japan. Intended Use: The instrument is intended to be used in quantum research. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 20, 2026.

Docket Number: 26-174. Applicant: University of Texas and Austin, 10100 Burnet Rd. Austin, TX 78758. Instrument: ID281-SO-8 channel Superconducting Nanowire Single-Photon Detectors. Manufacturer: ID Quantique, Switzerland. Intended Use: The instrument is intended to be used in quantum research. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 20, 2026.

Docket Number: 26-175. Applicant: University of Illinois, 506 S Wright St. Urbana, IL 61801. Instrument: Chameleon Discovery NX with TPR: Dual (Laser). Manufacturer: Coherent NA Inc., United Kingdom. Intended Use: The instrument is intended to be used in memory research. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 26, 2026.

Docket Number: 26-176. Applicant: Battelle Memorial Institute, 902 Battelle Blvd. Richland, WA 99354. Instrument: Apreo 2S LoVac Field Emissions Scanning Electron Microscope and ancillary equipment. Manufacturer: FEI Company, Czech Republic. Intended Use: The instrument is intended to be used to research structure, composition, microstructure and electrochemical performance of materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 29, 2026.

Docket Number: 26-177. Applicant: University of Illinois Urbana-Champaign, 506 S. Wright St. Urbana, IL 61801. Instrument: OptoRes Laser. Manufacturer: OptoRes, Germany. Intended

Use: The instrument is intended to be used for tumor diagnosis. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 20, 2026.

Docket Number: 26-186. Applicant: Lawrence Berkeley National Laboratory, 1 Cylclotron Rd. Berkeley, CA 94720. Instrument: Superconducting Nanowire Single-Photon Detector. Manufacturer: ID Quantique SA, Switzerland. Intended Use: The instrument is intended to be used for quantum research. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 26, 2026.

Docket Number: 26-187. Applicant: University of California, 1111 Franklin St. Oakland, CA 94607. Instrument: Dilution Refrigerator. Manufacturer: Bluefors Inc., Finland. Intended Use: The instrument is intended to be used for quantum research. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 20, 2026.

Docket Number: 26-190. Applicant: University of Wisconsin Madison, 2015 Linden Dr. Madison, WI 53706. Instrument: Motif video recording system (Custom Kastl HighRes System V2). Manufacturer: Loopbio, Austria. Intended Use: The instrument is intended to be used for insecticide and antiparasitic drug research. Justification for Duty-Free Entry: According to the

applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 26, 2026.
